On February 8, 2007, The Board of Library Commissioners approved a new Branch Facilities Plan. This Plan includes criteria for new Libraries, which recommends new size standards for the provision of LAPL facilities—12,500 Square feet for community with less than 45,000 population and 14,500 square feet for community with more than 45,000 population and up to 20,000 square feet for a Regional branch. It also recommends that when a community reaches a population of 90,000, an additional branch library should be considered for the area.

There are no current plans to build new libraries that would serve this project area.

Detailed information regarding each branch is attached.

The Los Angeles Public Library recommends a mitigation fee of \$200 per capita based upon the projected population of the development. The funds will be used for library materials, technology, programs, and/or facilities improvement. It is recommended that mitigation fees be paid for by the developer.
