Project Location: The Project is at the Badlands Landfill located at 31125 Ironwood Avenue near the city of Moreno Valley, in unincorporated Riverside County. The APNs for the Project are 413-140-023, 413-140-024, 413-140-025, 413-140-030, 413-140-033, 413-140-034, 413-140-036, 422-030-011, 422-030-014, 422-030-015, and 422-050-014.

Project Description: The proposed Project involves operational and administrative changes at the Badlands Landfill to ensure continued operation of the regional facility. Specifically, the Project would revise the landfill's Solid Waste Facility Permit (SWFP) to increase the permitted disturbance area from 278 acres to 811 acres, which includes expanding the disposal footprint from 150 acres to 409 acres (in multiple stages), thereby providing approximately an additional 40 years of critically needed landfill capacity. Additionally, the Project would increase the maximum permitted daily tonnage by 500 tons per day (tpd) from 4,500 tpd to 5,000 tpd, add an organics processing operation, and allow for other minor administrative and operational changes. The Project will not change the hours of operation or increase the permitted number of vehicles/trucks allowed at the landfill. For more details on the Project, see Chapter 2 - Project Description, of Environmental Assessment (EA) No. 2017-03.
