STATE CLEARINGHOUSE

Notice of Completion
SCH# 2015062081
Sugar Pine Dam, No. 2045
Placer County

Dear Mr. White:

The Division of Safety of Dams (DSOD) has reviewed the Notice of Completion and Environmental Document Transmittal for Sugar Pine Dam, which describes the proposed project to install radial gates in the existing spillway of the dam and implement changes to the Sugar Pine Reservoir operations.

Per Division 3, Part 1, Chapter 5, Article 1 of the California Water Code, an enlargement of a dam and reservoir requires the advance written approval from DSOD. Therefore, the described work to install radial gates in the spillway and raise the reservoir's maximum reservoir water level 20 vertical feet, requires an enlargement application, together with plans, specifications, and the appropriate filing fee to be filed with DSOD for this project.

All dam safety related issues must be resolved prior to approval of the application, and the work must be performed under the direction of a Civil Engineer registered in California. Erik Malvick, our Design Engineering Branch Chief, is responsible for the application process and can be reached at (916) 565-7840.

If you have any questions or need additional information, you may contact Area Engineer Timothy Jimenez at (916) 565-7821 or me at (916) 565-7820.

Sincerely,

 for MSC

Melissa Collord, Regional Engineer
Central Region
Field Engineering Branch
Division of Safety of Dams
