Project Title: Amendments to Ventura County General Plan Policies COS-7.7 and COS-7.8

Project Applicant: County of Ventura

Project Location (include county): unincorporated Ventura County

Project Description:

The Ventura County General Plan, approved on September 15, 2020, is a long-range plan that guides decision-making, establishes rules and standards for development and County improvements, and provides direction for County development through the year 2040 on growth and development. The project amends Policies COS-7.7 and COS 7.8 to incorporate mitigation measures recommended in the Final Environmental Impact Report for the 2040 General Plan that were not previously incorporated into the 2040 General Plan. Because the proposed policy revisions that constitute the Project were already included as mitigation measures in the EIR, the Project requires no changes to the 2040 General Plan EIR. The County has prepared an Addendum, in accordance with Section 15164 of the CEQA Guidelines, to evaluate potential impacts of the Project on limited resource areas implicated by Policies COS-7.7 and COS-7.8.

This is to advise that the County of Ventura has approved the above (Lead Agency or Responsible Agency)

described project on April 9, 2024 and has made the following determinations regarding the above described project.

- 1. The project will have a significant effect on the environment. N/A See attached.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Notice of Determination – Attachment

On September 15, 2020, the County Board of Supervisors adopted the 2040 General Plan. The Plan is a long-range plan that reflects the County's vision for the future, provides direction through the year 2040 on growth and development, and is an expression of the quality of life in Ventura County.

To support the approval of the 2040 General Plan, the Board of Supervisors certified on September 15, 2020 a Final Environmental Impact Report ("EIR") (SCH No. 2019011026) to assess the reasonably foreseeable and potentially significant adverse environmental effects that may occur from implementation of the 2040 General Plan. For those environmental topic areas which were found to have impacts that would be significant and unavoidable, the Board adopted the required Findings of Fact and Statement of Overriding Considerations under CEQA Guidelines Section 15093.

The current project amends Policies COS-7.7 and COS 7.8 of the 2040 General Plan to incorporate mitigation measures recommended in the Final EIR that were not previously incorporated into the 2040 General Plan. Because the proposed policy revisions that constitute the Project were already included as mitigation measures in the EIR, the Project requires no changes to the 2040 General Plan EIR. The County has prepared an Addendum to the Final EIR, in accordance with Section 15164 of the CEQA Guidelines, to evaluate potential impacts of the Project on limited resource areas implicated by Policies COS-7.7 and COS-7.8. The Addendum concludes that the current project, the addition of mitigation measures previously evaluated in the EIR, will not result in any new or substantially more severe impacts.
