NOTICE OF EXEMPTION

TO: X Office of Planning & Research
1400 Tenth Street, Rm.121
Sacramento, CA 95814

From: Nevada County Planning Department
950 Maidu Ave., Nevada City, CA

X County Recorder
County of Nevada

Applicant: Gary Sobonya
14086 West Mandolin Way, Nevada City, CA

Project Title:

Sobonya Commercial Cannabis Permit

Project Location—Specific:

14086 West Mandolin Way, Nevada City, CA 95959
APN: 034-280-003

Description of Nature, Purpose, and Beneficiaries of Project:

A Commercial Cannabis Permit for the cultivation of medical cannabis located at 14086 Mandolin Way in Nevada City. The project is located on a rural, 5.99-acre parcel in an Agricultural zoning district. This approval is for 2,348 square feet of canopy area divided into 528 square feet of mixed light cultivation located in two (2) hoop houses and 1,820 square feet of outdoor cultivation. The support area consists of two (2) 56 square foot support structures with one being for storage of cannabis waste and the other for the storage of fertilizers and pesticides. The site is accessed by an existing driveway that is used to access the current residence and residential accessory structures. The site is served by an existing well for water and an existing septic system for sewage disposal. Full-time tasks on site will be performed by the resident of the parcel. The operation would not have employees. The cannabis support structures will not have indoor utilities or loud noise producing equipment. The structures will be placed in already level areas that require minimal vegetation removal, along the existing driveway. The site will have a solar powered security light that will be downward facing and fully shielded. The lighting will be located on either side of the cultivation site. The project site is an existing cultivation site with no suitable habitat for special-status species and no waterways. The project site is located in an area that is already disturbed and proposes no new areas of disturbance and minimal vegetation removal. Due to the occupants of the residence being the only operators, no excess vehicle trips are expected. A Notice of Applicability, and the Monitoring and Reporting Program were obtained by the applicant from the Central Valley Regional Water Quality Control Board. An annual cultivation license from the California Department of Food and Agriculture shall be obtained prior to the County Annual Cannabis Permit being issued.

Name of Public Agency Approving Project:

Nevada County

Name of Person or Agency Carrying Out Project:

Gary Sobonya

Exempt Status: (Check One)

X Ministerial (Sec. 21080(b)(1); 15268

___ Declared Emergency

___ Emergency Project [Sec. 15071 (b) and (c)]

X Categorical Exemption. State type and Section number: *Section 15304, Minor alterations to land, including minor alterations to land, water or vegetation that does not include removal of healthy, mature or scenic trees.*

Reasons why the project is exempt:

The project involves the use of developed site for commercial cannabis cultivation for medicinal purposes. The project is allowed by the zoning code and does not conflict with Land Use Policies. The Project does not create any significant impacts to biological resources including sensitive habitats or any species of concern. The project area is outside of any identified and protected resources and the required setbacks. Prime Farmlands and/or Farmlands of Statewide Importance have been avoided. Dust control measures are included in the project description/site plans and air quality standards will not be impacted. A lighting control plan has been submitted ensuring lighting will not impact neighboring properties. The commercial cannabis areas are appropriately screened from public views. The project does not create impacts to roadways or require significant roadway improvements. The project has an approved water, wastewater disposal and permanent electrical source. The project will not create a significant demand on these service systems. A hazardous materials business plan has been completed and meets Fire Department and Environmental Health requirements for storage and use. Cultural and Tribal resources will be avoided as evidenced by a cultural report and/or NCIC sensitivity letter. The project will not impact watercourses or wetlands by meeting setbacks from watercourses and/or including site specific controls to ensure watercourses are protected. Odor from the project has been mitigated due to meeting setbacks required by the ordinance for outdoor cultivation.
