Project Title: Addendum to Contanda Renewable Diesel Bulk Liquid Terminal Development Project EIR

Project Applicant: BWC Terminals (formerly Contanda Terminals LLC)

Project Location (include county): N. Port Rd. 13 at Port Rds. G/H; Port Rd. 21 at Port Rd. K, Stockton CA 95203, San Joaquin County

Project Description:

BWC Terminals (formerly Contanda Terminals LLC) has developed a bulk liquid terminal at the Port of Stockton to receive, store, and transfer renewable diesel. Diesel is received by rail and marine vessels, transferred to aboveground storage tanks (ASTs) for storage, and transferred to trucks for deliveries to the local market. The proposed project would comprise minor changes to the tank numbers and capacity to be constructed at the terminal, modifying the types of commodities handled at its bulk liquid terminal (to include vegetable oil [soy and corn] as well as renewable diesel), trip mix changes to accommodate the changes in product and tank characteristics, and development of a new rail unloading site and associated rail track and pipelines to the existing terminal.

This is to advise that the Port of Stockton has approved the above (Lead Agency or Responsible Agency)

described project on 5/19/21 and has made the following determinations regarding the above described project.

- 1. The project will have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Port of Stockton, 2201 West Washington Street, Stockton, California 95203
