SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 2019039124

Project Title: Santa Rosa Road No. 2 Debris Basin Decommissioning Project (Lake or Streambed Alteration Agreement #1600-2019-0157-R5)

Project Location (include county): The Santa Rosa Road No. 2 Debris Basin Decommissioning project (Project) is located east of Vista Arroyo Drive in the Santa Rosa Valley within unincorporated Ventura County, California, approximately 1.2 miles south of the City of Moorpark and 4.6 miles east of the City of Camarillo.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement 1600-2019-0157-R5, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Ventura County Watershed Protection District (VCWPD), represented by Glenn Shephard.

The whole of the Project is to decommission the Santa Rosa Road No. 2 Debris Basin, extend the existing box culvert beneath Santa Rosa Road, and repair and extend an existing storm drain. Since initial construction activities were completed, rains have caused erosion to occur in Areas 1-4 around the access road and storm drains. In Area 1, VCWPD will install ungrouted rock riprap on the slope of Area 1 and the access road adjacent to Area 1 will be improved by replacing the decomposed granite with crushed miscellaneous base (CMB) material for stability. In Area 2, VCWPD will replace portions of the existing concrete rock riprap down drain area on the western slope in Area 2, add 8-inch concrete curbs on the access road, armor both sides of the down drain with 5-foot wide rock riprap on the western channel bank and construct a rock splash pool within the invert. In Area 3, VCWPD will extend the existing 12-inch diameter polyvinyl chloride (PVC) drain on the eastern slope and underneath the access road with a new rock riprap outlet. Similar to Area 3, in Area 4, Permittee will extend the existing 12-inch diameter polyvinyl chloride (PVC) drain on the eastern slope and underneath the access road with a new rock riprap outlet.

This is to advise that CDFW, acting as a Responsible Agency, approved the above described project on October 19, 2022 and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will / will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were / were not made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was / was not adopted by CDFW for this project.
5. A statement of overriding considerations was / was not adopted by CDFW for this project.
6. Findings were / were not made by CDFW pursuant to California Code of Regulations section 15091.

The negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as Responsible Agency is available at CDFW's regional office.
