Project Description (Proposed actions, location, and/or consequences).

Please see attached Project Description.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The California State University as the lead agency has determined that the project may have one or more significant effects on the environment and, therefore, preparation of an Environmental Impact Report (EIR) is required. As stated in the California Environmental Quality Act (CEQA) Guidelines, Section 15063, when the determination has been made to prepare an EIR, an Initial Study need not be conducted. Pursuant to this option, an Initial Study was not prepared for this project and the EIR will evaluate all environmental topics.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None known.

Provide a list of the responsible or trustee agencies for the project.
