Flow regulation improvements would be made within the LS5 diversion manhole, and a ±20-foot segment of the sewer line exiting the diversion manhole would be replaced. A segment of the sewer line in and adjacent to the LS5 overflow manhole would also be replaced.

This is to advise that the City of Shasta Lake City Council (Lead Agency) approved the above-described project on **August 20, 2019**, and made the following determinations regarding the above-described project.
