Project Title: US Highway 50 Silva Valley Interchange

Project Applicant: El Dorado County Department of Transportation

Project Location (include county): El Dorado Hills, Unincorporated area of County of El Dorado

Project Description:

This Addendum to the Supplemental Environmental Impact Report modifies Mitigation Measure BIO-12 to update the available oak tree mitigation measures due to new programs created after the adoption of the SEIR in 2011. The Silva Valley Parkway Interchange Project consists of construction of a new interchange along Highway 50 near the existing Clarksville Road undercrossing to accommodate planned commercial and residential growth within the immediate areas surrounding the interchange.

This is to advise that the Board of Supervisors has approved the above (Lead Agency or Responsible Agency)

described project on March 21, 2023 and has made the following determinations regarding the above described project.

- 1. The project will have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

El Dorado County Offices (Building C, DOT Offices), 2850 Farlane Court, Placerville, CA 95667

Project Location (include county): The new interchange site is located at Silva Valley Parkway and U.S. Highway 50, approximately 5,000 feet east of the El Dorado Hills Boulevard Interchange in western El Dorado County.

The proposed project will construct a new interchange on U.S. Highway 50 at Silva Valley Parkway in El Dorado Hills. Referred to as the "Ridge Design" Alternative (approved by the Board in 1990), proposed improvements include: loop on-ramps in the northeast and southwest quadrants; diagonal on- and off-ramps in each direction; an overcrossing for Silva Valley Parkway; safety lighting; on-ramps designed to accommodate future ramp metering, and HOV lanes. See environmental document for more detailed project description.
