Project Description

Mammoth Yosemite Airport Terminal Area Development Plan

The Town of Mammoth Lakes proposes improvements and additions to the passenger terminal area at the existing Mammoth-Yosemite Airport (MMH). MMH is located approximately six miles east of the main portion of the Town on Airport Road adjacent to US Highway 395. The proposed project would include two major components: a new approximately 40,000 square foot, three-gate passenger terminal and an associated aircraft parking apron of approximately 130,500 square feet capable of parking three commercial aircraft. The TADP describes the proposed passenger terminal and associated landside improvements in detail. The improvements associated with the TADP would include automobile parking lots, aircraft de-icing apron, new taxiways, Airport Road extension, service road realignment, package wastewater treatment plant and wastewater disposal field, new electrical service, and an Aircraft Rescue and Fire Fighting-Snowplow building (ARFF) with new vehicle parking apron and access road.
