Project Applicant: City of Long Beach, Development Services, 411 West Ocean Boulevard, Long Beach, CA 90802

Project Location: The City limits of Long Beach, Los Angeles County, California
Project Description: The proposed project is the adoption of a new General Plan Noise Element, which would replace the City's existing 1975 Noise Element. As required by Section 65302 of the California Government Code, the Noise Element is a required element of a City's General Plan. The proposed Noise Element includes strategies and policies intended to provide protection for land uses, as identified in the Land Use Element (LUE), from excessive noise and vibration sources, as well as to implement the vision of a healthy, livable noise environment in the City.

Several amendments to the Noise Ordinance would be included as part of the proposed project. The City of Long Beach Noise Ordinance is contained in Title 8, Health and Safety, Chapter 8.80, Noise, of the City's Municipal Code. Chapter 8.80, Noise, establishes exterior and interior noise limits for the generation of sound within the City. The maximum noise levels vary based on the receiving land use type and the cumulative duration of noise.
