STATE CLEARINGHOUSE

Ahmad –

Caltrans has a “NO COMMENT” on the MND for the Traver Water Well Treatment Project. The Del Oro Water Company/Traver Water District per the State Water Resources Control Board proposes a water treatment system for the remediation of 1,2,3-TCP, by constructing a pair of 12-foot granular activated carbon (GAC) vessels, a large supply tank for backwash water, chlorination building, and a generator for emergency power. The project site is located at the northeast corner of Church Drive and Jacobs Drive, approximately ½ mile east of the State Route (SR) 99/Merritt Dr interchange, in the community of Traver.

Thank You.

If you have further questions, please contact me.
