Project Title: Oselot-Baroque Substation and Line Project

Project Applicant: Sacramento Municipal Utility District

Project Location (include county): The project site is located within the City of Rancho Cordova within the boundaries of Zinfandel Drive, Sunrise Boulevard, International Drive and Douglas Road. The proposed 2.4-mile overhead 69-kV subtransmission line would parallel the Folsom South Canal on the east, along U.S. Bureau of Reclamation property and north of Douglas Road for approximately 2,200 feet before crossing to the south side of Douglas Road to an existing radial 69-kV line located approximately 450 feet west of the intersection of Sunrise Boulevard and Douglas Road.

Project Description: The proposed project would revise a portion of the original approved project's 69-kV subtransmission line route alignment. This would include relocating the subtransmission line from the west side of the Folsom South Canal to the east side of the Folsom South Canal from International Drive to Douglas Road; and then continuing east along the north side of Douglas Road for approximately 2,200 feet before crossing Douglas Road to make a connection to an existing radial 69-kV line. Also included is the connection to the future Oselot substation located at 3435 Oselot Way. The project is a critical component needed to energize the future Oselot-Baroque substation, and to meet the demand for electric service in the City of Rancho Cordova and surrounding area.

This is to advise that the Sacramento Municipal Utility District has approved as (Lead Agency or Responsible Agency) the above described project on 10/15/2020 and has made the following determinations regarding the above described project.

1. The project [will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Subsequent Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
 A Subsequent or Supplemental EIR [was was not] required and an Addendum to a previously certified EIR was prepared for this project pursuant to the provisions of CEQA.
3. New or revised mitigation measures [were were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [was was not] adopted for this project.
5. A statement of Overriding Considerations [was was not] adopted for this project.
6. Findings [were were not] made pursuant to the provisions of CEQA.

This is to certify that the Subsequent Mitigated Negative Declaration (SCH # 2005062073) is available to the General Public at:

Sacramento Municipal Utility District, 6201 S Street, Sacramento, CA 95817-1899
