Brief description of project:

Pipeline Replacement Project – 2018 (Project)

The Project consists of the installation of approximately 30,500 linear feet of 8-inch diameter to 20-inch diameter water pipelines to replace old and leaking pipelines at seventeen (17) locations throughout the District including crossings of the Friant Kern Canal and Lewis Creek.

Reason(s) for mitigated negative declaration finding:

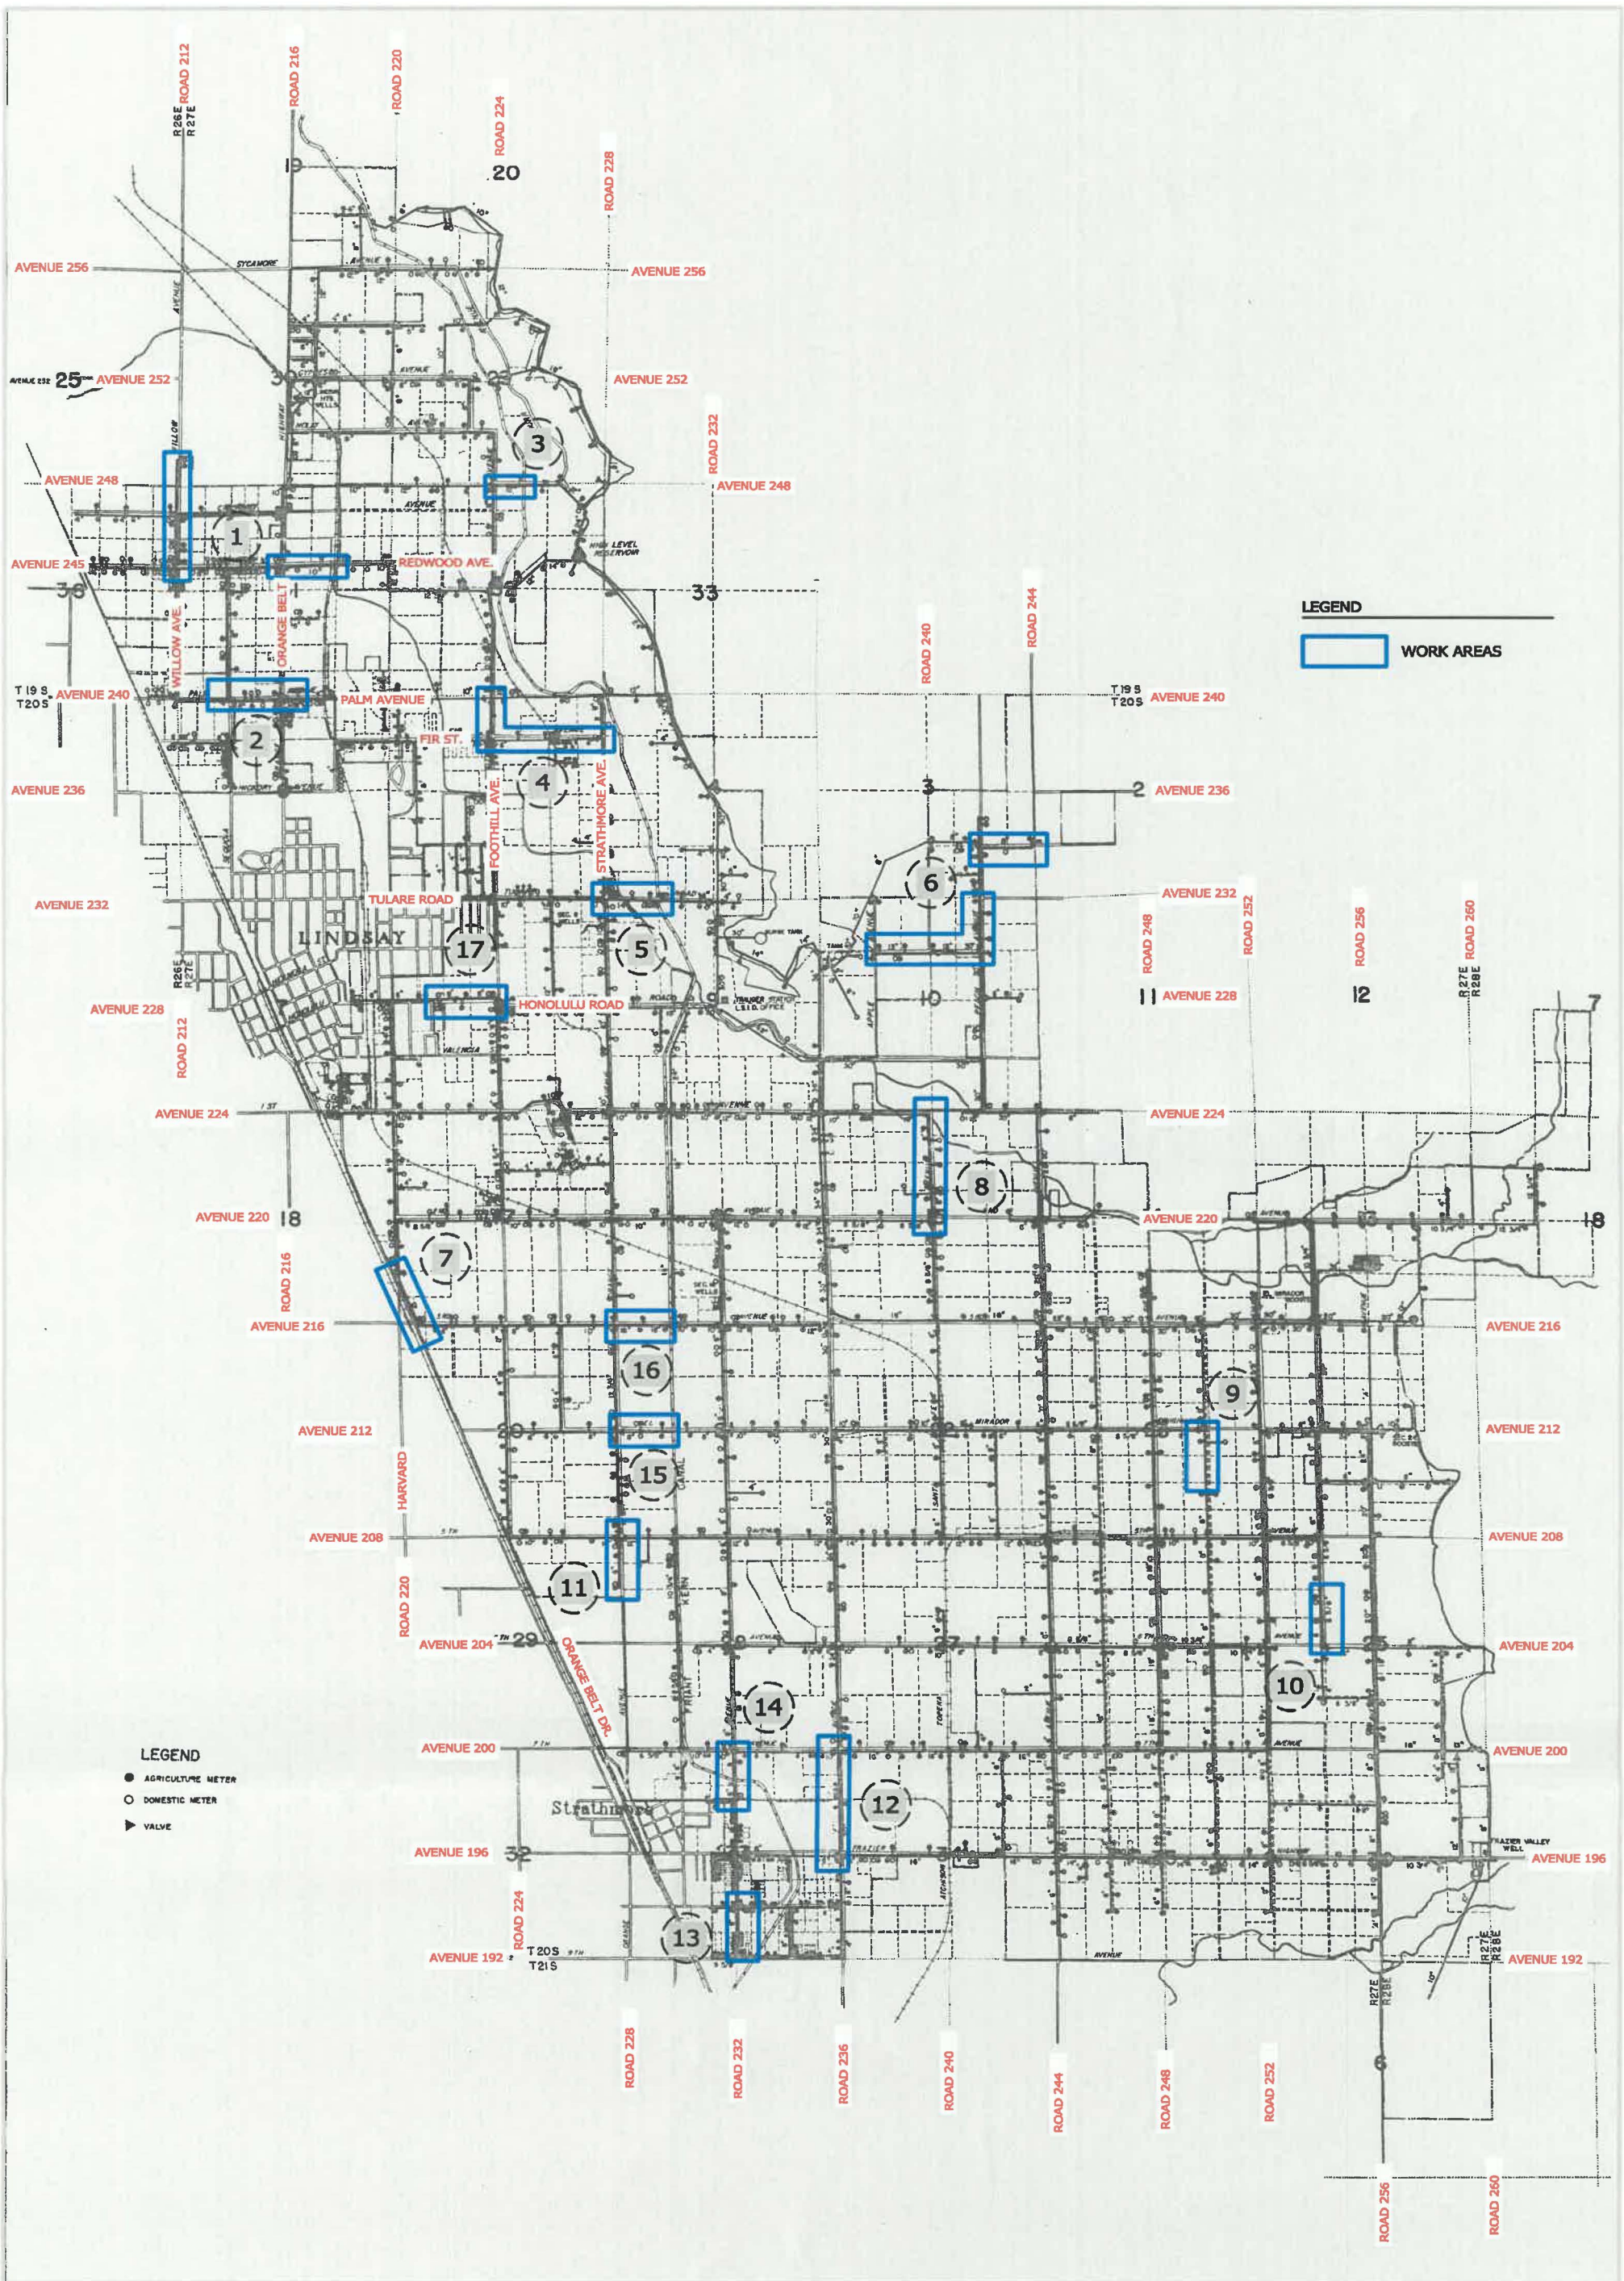

The Project will result in no adverse long-term environmental impacts. Short-term construction related potential impacts will be mitigated to a less than significant level by use of construction specifications requiring defined mitigation measures.
