Subject: Final Environmental Impact Report (SCH #2016042030)
Erosion Control Plan Application for LeColline Vineyards (P14-00410-ECPA)

Date: December 27, 2022

The Final Environmental Impact Report (FEIR) for the above subject project, which contains the County's responses to your comments provided on the Draft EIR dated January 2019, is available on the County's website at: <https://www.countyofnapa.org/2876/Current-Projects-Explorer>

Public Resources Code §21092.5 requires that written responses to the comments submitted by public agencies be provided at least 10 days prior to certification of the FEIR. Certification of the FEIR could occur as early as January 6, 2023 however, because of the holidays, the Director will not consider certification of the FEIR and act on the project until sometime in late-January 2023. Notice of the Director's intent to certify the FEIR along with the Director's tentative decision on the project will be provided ten days in advance of the final decision and will be posted on the County's website at: <https://www.countyofnapa.org/2876/Current-Projects-Explorer>.

The Director's Notice of Decision, once posted on the County's website, will start the appeal period under County Code Chapter 2.88.
