Project Title: Monterey High School Stadium Improvements

Project Applicant: Monterey Peninsula Unified School District

Project Location (include county): City of Monterey, County of Monterey

Project Description:

This Addendum updates the Monterey High School Stadium Improvements Project Final Environmental Impact Report ("FEIR") finalized on July 25, 2023, to include (1) the construction of a 4-foot wide, Americans with Disabilities Act compliant, concrete pedestrian path that would run through the existing student parking lot off Martin Street, past the existing music building, and then down to Martin Street; and (2) subterranean drainage under the lower field to better store storm water runoff within the field's drainage pipes. The addition of these changes would not have any significant environmental impacts beyond those already addressed in the FEIR or cause a substantial increase in the severity of previously identified significant environmental impacts.

This is to advise that the Monterey Peninsula Unified School District has approved the above
