 Economic/Jobs Public Services/Facilities Traffic/Circulation Other: Energy

Present Land Use/Zoning/General Plan Designation:Land Use: vacant/Onion Industrial Park; Zoning: Heavy Industrial; General Plan designation: Heavy Industrial**Project Description:** (please use a separate page if necessary)

The proposed project consists of the construction and operation of a standalone electrical power generation source with the ability to interconnect with Southern California Edison in the future. The proposed project will supply utility-grade energy services, including solar and high efficiency natural gas electrical cogeneration; energy storage, excess thermal heat recovery and CO2 recovery. The proposed system is rated up to 16.0 megawatts (MW) of electric power supplemented by 780 kilowatts (kW) of solar generation and a 2.0 MW/4.0 megawatt-hour (MWh) battery storage system. The total system capacity would be 16.8 MW and would have the ability to deliver a minimum of 69,223 MWh per year. This system would be designed to serve as a proactively managed microgrid system that would supply power to the adjacent Onion Plant Industrial Park. (see NOP)

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X". If you have already sent your document to the agency please denote that with an "S".
