National City Focused General Plan Update/Supplemental DEIR
SCH 2010051009

Mr. Martin Reeder,
City of National City
1243 National City Blvd.
National City, CA 91950

Dear Mr. Reeder:

Thank you for including the California Department of Transportation (Caltrans) in the Supplemental DEIR review process for the National City Focused General Plan Update, located near State Route I-5. The mission of Caltrans is to provide a safe and reliable transportation network that serves all people and respects the environment. The Local Development Review (LDR) Program reviews land use projects and plans to ensure consistency with our mission and state planning priorities.

Safety is one of Caltrans' strategic goals. Caltrans strives to make the year 2050 the first year without a single death or serious injury on California's roads. We are striving for more equitable outcomes for the transportation network's diverse users. To achieve these ambitious goals, we will pursue meaningful collaboration with our partners. We encourage the implementation of new technologies, innovations, and best practices that will enhance the safety on the transportation network. These pursuits are both ambitious and urgent, and their accomplishment involves a focused departure from the status quo as we continue to institutionalize safety in all our work.

Caltrans has the following comments:

Traffic Analysis

2.3.2 Key Transportation Network Changes

- Closure of 19th Street under Interstate 5 (I-5)
- Conversion of 1-way to 2-way traffic on 18th Street under I-5

Please continue coordinating with Caltrans on the proposed street closure of 19th Street and roadway modification to 18th Street under I-5.

Complete Streets

Caltrans views all transportation improvements as opportunities to improve safety, access, and mobility for all travelers in California and recognizes bicycle, pedestrian, and transit modes as integral elements of the transportation network. Caltrans supports improved transit accommodation through the provision of Park and Ride facilities, improved bicycle and pedestrian access and safety improvements, signal prioritization for transit, bus on shoulders, ramp improvements, or other enhancements that promote a complete and integrated transportation network.

Caltrans released the “Contextual Guidance for Bike Facilities” Memorandum in March 2020 to identify the preferred bikeway facility type in areas where bikeway facility installations are planned. Please utilize this guidance memorandum as a tool for selecting the most appropriate bicycle facility type in locations where improvements are proposed in Caltrans’ right-of-way. The following is a link to the “Contextual Guidance for Bike Facilities” Memorandum: <https://dot.ca.gov/-/media/dot-media/programs/transportation-planning/documents/office-of-smart-mobility-and-climate-change/planning-contextual-guidance-memo-03-11-20-ally.pdf>.

Noise

The applicant must be informed that in accordance with 23 Code of Federal Regulations (CFR) 772, the Department of Transportation (Caltrans) is not responsible for existing or future traffic noise impacts associated with the existing configuration of I-5, and State Route 54 (SR-54).

Broadband

Caltrans recognizes that teleworking and remote learning lessen the impacts of traffic on our roadways and surrounding communities. This reduces the amount of VMT and decreases the amount of greenhouse gas (GHG) emissions and other pollutants. The availability of affordable and reliable, high-speed broadband is a key component in supporting travel demand management and reaching the state’s transportation and climate action goals.

Mr. Martin Reeder

Right-of-Way

Any work performed within Caltrans' Right of Way (R/W) will require discretionary review and approval by Caltrans. As part of the encroachment permit process, the applicant must provide an approved final environmental document, corresponding technical studies, and necessary regulatory and resource agency permits, specifically, any CEQA determinations or exemptions.

If you have any questions or concerns, please contact Roger Sanchez, LDR Coordinator, at (619) 987-1043 or by e-mail sent to roger.sanchez-rangel@dot.ca.gov.

Sincerely,

Maurice A. Eaton
