Re: Record Search Results for 1360 N. Vine Street Project, City of Los Angeles, California

The South Central Coastal Information Center received your records search request for the project area referenced above, located on the Hollywood, CA USGS 7.5' quadrangle. The following summary reflects the results of the records search for the project area and a ½-mile radius. The search includes a review of all recorded archaeological and built-environment resources as well as a review of cultural resource reports on file. In addition, the California Points of Historical Interest (SPHI), the California Historical Landmarks (SHL), the California Register of Historical Resources (CAL REG), the National Register of Historic Places (NRHP), the California State Historic Properties Directory (HPD), and the City of Los Angeles Historic-Cultural Monuments (LAHCM) listings were reviewed for the above referenced project site. Due to the sensitive nature of cultural resources, archaeological site locations are not released.

RECORDS SEARCH RESULTS SUMMARY

Archaeological Resources	Within project area: 0 Within project radius: 1
Built-Environment Resources	Within project area: 1 district Within project radius: 74
Reports and Studies	Within project area: 0 Within project radius: 42
OHP Historic Properties Directory (HPD)	Within project area: 3 Within ¼-mile radius: 239
California Points of Historical Interest (SPHI)	Within project area: 0 Within ¼-mile radius: 0
California Historical Landmarks (SHL)	Within project area: 0 Within ¼-mile radius: 0
California Register of Historical Resources (CAL REG)	Within project area: 3 Within ¼-mile radius: 59
National Register of Historic Places (NRHP)	Within project area: 0 Within ¼-mile radius: 2

Archaeological Determinations of Eligibility (ADOE):	Within project area: 0 Within project radius: 0
City of Los Angeles Historic-Cultural Monuments (LAHCM)	Within project area: 0 Within project radius: 41

HISTORIC MAP REVIEW – Santa Monica, CA (1906) 15’ USGS historic maps indicates that in 1906 there was a small amount of visible development within the project area. A single road runs through the western edge of the project area. To the north of the project area ran the Hollywood and Cahuenga Valley Railroad. There were also several improved roads and buildings within the project radius. The historic place names of Colegrove and Hollywood were nearby.

RECOMMENDATIONS

The project location has not been previously surveyed for the presence of cultural resources. It appears that most of the natural ground surface within the project area is obscured by urban development; consequently, archaeological surface finds would be highly unlikely. However, buried prehistoric or historic cultural resources may be present. Therefore, in order to assess archaeological sensitivity, an archaeological monitor should be retained to monitor ground-disturbing activities. In the event that cultural resources are observed, all work within the vicinity of the find should be diverted until the archaeologist can assess and record the find and make recommendations. Furthermore, at least 3 contributors to the Afton Street Historic District are located within the project boundaries. There are additional structures that are located within the project area do not appear to have been recorded or evaluated for historical significance. Therefore, it is recommended that the effects of this project on all structures within the project boundaries be subject to further study by a qualified architectural historian prior to the approval of project plans. It is also recommended that the Native American Heritage Commission should be consulted to identify if any additional traditional cultural properties or other sacred sites are known to be in the area.

For your convenience, you may find a professional consultant* at www.chrisinfo.org. Any resulting reports by the qualified consultant should be submitted to the South Central Coastal Information Center as soon as possible.

*The SCCIC does not endorse any particular consultant and makes no claims about the qualifications of any person listed. Each consultant on this list self-reports that they meet current professional standards.

If you have any questions regarding the results presented herein, please contact the office at 657.278.5395 Monday through Thursday 9:00 am to 3:30 pm. Should you require any additional information for the above referenced project, reference the SCCIC number listed above when making inquiries. Requests made after initial invoicing will result in the preparation of a separate invoice.

Thank you for using the [California Historical Resources Information System](#),

(X) Invoice #17533.3665

Due to processing delays and other factors, not all of the historical resource reports and resource records that have been submitted to the Office of Historic Preservation are available via this records search. Additional information may be available through the federal, state, and local agencies that produced or paid for historical resource management work in the search area. Additionally, Native American tribes have historical resource information not in the California Historical Resources Information System (CHRIS) Inventory, and you should contact the California Native American Heritage Commission for information on local/regional tribal contacts.

The California Office of Historic Preservation (OHP) contracts with the California Historical Resources Information System's (CHRIS) regional Information Centers (ICs) to maintain information in the CHRIS inventory and make it available to local, state, and federal agencies, cultural resource professionals, Native American tribes, researchers, and the public. Recommendations made by IC coordinators or their staff regarding the interpretation and application of this information are advisory only. Such recommendations do not necessarily represent the evaluation or opinion of the State Historic Preservation Officer in carrying out the OHP's regulatory authority under federal and state law.
