

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: State Route 12 Roadway Resurfacing, Restoration and Rehabilitation Project

Lead Agency: California Department of Transportation (Caltrans)

Contact Name: Cindy Fong

Email: Cindy.Fong@dot.ca.gov Phone Number: 510-286-6454

Project Location: Rio Vista PM 20.57 - 26.41 Solano County   
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

Caltrans proposes to rehabilitate State Route (SR) 12 in three segments from PM 20.57 to 26.41 in Solano County to repair roadway pavement cracking and upgrade existing non-standard shoulders, non-standard travel lanes, non-standard vertical sight distances, non-standard cross slopes, and drainage systems. The project also proposes to address existing flooding problems, upgrades to Americans with Disabilities Act (ADA) facilities, and to undertake complete street elements in downtown Rio Vista.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

There are no anticipated significant effects resulting from the proposed project.

An Incidental Take Permit (ITP) is anticipated for the Swainson's hawk and the California Tiger Salamander. Caltrans is in consultation with California Department of Fish & Wildlife on potential impacts to Swainson's hawks and the California Tiger Salamander for the ITP permitting process. The consultation will determine compensatory mitigation for the species.

The Swainson's hawk has been observed within close proximity of the proposed construction work. The presence of the Swainson's hawk is inferred.

Proposed mitigated measures include: purchase of large branchiopod vernal pool at an approved mitigation bank, or through off site mitigation, and purchase of California Tiger Salamander upland habitat credits at the US Fish and Wildlife Service approved conservation bank.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Not applicable

Provide a list of the responsible or trustee agencies for the project.

U.S. Army Corps of Engineers  
U.S. Fish and Wildlife Service  
California Department of Fish and Wildlife  
National Marine Fisheries Service  
Central Valley Regional Water Quality Control Board
