Authority cited: Section 21083, Public Resources Code. Reference: Section 21161, Public Resources Code.

The Santa Clara Valley Open Space Authority (Authority) proposes to implement an Integrated Pest Management (IPM) Program to comprehensively direct management of all pests on Authority open space preserves (preserves). The IPM Program is intended to formalize guidelines and procedures for the careful management of pests throughout the Authority's preserves while protecting natural resources and public health.

The Authority is in the process of preparing an IPM Guidance Manual (IPM Manual) to lay out the overall approach of the IPM Program. The IPM Manual will be an objective evaluation tool and process to effectively and efficiently make pest management decisions while providing for safe recreational use of the preserves and protecting their natural and cultural resources.
