Project Title: Putah Creek Fishing Access Site #3 Parking Lot Reconstruction Planning and Design

Applicant: Yolo County General Services Department
120 West Main St., Suite D
Woodland, CA 95695

Owner: CDFW
1701 Nimbus Rd
Rancho Cordova, CA 95670

Project Location: Subject property is Putah Creek Fishing Access Site #3, located approximately five miles west of the City of Winters (APNs: 030-081-009).

Project Description: The proposed project consists of the preparation of engineering and design plans, and the acquisition of federal, state and local permits to reconstruct a portion of the parking lot at Putah Creek Fishing Access Site #3 (PCFA #3). During the severe winter storms in February 2019, a portion of the parking lot on the west side of PCFA #3 collapsed, causing the site to close to the public. The damage was caused by high velocity sheet flow and subsurface erosion due to clogged culverts and drainage runoffs from the property across State Highway 128 to the north of PCFA #3. Preparation of engineering and design plans, and obtaining the necessary permits will enable the Parks Division to apply for future grant funding opportunities to reconstruct the parking lot and reopen the site to the public. No development or alteration of land is proposed as part of this project. Prior to approval of the project set forth in the engineering and design plans, the County will perform all required environmental review.

Exempt Status: Common Sense Exemption- 15061(b)(3)

Reasons why project is exempt: The proposed project is for the preparation of engineering and design plans, and acquisition of federal, state and local permits. It can be seen with certainty that there is no possible activity in question that may have a significant effect on the environment. Any future development project to reconstruct the parking lot would be covered by the Statutory Exemption "15269" *Emergency Projects* and Categorical Exemption "15301(d)" *Existing Facilities*, and a separate Notice of Exemption would be submitted at such time.

Lead Agency Contact Person: Jeff Anderson, Associate Parks Planner **Telephone Number:** (530) 406-5038
