Project Title: Pure Water Monterey/Groundwater Replenishment (PWM/GWR) Water Allocation Project

Project Applicant: Monterey Peninsula Water Management District (MPWMD)

Project Location (include county): MPWMD service area, Monterey County

Project Description:

The Proposed Project would consist of the allocation of additional new water supply made available by the expansion of the PWM/GWR Project amongst the Monterey Peninsula jurisdictions within the District's service area. The District anticipates additional water supply will become available by the end of 2025. The District would consider several factors when determining the allocation, including but not limited to historical average water consumption data, water production data, water availability, and estimates of job and population growth for each jurisdiction based on the Association of Monterey Bay Area Governments (AMBAG) 2022 Regional Growth Forecast. The calculation would be consistent across jurisdictions but may be modified based on specific requests or agreements reached during the negotiation process with each jurisdiction.

This is to advise that the Monterey Peninsula Water Management District has approved the above
