Project Title: Capistrano Bridge Retaining Wall Reinforcement Project (Lake or Streambed Alteration Agreement No. 1600-2019-0130-R3)

Project Location: The project is located at San Pedro Creek, tributary to San Francisco Bay, just upstream of the Capistrano Drive Bridge, in the City of Pacifica, San Mateo County.

Project Description: The project is limited to the repair of a section of a cement wall that has developed cracking and is associated with a fish ladder in San Pedro Creek near Capistrano Drive. Project activities include reinforcing the existing concrete structure with helix horizontal anchors tied into the bank behind the wall and spraying the wall with concrete (shotcrete). The anchors will be installed from above the wall and directly below the wall is a concrete trough which will catch and contain all material and debris. Sandbags and silt fencing will be placed at the downstream end of the fish ladder and concrete basin to prevent debris from going into the creek. The creek will be covered with plywood to prevent shotcrete overspray from directly entering the creek.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying Out Project: City of Pacifica

Exempt Status:

- Categorical Exemption. Type – Class 1; California Code of Regulations, title 14, section 15301; Existing Facilities

Reasons why project is exempt: Project includes repair of an existing structure to prevent bank failure.
