

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Garfield Community School Modernization Project

Lead Agency: Redwood City School District

Contact Name: Mr. Donald Dias, Bond Program Director

Email: ddias@rcsdk8.net Phone Number: (650) 423-2261

Project Location: Menlo Park San Mateo  
*City* *County*

**Project Description (Proposed actions, location, and/or consequences).**

The proposed Project includes modifications to accommodate the existing students at Garfield Community School. The existing Site consists of one pre-existing two-story building, 26 class rooms, one science lab, one technology lab, one special day class, two resource specialist classrooms, five child development center classrooms, one multi-use building, one library, and one turf play field. Modernization of the school site will consist of installation of wireless and VOIP infrastructures, the addition of eight interim portables, upgrades to electrical systems, replacement of drinking fountains, improved fencing and security, upgrades to doors and windows, modernized signage, and improved fire alarms. Reconfiguration of parking spaces will result in a total of forty-three spaces which includes two dedicated accessible spaces and three clean air spaces, where there were originally forty-four total parking spaces; a net loss of one parking space. New construction will include a two-story 6-8th grade classroom building and library with an amphitheater, a new courtyard, a new walk-in cooler in the kitchen space of Building F, and a new parking lot.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Impacts for this Project include:  
Biological Resources - tree removal outside of nesting season or nesting bird survey  
Cultural Resources - noticing  
Geology & Soils - Incorporation of Geotechnical Evaluation  
Hazards & Hazardous Materials - Soil Mitigation Plan  
Hydrology & Water Quality Act - Stormwater Pollution Prevention Plan  
Noise - noise suppression attachments and minimal idling  
Traffic - Optimization of Traffic Signal Timing  
Utilities & Service Systems - Stormwater Pollution Prevention Plan

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Currently no controversy

Provide a list of the responsible or trustee agencies for the project.
