LEAD AGENCY CONTACT: Sarah Kirchgessner (916) 478-2245

APPLICANT: Peabody Civil Engineering
Ross Peabody (Representative)
1700 Alhambra Boulevard, Suite 102
Sacramento, CA 95816

EXEMPTION STATUS: □ Ministerial [Section 21080(b); 15268];
□ Declared Emergency [Section 21080(b)(3); 15269(a)]:

2019100551
REASONS WHY THIS PROJECT IS EXEMPT OR DOES NOT REQUIRE FURTHER ENVIRONMENTAL DOCUMENTATION:

CEQA requires analysis of agency approvals of discretionary "projects." A "project," under CEQA, is defined as "the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment" (State CEQA Guidelines Section 15378). The proposed Project is a project under CEQA.

Staff has reviewed the Project to determine the required level of review under CEQA. The proposed Project is exempt from CEQA pursuant to State CEQA Guidelines Section 15315 (Minor Land Divisions). The Section 15315 exemption applies to projects consisting of the division of property in urbanized areas zoned for residential, commercial, or industrial use into four or fewer parcels when the division is in conformance with the General Plan and zoning, no variances or exceptions are required, all services and access to the proposed parcels to local standards are available, the parcel was not involved in a division of a larger parcel within the previous two years, and the parcel does not have an average slope greater than 20 percent. The proposed TPM qualifies for this exemption because:

1. The Project site is within an urbanized area as defined in Section 15387 of the State CEQA Guidelines. Under Section 15387, an urbanized area is a city or group of cities with a population greater than 50,000 people and with a density of at least 1,000 persons per square mile. For purposes of CEQA, an area may be determined to be an urbanized area if it is listed as an urban area by the U.S. Bureau of the Census. The City has reviewed the map titled Urbanized Area Outline Map (Census 2010) for Sacramento, CA (Map Number UA 77068). The subject property is located within the urbanized area contained in Map Number UA 77068, Panel 3.

2. The proposed Project is consistent with the General Plan because under the Light Industrial and Parks and Open Space General Plan designations and MP/O zoning districts, there are no minimum lot size.

3. All services are available to the parcels in compliance with local standards.

4. The site is directly accessible from Waterman Road, Charolais Way, and Wayne Heintz Street, which are all public streets, consistent with City policy and standards.

5. The parcel was not involved in a division of a larger parcel within the previous two years.

6. The Project site is flat and does not have a slope greater than 20 percent.
In February 2019, the City Council adopted a new General Plan which relies on Vehicle Miles Traveled (VMT) as a measure of transportation impacts. The Project site is in a pre-screened area as defined by the City's Transportation Analysis Guidelines adopted with the General Plan. Projects consistent with the EGMC and the General Plan in pre-screened areas are exempt from any further transportation analysis as they are consistent with the VMT projections of the General Plan. No other special circumstances exist that would create a reasonable possibility that the proposed Project will have a significant adverse effect on the environment. Therefore, the proposed Project qualifies for the exemption under State CEQA Guidelines Section 15315 and no further environmental review is required.
