The California Department of Transportation (Caltrans), as the CEQA and NEPA lead agency for the South Fresno State Route 99 Corridor Project (SCH 2019039121), has extended the circulation period for the Draft EIR/EA for the project. A 45-day circulation of the document began on October 14, 2021, and was initially noticed to conclude on November 29, 2021. The comment period is being extended to December 3, 2021, which exceeds CEQA requirements for public circulation of a draft EIR. We ask that you revise the public review end date to December 3, 2021 on the OPR's CEQANET database.
