

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Bluebird Canyon Outfall and Diversion Structure Rehabilitation Project

Lead Agency: City of Laguna Beach

Contact Name: Hannah Johnson

Email: hjohnson@lagunabeachcity.net

Phone Number: 949.464.6615

Project Location: Laguna Beach  
*City*

Orange  
*County*

Project Description (Proposed actions, location, and/or consequences).

The proposed project would involve rehabilitation of the existing Bluebird Canyon outfall and diversion structure. The existing headwall would be removed and replaced with a new headwall, which would be located on the same footprint and be constructed with concrete, colored to blend aesthetically with the surrounding environment. An intermediate wall would be constructed between the headwall and the outfall and diversion pipes, creating an enclosure for the outfall and diversion pipes. Two Tideflex duckbill valves would be installed on this intermediate wall to allow stormwater to pass through the intermediate wall but prevent the surcharge of sea water, sand, and sediment. A manhole and cover would be located above the outfall and diversion pipes (behind the intermediate wall), with stairs leading to this enclosure.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project would result in potentially significant impacts related to Aesthetics, Biological Resources, Cultural Resources, Hazards and Hazardous Materials, Noise, and Transportation. Mitigation has been proposed for the above mentioned resources. Incorporation of mitigation measures would result in less than significant impact to all resources areas.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None

Provide a list of the responsible or trustee agencies for the project.

- Orange County Flood Control District
- State Water Resources Control Board
- Regional Water Quality Control Board – Region 9
