SCH#: 2019039006

Dear Andrew Gonzales:

The State Clearinghouse submitted the above named MND to selected state agencies for review. On the enclosed Document Details Report please note that the Clearinghouse has listed the state agencies that reviewed your document. The review period closed on 4/2/2019, and the comments from the responding agency (ies) is (are) available on the CEQA database for your retrieval and use. If this comment package is not in order, please notify the State Clearinghouse immediately. Please refer to the project's ten-digit State Clearinghouse number in future correspondence so that we may respond promptly.

Please note that Section 21104(c) of the California Public Resources Code states that:

"A responsible or other public agency shall only make substantive comments regarding those activities involved in a project which are within an area of expertise of the agency or which are required to be carried out or approved by the agency. Those comments shall be supported by specific documentation."

Check the CEQA database for submitted comments for use in preparing your final environmental document: <https://ceqanet.opr.ca.gov/2019039006>. Should you need more information or clarification of the comments, we recommend that you contact the commenting agency directly.

This letter acknowledges that you have complied with the State Clearinghouse review requirements for draft environmental documents, pursuant to the California Environmental Quality Act. Please contact the State Clearinghouse at (916) 445-0613 if you have any questions regarding the environmental review process.

Sincerely,

Scott Morgan  
Director, State Clearinghouse

Dear Mr. Gonzales:

Thank you for including the California Department of Transportation (Caltrans) in the review of the Initial Study/Mitigated Negative Declaration for the Crowther Sewer Pipeline Project. The proposed project involves the construction of a completely independent parallel pipeline to replace the existing pipeline. The proposed collection system, similar to the existing collection system, would begin at Bradford Avenue and flow westerly on West Crowther Avenue approximately 3,200 linear feet, then turn south on South Placentia Avenue for 2,200 linear feet. The sewer pipeline then turns west on East Orangethorpe Avenue for an additional 1,900 linear feet before connecting to Orange County Sanitation District's (OCSD's) Newhope-Placentia Trunk Sewer 230 linear feet north of the intersection of South State College Boulevard. Upon completion of the proposed project, the existing 7,300 linear feet of 10-inch and 12-inch pipeline would be abandoned in place. Each end of the sewer pipeline between manholes would be plugged and capped. The new collection system would be reconnected to all service laterals and mainline connections. The project site is located in the southwest portion of the City of Placentia in the County of Orange

D-2

Caltrans is a responsible and commenting agency on this project and has the following comments:

1. For any work proposed within or adjacent to Caltrans right of way an Encroachment Permit is required. For specific details on Caltrans Encroachment Permits procedure, please refer to Caltrans Encroachment Permits Manual, Chapter 500 for Specific Permits. The latest edition of the Manual is available on the web site: <http://www.dot.ca.gov/hq/traffops/developserv/permits/>

2. When applying for an Encroachment Permit, please incorporate environmental documentation, right of way documentation, SWPPP/WPCP, Traffic Control plans, materials specifications, and all relevant electrical and construction design details including design exception approvals.

Please continue to keep us informed of this project and any future developments that could potentially impact State transportation facilities. If you have any questions or would like to meet with us regarding these comments, please do not hesitate to call Maryam Molavi at (657) 328-8280.

Sincerely,

SCOTT SHELLEY,  
Branch Chief, Regional-IGR-Transit Planning  
District 12
