

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Menlo Country Club Bank Stabilization Project (CUSE2019-0003 and CEQA2019-0003)

Lead Agency: Town of Woodside

Contact Name: Sage Schaan, AICP CEP, Principal Planner

Email: sschaan@woodsidesidetown.org

Phone Number: (650) 851-6790

Project Location: Town of Woodside
City

San Mateo County
County

Project Description (Proposed actions, location, and/or consequences).

Repair of two reaches of Redwood Creek, adjacent to Holes #3 and #16 within the Menlo Country Club Golf Course. The existing steeply incised and eroding creek banks would be graded back to create a gentler slope than the existing near-vertical banks, as well as a widened floodway. Emergent wetland vegetation in the bed of the channel, and ruderal species on the banks, would be removed to facilitate construction. Large boulders would be installed along the toe of the slope in short sections of the bank repair area and adjacent to existing golf cart bridges to stabilize the repaired creek banks and to protect existing oaks. The banks would be revegetated with appropriate wetland and riparian vegetation. During construction, reaches of the creek would be temporarily dewatered with cofferdams and bypass pipes.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

See Attachment 1: The proposed mitigation measures reduce any potentially significant impacts to less-than-significant levels.
