Project Title: On-Farm Connections Vehicle Turnouts Project

Project Applicant: Sacramento Regional County Sanitation District (Regional San)

Project Location (include county): south Sacramento County

Project Description:

Harvest Water (formerly the Sacramento Regional County Sanitation District South Sacramento County Agriculture & Habitat Lands Recycled Water Program) includes expanding Regional San's recycled water system to serve agricultural uses in south Sacramento County. The effects of Harvest Water were analyzed in an EIR that was certified in 2017. The On-Farm Connections Vehicle Turnouts Project (project)—an element of Harvest Water—includes aspects that were not known at the time the Program EIR was prepared, and this new information is the focus of the Addendum. The project includes the installation of permanent vehicle turnouts to be used for parking off of the paved roadway during operations and maintenance activities related to the lateral pipelines. The vehicle turnouts would be located within the public road ROW. In some instances, the vehicle turnout may extend a short distance onto private agricultural lands immediately adjacent to the road ROW.

This is to advise that the Sacramento Regional County Sanitation District has approved the above
(☒ Lead Agency or ☐ Responsible Agency)

Described project on July 14, 2021 and has made the following determinations regarding the above described project.
(date)

1. The On-Farm Connections Vehicle Turnouts Project, as analyzed in the Addendum, will not result in any new or substantially more severe significant environmental impacts beyond those described in the certified EIR.

2. The On-Farm Connections Vehicle Turnouts Project will not meet any other conditions described in State CEQA Guidelines Section 15162 calling for the preparation of a subsequent EIR.

3. Mitigation measures from the certified EIR were made a condition of the approval of the project; no new project-specific mitigation measures are required.

4. The implementation of applicable mitigation measures from the certified EIR will be monitored and reported pursuant to the Harvest Water Mitigation Monitoring and Reporting Program.

5. The previous findings were reaffirmed for this project pursuant to the provisions of CEQA.

This is to certify that the Addendum is available to the general public at: https://www.regionalsan.com/harvest-water, along with the certified EIR with comments and responses and record of project approval. A printed copy may be reviewed at 10060 Goethe Road, Sacramento, CA 95827, Attn: Gayleen Darting, (916) 875.6425.
