Project Title: Tule River - Friant Kern Canal Bank
Project Applicant: Porterville Irrigation District
Project Location (include county): APN 302-260-016, 302-260-012 (Tulare County)

Project Description:

The proposed project will involve the construction and operation of six water recovery wells, a turnout from the Woods Central Canal, a pump station, 0.5 miles of canal, one mile of pipeline, an overflow monitoring and alarm system, and 125 acres of permanent groundwater recharge basin to replace 90 acres of existing temporary basins. The purpose of the proposed project is to bank water that is periodically available above current needs from the Friant Division of the Central Valley Project (Friant) and from the Tule River, and to make that water available to lawful recipients during times when it is needed. The project does not entail any modifications to the Friant Kern Canal (FKC) and does not include pump-in of recovered water into the FKC.

This is to advise that the Porterville Irrigation District has approved the above (Lead Agency or Responsible Agency)

described project on September 17, 2019 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.
