Subject: Notice of Preparation – Public Review Extension, Supplemental Environmental Impact Report for the Southport Sacramento River Early Implementation Project (SCH #2019070378)

Document Submittals Staff,

Please see below for notice regarding an extension of the Notice of Preparation (NOP) public review period for a previously submitted NOP (SCH #2019070378).

The West Sacramento Area Flood Control Agency (WSAFCA), as the Lead Agency under the California Environmental Quality Act (CEQA), announces its intent to initiate the preparation of a Supplemental Environmental Impact Report (Supplemental EIR) for use of the Sacramento Regional Wastewater Treatment Plant (SRWTP) Borrow Site (proposed project) for the Southport Sacramento River Early Implementation Project (EIP). The Supplemental EIR is a continuation of the Final EIR prepared for the Southport Sacramento River EIP (State Clearinghouse No. 2011082069) and associated Subsequent EIR for the Borrow One Site. The Supplemental EIR will contain only the information necessary to make the previous EIR adequate for use of the SRWTP Borrow Site. This focus meets the requirements for supplemental analysis under Section 15163 of the CEQA Guidelines.

The public review period began July 12, 2019 and the ending has been extended from August 10 to August 27, 2019. The NOP is available on the WSAFCA web page at <https://www.cityofwestsacramento.org/government/departments/community-development/flood-protection/what-s-new>. The City will also host a scoping meeting from 4:30 pm to 6:30 pm on August 14, 2019, at the West Sacramento City Hall Galleria, 1110 West Capitol Avenue, West Sacramento, CA 95691; the initial scoping meeting planned for July 30, 2019 has been canceled. Written comments on the scope of the EIR must be received by August 27, 2019.

If you have any questions or need additional information regarding the proposed project, please contact me at (916) 617-4855 or by email at gregf@cityofwestsacramento.org.

Sincerely,

Greg Fabun
Flood Protection Manager
