

**Notice of Determination  
City of San Fernando Regional Park Infiltration Project  
Lead Agency: City of San Fernando**

**ORIGINAL FILED**

JUN 18 2019

To: County Clerk, Los Angeles County  
Environmental Filings  
12400 East Imperial Highway  
Norwalk, California 90650

From: City of San Fernando  
Public Works Department  
117 Macneil Street  
San Fernando, California 91340

**LOS ANGELES, COUNTY CLERK**

**Project Title: City of San Fernando Regional Park Infiltration Project**

**Subject: Notice of Determination for City of San Fernando Regional Park Infiltration Project - Mitigated Negative Declaration. City of San Fernando, Los Angeles County.**

N/A State Clearinghouse No.      City of San Fernando Regional Park Infiltration Project Project Title

City of San Fernando, Los Angeles County  
Project Location (include county)

City of San Fernando Lead Agency      Manuel Fabian (Civil Engineering Assistant II) Contact Person      (818) 898-1243 Telephone

**Project Location:** The Project site's legal address is 208 Park Avenue, San Fernando, California 91340, located at the San Fernando Recreation Park. The associated Assessor Parcel Number (APN) is 2519-026-903. The Project is located within the public right-of-way adjacent to the San Fernando Recreation Park on First Street, on Park Avenue between First Street and Fifth Street, on Fifth Street between Park Avenue and Jessie Street, on Jessie Street between Fifth Street and Glenoaks Boulevard, and on Glenoaks Boulevard between Jessie Street and Griswold Avenue.

**Project Description:** The Project involves routing water from an existing storm drain and infiltrating it in a subsurface infiltration system within the park. The subsurface infiltration system has a footprint of approximately 60,000 square feet which requires excavating about 25 feet deep. Flows will be routed from existing storm drains through a modified manhole structure in three locations, two on First Street near the southeastern corner of the park and one on Glenoaks Boulevard between Jessie Street and Griswold Avenue. The diversions from First Street will require a short length of pipe into the park, while the diversion from Glenoaks Boulevard will require approximately 4,500 feet of drain to be constructed along the alignment described above. Flows will be conveyed through pretreatment units that will remove trash and large particulate matter. The inclusion of the pretreatment system will improve the overall longevity of the system and promote a more centralized maintenance routine. Pretreated flows will be conveyed to the proposed subsurface infiltration system located within the park. The field within the park will be replaced to match current amenities and a new irrigation system will be installed.

This site is not included on lists of hazardous waste facilities identified by Section 65962.5 of the Government Code.

**The City of San Fernando, in its capacity as the Lead Agency, has approved the project on June 17, 2019 and has made the following determinations regarding the above described project:**

1. The project *will not* have a significant effect on the environment.
2. An Environmental Impact Report *was not* prepared for this project pursuant to the provisions of CEQA.
3. A Mitigated Negative Declaration *was* prepared for the project pursuant to the provisions of CEQA.
4. Mitigation measures *were* made as conditions of the approval of the project.
5. A Statement of Overriding Considerations *was not* adopted for this project.
6. Findings *were* made pursuant to the provisions of CEQA.

This is to certify that the Initial Study and Mitigated Negative Declaration, with comments and responses, and the record of project approval, are available to the General Public at the City of San Fernando, Public Works Department, 117 Macneil Street, San Fernando, California, 91340.
