Present Land Use/Zoning/General Plan Designation:

Project Description: (please use a separate page if necessary)
The project proposes statewide regulations revising the definition for a general service lamp (GSL) and incorporating a federal statutory 45 lumens-per-watt (lpw) minimum efficacy standard for GSLs, complementing the existing 45 lpw minimum efficacy standard in the regulations. For lamps not already covered by California efficiency standards, the proposed regulations and minimum efficacy standard would apply to all general service lamps sold or offered for sale in California on or after January 1, 2020.
