SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code § 21108

State Clearinghouse Number: 2019049121

Project Title: Minor Amendment to California Endangered Species Act Incidental Take Permit No. 2081-2019-066-00 (ITP)

Project Location (include county): Sacramento River downstream of the confluence with the Feather River, the Sacramento-San Joaquin Delta and Suisun Marsh in Solano, Sacramento, Yolo, San Joaquin, and Contra Costa Counties.

Project Description: The discretionary approval by CDFW is the issuance of the ITP amendment identified above. The ongoing operations of the State Water Project in the Sacramento-San Joaquin Delta and Suisun Marsh as approved by the lead agency is expected to result in incidental take and impacts to habitat of longfin smelt (*Spirinchus thaleichthys*), Delta smelt (*Hypomesus transpacificus*), winter-run Chinook salmon ESU (*Oncorhynchus tshawytscha*), and spring-run Chinook salmon ESU (*Oncorhynchus tshawytscha*). Longfin smelt and spring-run Chinook salmon are designated as threatened species under the California Endangered Species Act. Delta smelt and winter-run Chinook salmon are designated as endangered species under the California Endangered Species Act. This amendment to the ITP 1) changes the start date of the Smelt Monitoring Team each year in Conditions of Approval 8.1.1 and 8.1.4 to consistently state "no later than November 1", 2) changes the turbidity measurement units described in Conditions of Approval 8.3.1, 8.5.1, and 9.1.3 from NTU to FNU, 3) extends the date for the initial funding of restoration projects described in Condition of Approval 9.2.1 (*Mitigation for Impacts Associated with Project Operations*) from October 1, 2020 to April 1, 2021. This Amendment also makes clarifications to Condition of Approval 9.2.1, regarding the timing and scale of restoration projects that could be considered for approval by CDFW. Amendments to Condition of Approval 9.2.1 also clarify that individual projects that receive funding must benefit either spring- or winter-run Chinook salmon, or both species, subject to CDFW's approval, and 4) revises the Mitigation, Monitoring, and Reporting Program (ITP Attachment 1) for consistency with changes made to the Conditions of Approval. The ITP referenced above as issued and amended by CDFW authorizes incidental take of longfin smelt, Delta smelt, winter-run Chinook salmon, and spring-run Chinook salmon that may occur as a result of ongoing operations of the State Water Project facilities, as is more specifically described in the ITP.

This is to advise that CDFW, acting as [the lead agency / a responsible agency] approved the above-described project on _____ and made the following determinations regarding the above described project:

1. The project [will / will not] have a significant effect on the environment (This determination is limited to effects within CDFW's permitting jurisdiction as a responsible agency).
2. [An environmental impact report / A negative declaration] was prepared by the lead agency for the original project.
3. Additional mitigation measures [were / were not] made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan [was / was not] adopted by CDFW for this project.
5. A Statement of Overriding Considerations [was / was not] adopted by CDFW for this project.
6. Findings [were / were not] made by CDFW pursuant to Public Resources Code § 21081(a).
7. Compliance with the environmental filing fee requirement at Fish and Game Code § 711.4 (check one):
 - Payment is submitted with this notice.
 - A copy of a receipt showing prior payment was submitted to CDFW.

Notice of Determination

Responsible Agency statement: The EIR prepared by the lead agency for the Project is available to the general public at the office location listed above for the lead agency. CDFW's administrative record of proceedings related to the incidental take permit is available to the public for review at CDFW's regional office.
