

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: 2019110002

Project Title: Oakland Vegetation Management Plan

Lead Agency: City of Oakland

Contact Name: Angela Robinson Piñon

Email: arobinsonpinon@oaklandca.gov Phone Number: 510-238-3707

Project Location: Oakland Alameda
City *County*

Project Description (Proposed actions, location, and/or consequences).

The Oakland Vegetation Management Plant (OVMP) describes actions that the Oakland Fire Department would continue to take over the plan's 10-year timeframe to reduce fire hazard on 1,924 acres of City-owned land and along 308 miles of roadways in the City's designated Very High Fire Hazard Severity Zone (VHFHSZ). Implementation of the OVMP would involve thinning, pruning, removal, and otherwise modification of trees and vegetation within the OVMP area to reduce the likelihood of a wildfire occurring and to minimize/slow the spread of a wildfire, should one occur.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Cumulative Impact NOI-2: Cumulative Effects Related to Noise. Potential for the generation of noise and vibration.

Noise Mitigation: Mitigation Measures NOI-1 and NOI-2. Significant and unavoidable after mitigation.

Cumulative Impact BIO-1 Effects on Biological Resources. Potential for the loss of wetlands and water features.

Biological Mitigation: Mitigation Measures BIO-1 through BIO-16.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The Proposed Project's areas of controversy and issues raised by agencies and the public include: impacts to special-status species, removal of trees and non-native vegetation, herbicide use, soils and erosion, wildfire, noise, operations and maintenance, funding, coordination with stakeholder and volunteer groups, project alternatives, cumulative analysis, and permit requirements.

Provide a list of the responsible or trustee agencies for the project.
