 Economic/Jobs  Public Services/Facilities  Traffic/Circulation  Other: \_\_\_\_\_

**Present Land Use/Zoning/General Plan Designation:**

Surrounding the project area: Industrial and Commercial; Broader study area: Residential and Industrial

**Project Description:** (please use a separate page if necessary)

California Department of Transportation (Caltrans) proposes to rehabilitate about 3.2 miles on State Route (SR) 99 from Post Mile (PM) 21.2 to PM 24.4. The project proposes two alternatives that would either construct a diverging diamond interchange or two roundabouts at the Olive Avenue interchange. Each alternative proposes to retain or remove the on and off ramps at the McKinley Avenue interchange. Both include the following features: remove and construct six 12-foot lanes with continuously reinforced concrete pavement, construct a 46-foot paved median and 10-foot outside shoulders, remove the on and off ramps at the Belmont Avenue interchange, upgrade the vertical clearances under each bridge to standard, replace all the overcrossings and underpasses within the project limits except one overcrossing, remove the Pacific Avenue overcrossing, re-align Parkway Drive as frontage road, widen the bridge deck at two bridges, add auxiliary lanes, construct retaining and soundwalls at various locations, and upgrade the existing electrical elements.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Revised 2010

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
