Subject: Filing of Notice of Determination in Compliance with Section 21108 of the Public Resources Code

Project Title: Class 2 Modification for Solar Turbines Inc. Hazardous Waste Post Closure Facility Permit

State Clearinghouse Number: 2016021097

Project Location: 2200 Pacific Highway, San Diego, CA 92101

County: San Diego County

Project Applicant: Solar Turbines Inc.

Project Description: The California Department of Toxic Substances Control (DTSC) adopted an Addendum to the previous Initial Study/Negative Declaration (IS/ND) and approved Class 2 Permit Modification for updates on the Water Quality Sampling and Analysis Plan. This permit modification is necessary for consistency with the Regional Water Quality Control Board Orders as well as the current DTSC-approved Water Quality Sampling and Analysis Plan for Corrective Actions for non-RCRA hazardous waste, pursuant to authority granted under California Health and Safety Code Chapter 6.5 and California Code of Regulations, Title 22, Division 4.5, Chapter 20.

The updates to the Water Quality Sampling and Analysis Plan involve updating the well network, exploring the nature and extent of plume, and modifying existing monitoring data to align with current infrastructure. The modification also captures amended training requirements for employees.

As Lead Agency under the California Environmental Quality Act (CEQA), DTSC approved the above-described project on December 8, 2020, and has made the following determinations:

1. The project will not have a significant effect on the environment.
2. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were not made a condition of project approval by DTSC.
4. A Statement of Overriding Considerations was not adopted for this project by DTSC.
5. Findings were not made pursuant to the provisions of CEQA by DTSC. The administrative record for this project is available to the public by appointment at the following location:
