Project Description:

The Big Bear City Community Services District (District or BBCCSD) proposes to undertake 15 capital improvement projects throughout its service area over the next 17 to 20 years as identified in its updated Sewer Master Plan (SMP). Projects generally include installing flow monitoring devices, conducting various assessments, replacement of various pipelines, replacement of various lift stations, and various easement acquisitions to conduct maintenance on existing facilities. The District provides wastewater collection to an approximately 11.5-square mile service area which includes Big Bear City and the Sugarloaf, Moonridge, and Erwin Lake communities in the unincorporated area of San Bernardino County. In 2017, the District updated its SMP to aid in the planning for future growth and ongoing maintenance of the collection. The SMP identifies capacity constrained sewer mains, assesses lift station conditions and provides a prioritized list of recommended capital improvement projects spanning out to Fiscal Year 2035. The District currently operates under an SMP that was prepared in 2002 which provided system growth projections and projects through Fiscal Year 2021.
