Project Title: Salton Sea Species Conservation Habitat Project - Vegetation Enhancement Activities

Project Applicant: N/A

Project Location (include county): Imperial County

Project Description:

This Addendum updates the Salton Sea Species Conservation Habitat (SCH) Project FEIS/EIR finalized in August 2013, to include vegetation enhancement activities proposed at three locations around the perimeter of the Salton Sea on U.S. Bureau of Reclamation lands. The project involves implementing vegetation establishment activities that would result in enhanced habitat value at the sites and a reduction of windblown dust emissions at the three locations. The addition of these changes would not have any significant environmental impact beyond those already addressed in the SCH Final EIS/EIR or cause a substantial increase in the severity of previously identified impacts.

This is to advise that the Calif Natural Resources Agency has approved the above
