NEPA COMPLIANCE

In accordance with 23 CFR 771.117, and based on an examination of this proposal and supporting information, the State has determined that this project:

- does not individually or cumulatively have a significant impact on the environment as defined by NEPA, and is excluded from the requirements to prepare an Environmental Assessment (EA) or Environmental Impact Statement (EIS), and
has considered unusual circumstances pursuant to 23 CFR 771.117(b).

CALTRANS NEPA DETERMINATION (Check one)

- 23 USC 326: The State has determined that this project has no significant impacts on the environment as defined by NEPA, and that there are no unusual circumstances as described in 23 CFR 771.117(b). As such, the project is categorically excluded from the requirements to prepare an EA or EIS under the National Environmental Policy Act. The State has been assigned, and hereby certifies that it has carried out the responsibility to make this determination pursuant to Chapter 3 of Title 23, United States Code, Section 326 and a Memorandum of Understanding dated Mar 31, 2016 executed between the FHWA and the State. The State has determined that the project is a Categorical Exclusion under:

- 23 CFR 771.117(c): activity (c)
23 CFR 771.117(d): activity (d)
Activity listed in Appendix A of the MOU between FHWA and the State

- 23 USC 327: Based on an examination of this proposal and supporting information, the State has determined that the project is a Categorical Exclusion under 23 USC 327. The environmental review, consultation, and any other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by Caltrans pursuant to 23 USC 327 and the Memorandum of Understanding dated December 23, 2016 and executed by FHWA and Caltrans.

## Biological Avoidance Measures:

1. Prior to construction, if construction activities are proposed to occur during the typical nesting season (February 15 to September 1) within potential nesting habitat within the project area, a nesting bird survey shall be conducted by a qualified biologist at least two weeks prior to construction to determine presence/absence of nesting birds within the project area. Work activities shall be avoided within 150 ft. of active birds, until a qualified biologist has determined that young birds have fledged and left the nest. Readily visible exclusion zones shall be established in area where nests must be avoided. USFWS and CDFW shall be contacted for additional guidance if nesting birds are observed within or near boundaries of the project site. Active nests shall not be disturbed and eggs, or young of birds covered by the Migratory Bird Treaty Act (MBTA) and California Fish and Wildlife Code shall not be killed, injured, or harassed at any time.
2. Staging Areas Equipment and Material Storage: To avoid impacts to adjacent native vegetation and wildlife, all staging and equipment and material storage areas shall occur in existing pullouts or at currently paved locations. No vegetation clearing on public or private land is allowed to create storage sites without first being cleared through Caltrans.

## Visual Measures:

3. To minimize visual impacts of the exposed down drain portion, the replacement pipe will be painted flat black.
