Project Title: Moore Stream Bank Stabilization and Stream Restoration Project (Lake or Streambed Alteration Agreement No. 1600-2019-0602-R1)

Project Location (include county): The project to be completed is located within the Little Van Duzen River watershed, approximately eight miles east of the town of Bridgeville, County of Humboldt, State of California. The project is located in Sections 21 and 28, T1N, R5E, Humboldt Base and Meridian; in the Dinsmore U.S. Geological Survey 7.5-minute quadrangle; Assessor's Parcel Number 210-102-006 and 210-104-001.

Project Description: The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2019-0602-R1, pursuant to Section 1602 of the Fish and Game Code to Wesley Moore.

The project is limited to two encroachments. One encroachment is for stream bank stabilization on an unnamed tributary to Burr Creek. Work for this encroachment will include excavation, recontouring of the bank, and rock armoring as necessary to prevent erosion. The other proposed encroachment is for restoration of the stream channel following excavation for a small onstream pond. Work for this encroachment will include backfilling, recontouring, revegetation of the impacted area and implementation of erosion control measures.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying Out Project: Wesley Moore

Exempt Status:

- Statutory Exemption. State code number
- Categorical Exemption. Type – Class 4 and 33; California Code of Regulations, title 14, section 15304 and 15333.

Reasons why project is exempt: This project is limited to two encroachments for minor grading associated with stream bank stabilization and restoration of the stream channel for habitat enhancement. There would be no significant adverse impact on endangered, rare or threatened species or their habitat pursuant to section 15065. There are no hazardous materials at or around the project site that may be disturbed or removed. The project will not result in impacts that are significant when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.
