SUBJECT: Final Draft Environmental Assessment (EA) and Finding of No Significant Impact (FONSI)/Finding of No Practicable Alternative (FONPA) for Narlon Bridge Replacement Project at Vandenberg Air Force Base (VAFB), California

1. Attached as public and agency notification, to comply with the National Environmental Policy Act of 1969, and the President's Council on Environmental Quality's implementing regulations, is the Final Draft EA and FONSI/FONPA for Narlon Bridge Replacement Project at VAFB, California.
2. This Final Draft EA is available at: <http://www.vandenberg.af.mil/> and at the Lompoc, Santa Maria, and Santa Barbara Public Libraries. The Proposed Action is to replace the 720-foot-long open-deck Narlon Bridge crossing San Antonio Creek at VAFB with the same or similar materials and design. Temporary impacts include construction of staging areas surrounding the bridge, two temporary work bridges over the riparian zone to facilitate use of equipment and avoid impacts to the creek, and mowing of vegetation along tightly curved roads. All areas of temporarily disturbed vegetation will be revegetated and/or restored. Resources analyzed in the attached Final Draft EA include air quality, biological resources, wetlands, and waters of the United States, water resources, cultural resources, socioeconomics, geology and earth resources, hazardous materials, solid waste, and human health and safety, land use, transportation, and utilities. This Final Draft EA concludes that there will be no significant environmental impacts resulting from the Proposed Action.
3. The public comment period for this Final Draft EA/FONSI/FONPA will be from 16 October 2019 through 15 November 2019. Comments may be sent to the above address attention of Ms. Tracy Curry-Bumpass, emailed to tracy.curry-bumpass@us.af.mil, or faxed to (805) 606-6137.
