**STATE CLEARINGHOUSE NUMBER:** 2019079028

**PROJECT NUMBER:** 1200538-002C

**PROJECT TITLE:** Distribution System Improvement Project (Project)

**PROJECT LOCATION:** Highway 101, Boy Scout Camp Road and Myers Avenue, Eureka, Humboldt County.

**PROJECT DESCRIPTION:** The State Water Resources Control Board (State Water Board) is the Lead Agency for the Project. The State Water Board's Drinking Water State Revolving Fund (SRF) Program is financing the Project. The Project will replace 5,550 feet of existing 4-inch steel transmissions lines with 6-inch PVC lines. Additionally, two dead-ends in the transmission system will be connected to existing junctions with 2,550 feet of new pipes to create a fully looped pipe network. The primary objective of the proposed project is to replace the aging 2-inch and 4-inch steel and PVC pipes which are prone to breaking and leaks with new 6-inch capacity PVC or HOPE pipe, new gate valves, fire hydrants, water meters, and water service connections which would result in continued service to water system customers and all fire hydrants meeting fire flow requirements (1,000gpm).

**PUBLIC AGENCY APPROVING PROJECT AND CARRYING OUT PROJECT:** The State Water Board has approved SRF financing for the Project described above on March 30, 2022. The Myers Flat Mutual Water System will be carrying out the Project. The State Water Board has made the following California Environmental Quality Act (CEQA) determinations regarding the Project:

1. The Project will not have a significant effect on the environment.
2. A Mitigated Negative Declaration was prepared and adopted for the Project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of approval of the Project.
4. A mitigation monitoring and reporting plan/program was adopted for the Project.
