Type of Services	Phase I Environmental Site Assessment Update
Location	506 to 540 Brookside Drive Richmond, California

SECTION 1: INTRODUCTION

This report presents the results of the Phase I Environmental Site Assessment (ESA) Update performed at 506 to 540 Brookside Drive in Richmond, California (Site, also referred to as the Ninomiya Nursery Property) as shown on Figures 1 and 2. The report updates our Phase I ESA dated August 3, 2017. This work was performed for CenterPoint Properties in accordance with our January 24, 2018 Agreement (Agreement).

1.1 PURPOSE

The scope of work presented in the Agreement was prepared in general accordance with ASTM E 1527-13 titled, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" (ASTM Standard). The ASTM Standard is in general compliance with the Environmental Protection Agency (EPA) rule titled, "Standards and Practices for All Appropriate Inquiries; Final Rule" (AAI Rule). The purpose of this Phase I ESA is to strive to identify, to the extent feasible pursuant to the scope of work presented in the Agreement, Recognized Environmental Conditions at the property.

As defined by ASTM E 1527-13, the term Recognized Environmental Condition means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not Recognized Environmental Conditions.

Cornerstone Earth Group, Inc. (Cornerstone) understands that CenterPoint Properties intends to purchase the property for a warehouse/industrial redevelopment. We performed this Phase I ESA to support CenterPoint Properties in evaluation of Recognized Environmental Conditions at the Site. This Phase I ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for Recognized Environmental Conditions at the Site.

1.2 SCOPE OF WORK

As presented in our Agreement, the scope of work performed for this Phase I ESA Update included the following:

- A reconnaissance of the Site to note readily observable indications of significant hazardous materials releases to structures, soil or ground water.

- Drive-by observation of adjoining properties to note readily apparent hazardous materials activities that have or could significantly impact the Site.
- Acquisition and review of a regulatory agency database report of public records for the general area of the Site to evaluate potential impacts to the Site from reported contamination incidents at nearby facilities.
- Review of readily available information on file at selected governmental agencies to help evaluate past and current Site use and hazardous materials management practices.
- Review of readily available maps and aerial photographs to help evaluate past and current Site uses.
- Interviews with persons reportedly knowledgeable of existing and prior Site uses, including the current and past Site owners, and the current and past Site operator(s).
- Preparation of a written report summarizing our findings and recommendations.

The limitations for the Phase I ESA are presented in Section 10; the terms and conditions of our Agreement are presented in Appendix A.

1.3 ASSUMPTIONS

In preparing this Phase I ESA, Cornerstone assumed that all information received from interviewed parties is true and accurate. In addition, we assumed that all records obtained by other parties, such as regulatory agency databases, maps, related documents and environmental reports prepared by others are accurate and complete. We also assumed that the boundaries of the Site, based on information provided by CenterPoint Properties, are as shown on Figure 2. We have not independently verified the accuracy or completeness of any data received.

1.4 ENVIRONMENTAL PROFESSIONAL

This Phase I ESA was performed by Christopher J. Heiny, P.G., and Peter M. Langtry, P.G., C.E.G, Environmental Professionals who meet the qualification requirements described in ASTM E 1527-13 and 40 CFR 312 § 312.10 based on professional licensing, education, training and experience to assess a property of the nature, history and setting of the Site.

SECTION 2: SITE DESCRIPTION

This section describes the Site as of the date of this Phase I ESA. The location of the Site is shown on Figures 1 and 2. Tables 1 through 3 summarize general characteristics of the Site and adjoining properties. The Site is described in more detail in Section 7, based on our on-Site observations.

2.1 LOCATION AND OWNERSHIP

Table 1 describes the physical location, and ownership of the property, based on information provided by CenterPoint Properties.

Table 1. Location and Ownership

Parcel No.	Reported Address	Owner	Approximate Size (Acres)	Building Size	Construction Date
408-204-001	Fred Jackson Way	Ninomiya Nursery	2.34	n/a	n/a
408-204-002	Road 17		2.34	n/a	n/a
408-204-003	Road 17		5.02	n/a	n/a
408-204-004	506 Brookside Drive		5.02	2,581	1,954
408-204-005	540 Brookside Drive		2.51	3,016	1,910
409-300-037	Fred Jackson Way		6.72	n/a	n/a
Total			23.95		

2.2 CURRENT/PROPOSED USE OF THE PROPERTY

The current and proposed uses of the property are summarized in Table 2.

Table 2. Current and Proposed Uses

Current Use	Residential single-family homes, out buildings related to former nursery/greenhouses, and vacant fields
Proposed Use	Commercial warehouses

2.3 SITE SETTING AND ADJOINING SITE USE

Land use in the general Site vicinity appears to be primarily commercial. Based on our Site vicinity reconnaissance, adjoining Site uses are summarized below in Table 3.

Table 3. Adjoining Site Uses

North	Brookside Drive, Commercial greenhouses and plant nurseries
South	Da Villa Drive, Verde Elementary School, commercial vehicle (dump trucks) storage
East	Vacant former agricultural land.
West	Fred Jackson Way, Residential, and agricultural (nurseries)

SECTION 3: USER PROVIDED INFORMATION

The ASTM standard defines the User as the party seeking to use a Phase I ESA to evaluate the presence of Recognized Environmental Conditions associated with a property. For the purpose of this Phase I ESA, the User is CenterPoint Properties. The "All Appropriate Inquiries" Final Rule (40 CFR Part 312) requires specific tasks be performed by or on behalf of the party seeking to qualify for Landowner Liability Protection under CERCLA (*i.e.*, the User).

Per the ASTM standard, if the User has information that is material to Recognized Environmental Conditions, such information should be provided to the Environmental Professional. This information includes: 1) specialized knowledge or experience of the User, 2) commonly known or reasonably ascertainable information within the local community, and 3) knowledge that the purchase price of the Site is lower than the fair market value due to

contamination. A search of title records for environmental liens and activity and use limitations also is required.

3.1 CHAIN OF TITLE

A chain-of-title was not provided for our review.

3.2 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

An environmental lien is a financial instrument that may be used to recover past environmental cleanup costs. Activity and use limitations (AULs) include other environmental encumbrances, such as institutional and engineering controls. Institutional controls (ICs) are legal or regulatory restrictions on a property's use, while engineering controls (ECs) are physical mechanisms that restrict property access or use.

The regulatory agency database report described in Section 4.1 did not identify the Site as being in 1) US EPA databases that list properties subject to land use restrictions (*i.e.*, engineering and institutional controls) or Federal Superfund Liens or 2) lists maintained by the California Department of Toxic Substances Control (DTSC) of properties that are subject to AULs or environmental liens where the DTSC is a lien holder.

A Preliminary Title Reports by Chicago Title Insurance Company (dated June 15, 2017) were provided for our review (Appendix B). No environmental liens or records of ownership (including leases) indicative of significant hazardous materials use associated with the Site were listed in the title report. The ownership information provided in these reports is consistent with what was obtained from other sources.

3.3 SPECIALIZED KNOWLEDGE AND/OR COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION

Based on information provided by or discussions with CenterPoint Properties, we understand that CenterPoint Properties does not have specialized knowledge or experience, commonly known or reasonably ascertainable information regarding the Site, or other information that is material to Recognized Environmental Conditions.

3.4 PREVIOUS ENVIRONMENTAL SITE EVALUATION

During preparation of the previous Phase I ESA, Cornerstone performed a Phase II Site evaluation to determine if the previous Site uses impacted soil, soil vapor, or ground water quality beneath the Site. In addition, Cornerstone oversaw a magnetometer survey to determine if buried metallic objects (such as an underground storage tank [UST]) were present. Results of this evaluation is summarized below; however, please refer to Cornerstone's draft *Phase I Environmental Site Assessment and Preliminary Soil and Ground Water Quality Evaluation* (August 3, 2017) for complete details.

Based on information obtained in preparation of the previous Phase I ESA, the Site formerly consisted of greenhouses used in the cut flower growing business and two residential structures (Figure 3). Based on review of historical aerial photographs, what appeared to be three aboveground storage tanks (ASTs) were observed on the northern portion of the property (Figure 3). The contents of these tanks are not known. The Phase I ESA identified the past pesticide use and the unknown contents of these ASTs as potential environmental concerns.

The documents obtained from the California Regional Water Quality Control Board (Water Board) indicated the presence of one 2,000-gallon gasoline underground storage tank (UST) located on the Ninomiya Nursery Property (506 Brookside Drive). No further documentation was available regarding this reported UST.

To further evaluate these potential concerns, Cornerstone performed a magnetometer survey and collected soil and ground water samples. Results of these studies are discussed below.

Magnetometer Survey

In July 2017, Cornerstone contracted the services of JR Associates (JRA) to perform a magnetometer survey. The survey was performed under the supervision of James Rezowalli, a State of California licensed geophysicist (GP-921). JRA surveyed two areas on-Site: one located on the 506 Brookside Drive portion of the Site, and the other located along the southern border of the Site, in areas where apparent boiler rooms were visible on historical aerial photographs. Both areas were surveyed by collecting magnetic data along traverses spaced 10 feet apart. The purpose of the survey was to detect subsurface magnetic anomalies, such as abandoned metallic USTs or piping.

The magnetometer survey identified several anomalies, most of which were suspected metallic remnants of the former greenhouses. Eleven of the anomalies were considered significant and were potentially large enough to be caused by an UST. JRA recommended a pothole investigation to determine the cause of these anomalies. Results of this survey and the report prepared by JRA are included in the *Phase I Environmental Site Assessment and Preliminary Soil and Ground Water Quality Evaluation* (August 3, 2017).

Test Pit Exploration

On July 17, 2017, Cornerstone oversaw a test pit exploration at the 11 anomalies identified in the magnetometer survey. Cornerstone observed steel pipes of various diameters at depths ranging from approximately 1 to 2 feet, concrete with rebar, and what appeared to be a 4-foot diameter by 12-foot-long metal septic tank. The top of the tank had been removed and the remaining shell was filled with debris (e.g., concrete, bricks, and drain rock). Several PVC pipes that lead to the tank were encountered at a depth of approximately 18 inches. Drain rock was encountered leading away from the tank to the north in a plastic lined trench. No odors were noted in the tank excavation. These observations of the tank appear consistent with use as a septic system. No USTs were in the test pits excavated. The results of the test pit exploration are included in the *Phase I Environmental Site Assessment and Preliminary Soil and Ground Water Quality Evaluation* (August 3, 2017).

Soil and Ground Water Quality Evaluation

Cornerstone collected soil samples from 30 locations and ground water grab samples from 10 locations in June and July 2017. This evaluation was performed in conjunction with the soil and ground water quality evaluation performed on the adjacent property to the east. The soil and ground water quality evaluation performed at the Site and on the adjacent property are included in the *Phase I Environmental Site Assessment and Preliminary Soil and Ground Water Quality Evaluation* (August 3, 2017).

Soil samples were collected from the upper approximately ½ foot of soil and from depths of approximately 1 to 1½ feet. Deeper samples were analyzed at locations were elevated

concentrations of a parameter were detected in the shallow soil. A summary of the soil quality results from the Ninomiya Nursery Property is included below:

- Total chromium was detected at concentrations up to 363 milligrams per kilogram (mg/kg). A screening level has not been established for total chromium. The three samples with the highest detected total chromium concentrations were analyzed for soluble chromium by STLC extraction. Concentrations of soluble chromium exceeded the Soluble Threshold Limit Concentrations (STLC) value of 5 milligrams per liter (mg/L) for determining a non-RCRA (California) hazardous waste in all three samples.
- Lead was detected at concentrations up to 610 mg/kg and exceeded the commercial/industrial California Department of Toxic Substances Control recommended screening level (DTSC-SL, January 2018) of 320 mg/kg in 2 of 35 samples analyzed.
- One sample was additionally analyzed for soluble lead by STLC extraction, and the resulting concentration exceeded the STLC threshold of 5 mg/L for a non-RCRA hazardous waste.
- The remain metals were detected at concentration that are typical of background for the region or below their respective screening levels.
- Dieldrin was detected was detected in 10 of 37 soil samples at concentrations exceeding the industrial Regional Screening Level (RSL; EPA, November 2017) of 0.14 mg/kg. All other OCP compounds detected were at concentrations below their respective commercial/industrial screening criteria.
- Petroleum hydrocarbons in the diesel (TPHd) range were not detected above the Tier 1 Environmental Screening Level (ESL; California Regional Water Quality Control Board [Water Board], February 2017) of 230 mg/kg; oil-range petroleum hydrocarbons (TPHo), gasoline-range petroleum hydrocarbons (TPHg), and volatile organic compounds (VOCs) were not detected in the samples analyzed.

Grab ground water samples were collected from five locations and analyzed for petroleum hydrocarbons and VOCs. No VOCs or TPHg were detected above their respective Tier 1 ESL; TPHo was not detected in the samples analyzed. TPHd was detected in one sample at a concentration above its Tier 1 ground water ESL of 100 mg/L. The Tier 1 ESL is based on the odor/nuisance threshold. The direct exposure ESL, which is more likely to be applicable in this proposed land use, is 150 mg/L. The detected TPHd concentration was below the direct exposure ESL.

The previous Phase I ESA indicated that the soil with elevated dieldrin, lead, and chromium concentrations may require special handling during development. Cornerstone recommended preparing a Soil Management Plan that would provide guidance for handling this soil as well as any unanticipated conditions encountered during development.

SECTION 4: RECORDS REVIEW

4.1 STANDARD ENVIRONMENTAL RECORD SOURCES

Cornerstone conducted a review of federal, state and local regulatory agency databases provided by Environmental Data Resources (EDR) to evaluate the likelihood of contamination

incidents at and near the Site. The database sources and the search distances are in general accordance with the requirements of ASTM E 1527-13. A list of the database sources reviewed, a description of the sources, and a radius map showing the location of reported facilities relative to the project Site are attached in Appendix C.

The purpose of the records review was to obtain reasonably available information to help identify Recognized Environmental Conditions. Accuracy and completeness of record information varies among information sources, including government sources. Record information is often inaccurate or incomplete. The Environmental Professional is not obligated to identify mistakes or insufficiencies or review every possible record that might exist with the Site. The customary practice is to review information from standard sources that is reasonably available within reasonable time and cost constraints.

4.1.1 On-Site Database Listings

The Ninomiya Nursery located at 506 Brookside Drive was identified in the CA SWEEPS UST, CA HIST UST, CA FID UST, and the Contra Costa CO. SITE LIST. The database listings refer to the previous USTs on-Site and are further discussed in Section 4.2.1

The Site was not identified in the orphan listing. Orphaned properties refer to database listings that do not have sufficient information to accurately map. Our assessment was based on the orphaned description, orphaned property location description, and/or the zip code.

4.1.2 Adjoining Property Database Listings and Nearby Spill Incidents

The Sugihara Nursery (550 Brookside Drive) located adjacent and to the east was identified in the FINDS (Facility Indexing System), CA RGA LUST (California recovered archived leaking underground storage tank), CA SWEEPS UST (California statewide environmental evaluation and planning system), CA HIST UST (California Historical UST listing), CA LUST (California leaking UST), CA FID UST (local list of registered USTs), and the CA Contra Costa Site List (Contra Costa County Site Listing) databases. These database listings relate to the previous USTs reportedly located on-Site and are further discussed in Section 4.2.1.

Properties to the north (Nabeta Nursery [411 Brookside Drive] and Aebi Nursery [509 Brookside Drive]), south (Fuji Nursery, Inc [541 Da Villa Road]), and east (IMACC Corporation [900 Brookside Drive]) were listed as adjacent facilities in the databases researched. These listings related to former underground storage tanks and/or the use of pesticides/herbicides during normal business operations. No information was listed that indicates uncontrolled releases occurred at these properties that may have impacted the Site.

4.2 ENVIRONMENTAL RECORD SOURCES

The following additional sources of readily ascertainable public information for the Site also were reviewed during this Phase I ESA.

4.2.1 City, County, and State Agency File Review

Cornerstone requested available files pertaining to Site addresses listed in Table 1 at the following public agencies: the Contra Costa County Building Department (BD), City of Richmond Fire Department (FD), Contra Costa County Department of Environmental Health (DEH), the California Regional Water Quality Control Board (Water Board), and the California Department

of Water Resources (DWR). Available documents from these agencies are included in Appendix F. Cornerstone also requested files for the adjacent Sugihara Nursery located at 550 Brookside Drive.

Records were requested for the reported UST located at 506 Brookside Drive (Ninomiya Nursery). The County reportedly did not have records related to this UST. The Water Board files contained an information sheet that listed a 2,000-gallon steel UST that contained gasoline. The UST owner was listed as Ninomiya Nursery Company. No information was located related to the removal of this UST.

The DEH and Water Board had files related to former USTs located at the Sugihara Nursery (550 Brookside Drive). According to documents in these files, the Sugihara Nursery had five USTs (one 500-gallon gasoline, one 2,000-gallon gasoline, two 6,000-gallon diesel, and one 10,000-gallon diesel). The USTs reportedly were located between the residence and the nursery buildings, near the boiler room and packaging area. The USTs reportedly were removed on December 15, 1987. Soil samples were collected from the sidewalls of each UST excavation at depths of approximately 3½ feet, reportedly just above shallow ground water. TPHd, TPHg, and benzene, toluene, ethylbenzene, and xylenes (BTEX) reportedly were not detected above their respective detection limits. Free product consisting of oil and tar reportedly was observed on the ground water surface in the excavation that contained the two 6,000-gallon USTs. Approximately 2,750 gallons of water reportedly was pumped from this excavation. Subsequent ponded water samples reportedly did not detect TPHd above its detection limit. Ponded water samples collected from the gasoline UST excavations contained “low” concentrations of TPHg (detected at concentrations of 160 micrograms per liter [µg/L] and 240 µg/L) and benzene (detected at concentrations of 5 µg/L and 7 µg/L). The current Tier 1 ground water ESL¹ for TPHg is 100 µg/L, and the MCL² for benzene is 5 µg/L. Based on these data, the Water Board determined that this site could be classified as a “low risk case”. The Water Board closed this case in a letter dated August 9, 2001. In this letter, the Water Board states that the closure was based on “available information, including land use” and that “if change in land use is proposed, the owner must promptly notify this agency”. A copy of this closure letter is provided in Appendix F.

4.2.2 Radon

Elevated levels of radon in indoor air are a result of radon moving into buildings from the soil, either by diffusion or flow due to air pressure differences. The ultimate source of radon is the uranium that is naturally present in rock, soil, and water. Some types of rocks are known to have uranium concentrations greater than others and, consequently, there is an increased chance of elevated radon concentrations in soils and weathered bedrock where they are located. Areas down-slope which received sediments and/or surface and ground water from rock units with above average uranium content also have an increased likelihood of elevated radon concentrations in soil gas. In California, bedrock that can contain above average uranium concentrations includes the Monterey formation, asphaltic rocks, marine phosphatic rocks, granitic rocks, felsic volcanic rocks, and certain metamorphic rocks.

The federal EPA has established an action level of 4 pCi/L, above which the EPA recommends taking action to reduce radon levels in structures. To help local, state, and federal agencies

¹ Environmental Screening Limit (ESL), Water Board, 2016.

² Maximum Contaminant Level (MCL), Water Board, 2016.

prioritize resources and implement radon-control building codes, the EPA published maps of radon hazards for each county in California (www.epa.gov/radon/zonemap/california.htm).

The Site is located in Contra Costa County, which is designated by the EPA as Zone 2 with a moderate potential (from 2 to 4 pCi/L). It is important to note that EPA has identified structures with elevated levels of radon in all three zones, and the EPA recommends Site-specific testing in order to determine radon testing at a specific location.

Based on information present in the regulatory agency database report, five radon screening tests have been performed in the Site vicinity (zip code 94801), with no results exceeding 4 pCi/L.

4.2.3 Division of Oil, Gas and Geothermal Resources Maps

To evaluate the presence of oil or gas wells on-Site and in the immediate Site vicinity, maps available on-line at the California Department of Conservation, Division of Oil, Gas, and Geothermal Resources (<http://www.consrv.ca.gov/dog>) were reviewed. Review of the available map for the Site area did not show oil or gas wells on-Site or on the adjacent properties.

SECTION 5: PHYSICAL SETTING

We reviewed readily available geologic and hydrogeologic information to evaluate the likelihood that chemicals of concern released on a nearby property could pose a significant threat to the Site and/or its intended use.

5.1 RECENT USGS TOPOGRAPHIC MAP

A 2012 USGS 7.5 minute topographic map was reviewed to evaluate the physical setting of the Site. The Site's elevation is approximately 20 feet above mean sea level; topography in the vicinity of the Site is flat, with gentle slopes downward gently to the northwest, towards the San Pablo Bay.

5.2 HYDROGEOLOGY

In July 2017, Cornerstone oversaw the advancement of 13 borings for purposes of ground water grab sample collection (Section 3.4). The subsurface material observed in these borings consisted of clay with minor amounts of sand. Ground water was not encountered in all borings due to the high clay content. Where observed, ground water was encountered at depths ranging between approximately 7 and 10 feet. The ground water flow direction was not evaluated as part of these field activities. The regional shallow ground water flow direction is expected to follow topography and flow to the northwest, however, local flow directions can vary based on differences in geology.

SECTION 6: HISTORICAL USE INFORMATION

The objective of the review of historical use information is to develop a history of the previous uses of the Site and surrounding area in order to help identify the likelihood of past uses having led to Recognized Environmental Conditions at the property. The ASTM standard requires the identification of all obvious uses of the property from the present back to the property's first developed use, or back to 1940, whichever is earlier, using reasonably ascertainable standard historical sources.

6.1 HISTORICAL SUMMARY OF SITE

The historical sources reviewed are summarized below. The results of our review of these sources are summarized in Table 4.

- **Historical Aerial Photographs:** We reviewed aerial photographs dated between 1939 and 2012 obtained from EDR of Milford, Connecticut; copies of aerial photographs reviewed are presented in Appendix C.
- **Historical Topographic Maps:** We reviewed USGS 15-minute and 7.5-minute historic topographic maps dated 1895, 1899, 1915, 1947, 1948, 1949, 1959, 1968, 1973, 1980, 1995, 1996, and 2012; copies of historic topographic maps reviewed are presented in Appendix C.
- **Historical Fire Insurance Maps:** EDR reported that the Site was not within the coverage area of fire insurance maps.
- **Local Street Directories:** We reviewed city directories obtained from EDR that were researched at approximately 5-year intervals between 1922 and 2013 to obtain information pertaining to past Site occupants. The city directory summary is presented in Appendix D.

Table 4. Summary of Historical Source Information for Site

Date	Source	Comment
1895 and 1899	Topographic Maps	No structures are depicted on-Site. The Site is located approximately 1/2 mile east of the San Pablo Bay.
1915	Topographic Maps	Three unpaved roads are depicted as crossing the Site.
1939, 1946, and 1958	Aerial Photographs	Agricultural Site uses are apparent on-Site, with what appear to be rectangular-shaped greenhouses on the eastern side of the Site. Smaller structures are shown adjacent to these greenhouses. The 1946 and 1958 aerials are similar to the 1939 image.
1947, 1948	Topographic Maps	Several of the greenhouse and associated structures are depicted on-Site.
1959	Topographic Maps	Additional structures are depicted on-Site.
1975	City Directory	David Ninomiya (506 Brookside) and Sugihara Nursery (550 Brookside) are listed
1963	Aerial Photographs	The greenhouse structures have expanded to the west, east, and south from the original structures. The existing residential structures (506, 540, 560, and 580 Brookside) are present. Smaller structures reportedly associated with the operations activities (maintenance, packaging, storage, etc.) are depicted adjacent to the warehouses on 506, 540, and 560 Brookside. What appears to be a residential structure and another maintenance/operations building is depicted along the southern border of the Site.

Date	Source	Comment
1968	Topographic Maps	Additional structures are depicted on-Site. Nearly the entire Site is occupied by structures.
1968 and 1974	Aerial Photographs	Additional greenhouses have been constructed that have filled in most of the previously-vacant area on the eastern, western, and southern portions of the Site. The westernmost parcel appears to be open air agricultural. What appear to be vertical aboveground storage tanks (ASTs) are shown adjacent to the house on 506 Brookside and adjacent to the "operations/maintenance" areas of 506 and 560 Brookside Drive and along the southern border of the Site.
1973 and 1980	Topographic Maps	The Site features are similar to the previous map.
1980	City Directory	T. Ninomiya (506 Brookside) and Roses Only and Sugihara Nursery (550 Brookside)
1982, 1993, 1998	Aerial Photographs	The Site features appear similar to the 1974 aerial photograph
1985	City Directory	T. Ninomiya (506 Brookside) and Sugihara Nursery (550 Brookside)
1992	City Directory	Sugihara Nursery listed at 550 Brookside
1995, 1996, and 2012	Topographic Maps	No features are depicted on the maps for these years.
1995	City Directory	Fumiko Sugihara listed at 550 Brookside
1999	City Directory	T. Ninomiya (506 Brookside), Sugihara Nursery (550 Brookside), and Elko Sugihara (580 Brookside)
2003	City Directory	Hector Samaniego and T. Ninomiya (506 Brookside), unknown occupants (540 and 550 Brookside), and Fumiko Sugihara (560 Brookside)
2005	Aerial Photographs	The area not occupied by greenhouses appears to be used for open-air agricultural purposes. The remainder of the Site appear similar to the previous images.
2008	City Directory	David Ninomiya (506 Brookside), unknown occupants (540 and 550 Brookside), and Mark Sugihara (560 Brookside)
2009	Aerial Photographs	The open-air agricultural activities do not appear to be present. The greenhouses and associated structures remain.

Date	Source	Comment
2010	Aerial Photographs	The greenhouse structures have been demolished and are no longer present. The greenhouse at the southwestern corner of the Site appears to be in the process of being demolished. All of the maintenance/operation structures have been removed from the southern border of the Site. Some of the maintenance/operation structures located at 506 Brookside Drive have been removed. Most of the associated structures on 560 Brookside Drive appear to remain. The residential structures are still depicted.
2012	Aerial Photographs	The residential structures and operation/maintenance structures remain. The remainder of the Site appears vacant.
2013	City Directory	Richmond Junk & Wrecking (506 Brookside), unknown occupants (540 and 550 Brookside), and Mark Sugihara (580 Brookside)
2013 to 2017	Google Earth Aerial Photographs	The Site appears similar to the 2012 aerial photograph. No indicators of “junk and wrecking” yard are apparent on 506 Brookside Drive.

6.2 HISTORICAL SUMMARY OF SITE VICINITY

Based on our review of the information described in Section 6.1, the general Site vicinity appears to have historically consisted mainly of agricultural land (orchards and row crops) with widely spaced residences. By the 1940s and 1950s, the properties to the south and across Wildcat Creek are developed for residential use. With the exception of this residential area, the remainder of the Site vicinity appears to be used for mainly agricultural and little industrial purposes until the early 2000s, when some of the agricultural land appears to be vacated. An increase in mainly residential development is apparent in the general vicinity.

SECTION 7: SITE RECONNAISSANCE

We performed a Site reconnaissance to evaluate current Site conditions and to attempt to identify Site Recognized Environmental Conditions. The results of the reconnaissance are discussed below. Additional Site observations are summarized in Table 5 in Section 7.2. Photographs of the Site are presented in Section 7.2.1.

7.1 METHODOLOGY AND LIMITING CONDITIONS

To observe current Site conditions (readily observable environmental conditions indicative of a significant release of hazardous materials), Cornerstone staff Christopher J. Heiny, P.G., visited the Site on February 1, 2018, and was unaccompanied. The Site reconnaissance was conducted by walking representative areas of the Site, including the interior of the on-Site structures, the periphery of the structures, and the Site periphery. Cornerstone staff only observed those areas that were reasonably accessible, safe, and did not require movement of equipment, materials or other objects. The structures located on 506 and 540 Brookside Drive were not accessible at the time of our Site visit. Cornerstone attempted to view the interior of these structures where possible.

7.2 OBSERVATIONS

The Site conditions were similar to those previously observed during our Site visit conducted on July 7, 2017 as part of our previous Phase I ESA. At the time of our Site visit, the Site consisted of vacant former agricultural fields, two single-family homes, two storage structures formerly associated with the former agricultural activities, and one active greenhouse.

The majority of the Site consisted of vacant fields with low-lying vegetation. A vault was observed within the fields south of 506 Brookside Road. The purpose of this vault was not readily apparent, although it is located in the area of former water tanks and may have been related to the use of these tanks. A soil stockpile was observed on the southern portion of the Site; the origin of this soil was not readily apparent. Gravel and hard-pan pathways were observed between the vacant fields.

The former Ninomiya Nursery consisted of two single-family homes, two barns/storage structures, and a greenhouse. The interior of the structures were not accessible at the time of our Site visit. However, we attempted to view the interiors of each where possible.

The single-family homes appeared to be occupied and no readily apparent visible signs of environmental concern were observed around the exterior of either structure. An active greenhouse was observed adjacent to the northern single-family home. A sign stating “Danger – Pesticides Keep Out” was posted on the greenhouse door. The type of pesticides used in this warehouse was not written on the poster. The interior of the greenhouse consisted of various plants.

The northern barn/storage structure was observed to contain miscellaneous items (files, refrigerator, tables, washer, etc.). The contents of the southern building were observed through a window and we observed water piping, various valves, and a pump. It appeared a portion of this building may have been used as a boiler. The interior of these structures were not accessible and, therefore, we could not observe if there were visible signs of apparent contamination or other environmental concerns. Two recreational vehicles were observed parked adjacent to these structures. A pole-mounted transformer was observed between these structures and the single-family residence.

The remainder of the Site consisted of vacant fields that were formerly occupied by greenhouses. Unpaved access roads remained that crossed the vacant area of the Site. Scattered PVC pipes were observed in this area. No readily apparent environmental concerns were observed in the vacant areas of the Site.

Table 5. Summary of Readily Observable Site Features

General Observation	Comments
Aboveground Storage Tanks	Not Observed
Agricultural Wells	Not Observed
Air Emission Control Systems	Not Observed
Boilers	Observed – possible on the Ninomiya Nursery
Burning Areas	Not Observed
Chemical Mixing Areas	Not Observed
Chemical Storage Areas	Not Observed
Clean Rooms	Not Observed
Drainage Ditches	Not Observed
Elevators	Not Observed
Emergency Generators	Not Observed
Equipment Maintenance Areas	Not Observed
Fill Placement	Not Observed
Ground Water Monitoring Wells	Not Observed
High Power Transmission Lines	Not Observed
Hoods and Ducting	Not Observed
Hydraulic Lifts	Not Observed
Incinerator	Not Observed
Petroleum Pipelines	Not Observed
Petroleum Wells	Not Observed
Ponds or Streams	Not Observed
Railroad Lines	Not Observed
Row Crops or Orchards	Observed – within active greenhouse
Stockpiles of Soil or Debris	Observed – small stockpile on southern side of Site
Sumps or Clarifiers	Not Observed
Transformers	Observed – on southern side of Site
Underground Storage Tanks	Not Observed
Vehicle Maintenance Areas	Not Observed
Vehicle Wash Areas	Not Observed
Wastewater Neutralization Systems	Not Observed

The comment “Not Observed” does not warrant that these features are not present on-Site; it only indicates that these features were not readily observed during the Site visit.

Photograph 9. Exterior of active greenhouse. Sing posted indicating the use of pesticide.

Photograph 10. Interior of green house.

Photograph 11. Pole-mounted transformers observed on Site.

SECTION 8: ENVIRONMENTAL QUESTIONNAIRE AND INTERVIEWS

8.1 ENVIRONMENTAL QUESTIONNAIRE / OWNER INTERVIEW

Cornerstone provided an environmental questionnaire for completion by the Ninomiya Nursery owner. Mr. Dwight Koda with the Ninomiya Nursery Company (property owner) completed the questionnaire. The completed questionnaire is included in Appendix G.

Mr. Koda confirmed the property addresses, parcel numbers, size, and ownership in responses on the questionnaire. Mr. Koda's responses on the questionnaire indicated the former presence of aboveground storage tanks, agricultural fields, ground water wells, boilers, chemical mixing and storage areas, drainage ditches, septic tanks, storage sheds, sumps, and USTs. No additional information was provided. Cornerstone confirmed the current and/or former presence of these items through other sources researched and/or during our Site visit.

8.2 INTERVIEWS WITH PERSON(S) KNOWLEDGEABLE OF SITE USE

Contact information for persons knowledgeable of existing and prior site uses of the Ninomiya Nursery was not provided to us prior to or at the Site visit.

8.3 INTERVIEWS WITH PREVIOUS OWNERS AND OCCUPANTS

Contact information for previous Site owners and occupants was not provided to us. Therefore, interviews with previous Site owners and occupants could not be performed.

SECTION 9: FINDINGS, OPINIONS AND CONCLUSIONS (WITH RECOMMENDATIONS)

Cornerstone performed this Phase I ESA in general accordance to ASTM E1527-13 to support CenterPoint Properties in evaluation of Recognized Environmental Conditions. Cornerstone also performed a magnetometer survey, exploratory pit investigation, and collected soil and ground water samples. Our findings, opinions and conclusions are summarized below.

9.1 HISTORICAL SITE USAGE

Based on the information reviewed in preparation of this Phase I ESA, the Site has been used for agricultural purposes as a nursery since at least the 1930s. The agricultural activities reportedly consisted of the growing of cut flowers (roses, tulips, etc.), packaging, and shipping. Greenhouses have been onsite since the mid- to late- 1930's.

9.2 CHEMICAL STORAGE AND USE

Chemical storage was not observed during our Site visit. Records reviewed indicated a UST was formerly present on-Site; no additional information was available regarding its location. Mr. Koda with the Ninomiya Nursery Company indicated chemical mixing and/or storage areas were present on-Site. However, no additional information was provided regarding the reported chemical storage and use.

9.3 AGRICULTURAL USE AND SOIL QUALITY

The Site has been used as a plant nursery with greenhouses several decades. Pesticides were applied during the normal course of growing operations.

To evaluate for the presence of residual pesticides compounds, Cornerstone collected soil samples from the upper approximately 1½ feet of soil on June 27, July 5, July 11, and July 12, 2017. Results from these samples detected elevated concentrations of lead, arsenic, and the OCP compound dieldrin in soil samples collected from the upper approximately ½ foot of soil. The dieldrin concentrations that exceeded the RSLs were detected in samples collected from the areas of the former greenhouse maintenance/storage buildings on the northern portion of the Site. In addition, the soluble lead concentrations in two samples and the soluble chromium concentration in three samples were detected above their respective STLC thresholds for a non-RCRA hazardous waste. The samples with higher lead concentrations were also detected in samples collected from the northern portion of the Site.

Because the Site will be capped by the proposed warehouse structure and associated parking areas, risk to human health from residual pesticides, if any, will be significantly reduced. Exposed areas, such as landscaped areas and storm water detention basins, may require soil removal if elevated pesticides or metals are present. During Site construction, protocols for soil handling and construction worker health and safety should be developed. We recommend developing and implementing a soil management plan (SMP) that will address the handling and management of the soil during and after construction. If soil with elevated contaminants will be left on Site, we recommend preparing and implementing the SMP under regulatory agency oversight. Note that regulatory agency staff likely will require a deed restriction and SMP if soil exceeding residential screening criteria will be left on-Site.

TPHd was detected in one sample at a concentration above the commercial/industrial direct exposure ESL. This sample was collected near the former boiler room on the Ninomaya Nursery. We recommend the removal of soil that exceeds the commercial/industrial direct exposure ESL. The handling and removal of this soil should be addressed in the SMP.

9.4 FORMER USTS

Water Board documentation indicated the presence of one 2,000-gallon gasoline UST located on the Ninomiya Nursery Property (506 Brookside Drive). No further documentation was available regarding this reported UST.

Cornerstone performed a magnetometer survey and an exploratory test pit investigation. The magnetometer survey identified several significant subsurface anomalies. However, no USTs were discovered during excavation of these anomalies.

Although no USTs were discovered, contingency measures should be included in the recommended SMP that will provide protocols should an unexpected subsurface object, such as a UST, or areas of apparent contamination are encountered.

9.5 DISPOSAL OF EXCESS SOIL DURING CONSTRUCTION

Soil samples collected from the Site detected elevated concentrations of dieldrin, lead, and arsenic, as well as, non-RCRA hazardous waste concentrations of lead and chromium. This soil may require special handling and disposal if transported off-Site, which may increase construction costs.

9.6 IMPORTED SOIL

If the planned development will require importing soil for Site grading, we recommend documenting the source and quality of imported soil. The DTSC's October 2001 Clean Fill Advisory provides useful guidance on evaluating imported fill.

9.7 WATER SUPPLY WELL, IRRIGATION SYSTEM, AND SEPTIC SYSTEM

Information about the on-Site water supply well was requested from the owner. No information was provided as of when this report was issued. Cornerstone also requested information regarding this and any other on-Site well from the DWR. The DWR has not yet responded to our request as of the date of this report. The on-Site wells will require destruction in accordance with regulatory agency requirements prior to Site development.

9.8 UNDOCUMENTED FILL

Undocumented fill was encountered beneath the former greenhouses. The debris appeared consistent with demolition activities. Additionally, a soil and debris stockpile was observed at the center of the site. We recommend collecting soils samples from the pile to evaluate potential disposal or reuse options.

9.9 POTENTIAL ENVIRONMENTAL CONCERNS WITHIN THE SITE VICINITY

The Sugihara Nursery reportedly had five USTs (one 500-gallon gasoline, one 2,000-gallon gasoline, two 6,000-gallon diesel, and one 10,000-gallon diesel). According to documents reviewed from the County Health Department, the USTs were removed on December 15, 1987. Soil samples were collected from the sidewalls of each UST excavation at depths of approximately 3½ feet, reportedly just above shallow ground water. The collected samples detected concentrations of TPH as diesel, TPH as gasoline, and BTEX below their screening levels. The Water Board deemed the site a “*low risk case*” and closed this case in a letter dated August 9, 2001. Cornerstone collected soil and ground water samples from the Site. Results from these samples did not indicate that any impacts beneath the Site that may have originated from these USTs. These USTs are not expected to pose a significant concern for the Site.

Properties to the north (Nabeta Nursery [411 Brookside Drive] and Aebi Nursery [509 Brookside Drive]), south (Fujii Nursery, Inc [541 Da Villa Road]), and east (IMACC Corporation [900 Brookside Drive]) were listed as adjacent facilities in the databases researched. These listings related to former underground storage tanks and/or the use of pesticides/herbicides during normal business operations. If leaks or spills occur at these facilities, contamination could impact the Site, depending upon the location of the property, the magnitude of the release, and the effectiveness of cleanup efforts.

9.10 SOIL MANAGEMENT PLAN

We recommend preparing a Soil Management Plan (SMP) and Health and Safety Plan (HSP). The purpose of these documents will be to establish appropriate management practices for handling impacted soil, soil vapor and ground water that may be encountered during construction activities. Based on the history of the Site and near vicinity, areas of impacted soil, soil vapor and ground water may be encountered during construction activities, which may require special monitoring, handling and/or disposal. These documents should include the following:

- Site control procedures to control the flow of personnel, vehicles and materials in and out of the Site.
- Measures to minimize dust generation, storm water runoff and tracking of soil off-Site.
- If excavation de-watering is required, protocols to evaluate water quality and discharge/disposal alternatives should be described.
- Protocols for conducting earthwork activities in areas where impacted soil, soil vapor and/or ground water are present or suspected. Worker training requirements, health and safety measures and soil handling procedures should be described.
- Protocols to be implemented if buried tanks, structures, wells, debris, or unidentified areas of impacted soil are encountered during construction activities.
- Protocols to evaluate the quality of soil suspected of being contaminated so that appropriate mitigation, disposal or reuse alternatives, if necessary, can be determined.

- Procedures to evaluate and document the quality of any soil imported to the Site. Soil containing chemicals exceeding residential (unrestricted use) screening levels or typical background concentrations of metals should not be accepted.
- Methods to monitor excavations for the potential presence of volatile chemical vapors.

9.11 ENVIRONMENTAL ATTORNEY

Due to known Recognized Environmental Conditions at the Site, we recommend consulting with an environmental attorney regarding liabilities associated with acquiring the Site.

9.12 ASBESTOS CONTAINING BUILDING MATERIALS (ACBMS)

Due to the age of the on-Site structure(s), building materials may contain asbestos. If demolition, renovation, or re-roofing of the building is planned, an asbestos survey is required by local authorities and/or National Emissions Standards for Hazardous Air Pollutants (NESHAP) guidelines. NESHAP guidelines require the removal of potentially friable ACBMs prior to building demolition or renovation that may disturb the ACBM.

9.13 LEAD-BASED PAINT

The Consumer Product Safety Commission banned the use of lead as an additive in paint in 1978. Based on the age of the building, lead-based paint may be present. If demolition is planned, the removal of lead-based paint isn't required if it is bonded to the building materials. However, if the lead-based paint is flaking, peeling, or blistering, it should be removed prior to demolition. In either case, applicable OSHA regulations must be followed; these include requirements for worker training, air monitoring and dust control, among others. Any debris or soil containing lead must be disposed appropriately.

9.14 DATA GAPS

ASTM Standard Designation E 1527-13 requires the Environmental Professional to comment on significant data gaps that affect our ability to identify Recognized Environmental Conditions. A data gap is a lack of or inability to obtain information required by ASTM Standard Designation E 1527-13 despite good faith efforts by the Environmental Professional to gather such information. A data gap by itself is not inherently significant; it only becomes significant if it raises reasonable concerns. The following data gaps were identified:

- Contact information for the former occupants and owners of the Site was not provided to us; thus, no interviews with former occupants and owners were conducted during this study. The general environmental setting of the Site appears to have been established based on the information reviewed from other data sources. However, these individuals may have knowledge of the Site that is not otherwise readily available or apparent. Thus, the absence of these interviews may diminish our ability to identify Recognized Environmental Conditions.

9.15 DATA FAILURES

As described by ASTM Standard Designation E 1527-13, a data failure occurs when all of the standard historical sources that are reasonably ascertainable and likely to be useful have been reviewed and yet the historical research objectives have not been met. Data failures are not uncommon when attempting to identify the use of a Site at five year intervals back to the first use or to 1940 (whichever is earlier). ASTM Standard Designation E 1527-13 requires the Environmental Professional to comment on the significance of data failures and whether the data failure affects our ability to identify Recognized Environmental Conditions. A data failure by itself is not inherently significant; it only becomes significant if it raises reasonable concerns. No significant data failures were identified during this Phase I ESA.

9.16 RECOGNIZED ENVIRONMENTAL CONDITIONS

Cornerstone has performed a Phase I ESA in general conformance with the scope and limitations of ASTM E 1527-13 of 506 and 550 Brookside Drive, Richmond, California. This assessment identified the following Recognized Environmental Conditions.

- The Site historically was used for agricultural purposes. The soil quality evaluation identified elevated concentrations of the OCP compound dieldrin, lead, and arsenic in the shallow soil. The soil with these elevated concentrations may require management or removal prior to construction. Based on the proposed development, capping or consolidating and capping beneath impervious pavements or structures appears to be an appropriate mitigation measure to reduce potential risks to future Site occupants. Alternatively, soil exceeding commercial/industrial screening levels could be removed for appropriate off-Site disposal at a licensed facility. With either approach, a land use restriction prohibiting sensitive uses, such as residences, and an operation and maintenance plan (OMP) would be required. Preliminary discussions with DTSC staff are being conducted to evaluate remedial alternatives and documentation requirements.

In addition, documents obtained indicated a 2,000-gallon gasoline UST was located at the Ninomiya Nursery (506 Brookside). No additional information was available related to this reported UST. In addition, our magnetometer survey and exploratory test pit investigation did not encounter a UST. If a UST is discovered during Site development activities, it should be removed under the appropriate permits and under the appropriate agency oversight.

SECTION 10: LIMITATIONS

Cornerstone performed this Phase I ESA to support CenterPoint in evaluation of Recognized Environmental Conditions associated with the Site. CenterPoint understands that no Phase I ESA can wholly eliminate uncertainty regarding the potential for Recognized Environmental Conditions to be present at the Site. This Phase I ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for Recognized Environmental Conditions. CenterPoint understands that the extent of information obtained is based on the reasonable limits of time and budgetary constraints.

Findings, opinions, conclusions and recommendations presented in this report are based on readily available information, conditions readily observed at the time of the Site visit, and/or information readily identified by the interviews and/or the records review process. Phase I ESAs are inherently limited because findings are developed based on information obtained from a non-intrusive Site evaluation. Cornerstone does not accept liability for deficiencies, errors, or

misstatements that have resulted from inaccuracies in the publicly available information or from interviews of persons knowledgeable of Site use. In addition, publicly available information and field observations often cannot affirm the presence of Recognized Environmental Conditions; there is a possibility that such conditions exist. If a greater degree of confidence is desired, soil, ground water, soil vapor and/or air samples should be collected by Cornerstone and analyzed by a state-certified laboratory to establish a more reliable assessment of environmental conditions.

Cornerstone acquired an environmental database of selected publicly available information for the general area of the Site. Cornerstone cannot verify the accuracy or completeness of the database report, nor is Cornerstone obligated to identify mistakes or insufficiencies in the information provided (ASTM E 1527-13, Section 8.1.3). Due to inadequate address information, the environmental database may have mapped several facilities inaccurately or could not map the facilities. Releases from these facilities, if nearby, could impact the Site.

CenterPoint may have provided Cornerstone environmental documents prepared by others. CenterPoint understands that Cornerstone reviewed and relied on the information presented in these reports and cannot be responsible for their accuracy.

This report, an instrument of professional service, was prepared for the sole use of CenterPoint and may not be reproduced or distributed without written authorization from Cornerstone. It is valid for 180 days. An electronic transmission of this report may also have been issued. While Cornerstone has taken precautions to produce a complete and secure electronic transmission, please check the electronic transmission against the hard copy version for conformity.

Cornerstone makes no warranty, expressed or implied, except that our services have been performed in accordance with the environmental principles generally accepted at this time and location.

APPENDIX A – TERMS AND CONDITIONS

**CORNERSTONE EARTH GROUP, INC.
TERMS AND CONDITIONS**

1. Agreement

- 1.1 Cornerstone Earth Group, Inc.'s ("Cornerstone") services are defined by and limited to (a) those services (the "Work") described in the attached proposal, which is incorporated herein by this reference, and (b) these Terms and Conditions of Agreement ("Terms and Conditions"). Together, the proposal and Terms and Conditions form the "Agreement." This Agreement represents the entire agreement between the Client and Cornerstone (collectively, the "Parties") and supersedes all prior negotiations, representations, or agreements, either written or oral. The Agreement can only be amended by a written instrument signed by both the Client and Cornerstone. In the event that the Client authorizes the Work by means of a purchase order or other writing ("Confirmation"), it is expressly agreed that these Terms and Conditions shall apply, and any terms, conditions or provisions appearing in the Confirmation are void and inapplicable except to the extent the Confirmation authorizes the Work and binds the Client to this Agreement.
- 1.2. Failure to immediately enforce any provision in this Agreement shall not constitute a waiver of the right to enforce that provision or any other provision. No waiver by the Parties of a breach of any term or covenant contained in this Agreement, whether by conduct or otherwise, in any one or more instances shall be deemed to be or construed as a further or continuing waiver of any such breach or as a waiver of a breach of any other term or covenant in this Agreement.

2. Scope of Services

- 2.1 Cornerstone will serve the Client by providing professional counsel and technical advice based on information furnished by the Client. The Client will make available to Cornerstone all known information regarding existing and proposed conditions of the site, and will immediately transmit any new information that becomes available or any change in plans. The Client and Cornerstone agree that Cornerstone, its officers, directors, employees, agents and/or subcontractors shall not be liable for any claims, damages, costs, or losses arising from or in any way related to conditions not actually encountered during the course of Cornerstone's Work and Cornerstone shall not have any liability or responsibility for losses resulting from inaccurate or incomplete information supplied by the Client, and the Client agrees to defend and indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors against claims, damages, costs or losses arising therefrom. Cornerstone, its officers, directors, employees, agents and/or subcontractors shall not be liable for failing to discover any condition the discovery of which would reasonably require the performance of services not authorized by the Client.

3. Terms of Payment

- 3.1 The Client's obligation to pay for the Work is in no way dependent upon the Client's ability to obtain financing. The Client's obligation to pay for the Work is in no way dependent upon the Client's successful completion of the Client's project. No provision of this Agreement shall be construed to constitute a "Pay-When-Paid" clause or a "Pay-If-Paid" clause.
- 3.2 Payment for the Work shall be due and payable upon receipt of Cornerstone's invoice. To be recognized, any dispute over charges must be claimed in writing within thirty (30) calendar days of the billing date. Any dispute over an invoice amount shall not affect the Client's obligation to pay invoice amounts not in dispute. Amounts unpaid thirty (30) calendar days after the issue date of Cornerstone's invoice shall be assessed a service charge of 1 percent per month on balances outstanding.
- 3.3 Timely payment is a substantial condition of the Client's performance under this Agreement. Cornerstone may at its option withhold delivery of reports or other work product or suspend performance of the Work pending receipt of payments for all past due invoices and Cornerstone, its officers, directors, employees, agents and/or subcontractors shall have no liability to the Client for delay or damage caused because of such withholding or suspension. In the event that Cornerstone must take legal action to enforce this Agreement for payment for the Work performed and Cornerstone prevails, Cornerstone will be reimbursed by the Client for all expenses, including but not limited to reasonable attorney's fees and litigation costs.

4. Standard of Care

- 4.1 While performing the Work under this Agreement, Cornerstone shall exercise the degree of care and skill ordinarily exercised under similar circumstances by members of the environmental and geotechnical engineering consulting professions, as applicable, performing the kind of services to be performed hereunder and practicing in the same or similar locality at the same period of time.
- 4.2 Except for the express promise set forth in Subsection 4.1 herein, Cornerstone neither makes, nor offers, nor shall Cornerstone be liable to the Client for any express or implied warranties with respect to the performance of the Work.

5. Force Majeure

- 5.1 Cornerstone will diligently proceed with its services and will complete the Work in a timely manner, but it is expressly agreed to and understood by the Client that Cornerstone shall not be held responsible for delays occasioned by factors beyond its control, nor by factors which could not reasonably have been foreseen at the time of the execution of the Agreement between the parties.
- 5.2 Except for the obligation to pay for the Work performed and expenses incurred, neither Cornerstone nor the Client shall be liable for its failure to perform hereunder, in whole or in part, due to contingencies beyond its reasonable control, included, but not limited to, strikes or other concerted acts of workmen not in Cornerstone's employ, whether direct or indirect, riots, war, acts of terrorism, fire, floods, storms, washouts, acts of God or the public enemy, explosions, accidents, epidemics, breakdowns, injunctions, compliance with any law, regulation or order, whether valid or invalid, of the United States of America or any governmental body or any instrumentality thereof, whether now existing or hereafter created.

6. Effect of Delay or Impediment to Work

- 6.1 If any event occurs which causes or may cause Cornerstone: (a) to be impeded in its performance of the Services; or (b) to be delayed in the completion of the Work within the time provided in the attached proposal and/or in an applicable Change Order due to any act or omission of the Client, its officers, directors, employees and agents, or the Client's contractors, or due to any contingency beyond Cornerstone's control as provided in Section 5 herein, Cornerstone shall notify the Client in writing within ten (10) business days of the date on which Cornerstone becomes aware of such event.
- 6.2 The Client shall notify Cornerstone in writing of the Client's agreement or disagreement with Cornerstone's claim of an impediment or delay to performance within five (5) business days after receipt of Cornerstone's notice under Subsection 6.1. If the Client agrees with Cornerstone's claim, the time for performance of such requirement may be extended as mutually agreed in writing by the parties as provided in Subsection 1.1. If the Client disputes Cornerstone's assertion of an impediment or delay, such dispute shall be resolved pursuant to Section 17.
- 6.3 Impediments or delays to performance, addressed pursuant to this Section, shall not (a) constitute a breach hereunder; (b) give rise to any special right to terminate this Agreement; or (c) give rise to a claim by the Client for damages or other relief, if and to the extent that such impediment or delay is due to any act or omission of the Client, its officers, directors, employees and agents, or the Client's contractors, or due to any contingency beyond Cornerstone's control as provided in Section 5.

7. Right of Entry

- 7.1 Unless otherwise agreed in writing, the Client shall furnish and/or secure right of entry to the Site described in the proposal for Cornerstone personnel and equipment in order for Cornerstone to perform the Work. The Client shall waive any claim against Cornerstone, its officers, directors, employees, agents and/or subcontractors and agree to defend and indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors from any claims arising from entry onto the Site which is the subject of the Work.

7.2 The Parties acknowledge and agree that although Cornerstone will take reasonable precautions to minimize damage to property, including landscapes, hardscapes, crops and underground utilities, any and all damages, losses or expenses which could result from damage to such property due to Cornerstone's performance of the Work under this Agreement shall be the sole and exclusive responsibility of the Client provided that such damages, losses or expenses are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein. The Client shall indemnify, defend and hold harmless Cornerstone, its officers, directors, employees, agents and/or subcontractors from any damages, losses or expenses including, without limitation, attorney's fees, sustained or incurred by Cornerstone, its officers, directors, employees, agents and/or subcontractors as a result of any and all claims arising out of any damage to subsurface utilities due to Cornerstone's performance of the Work under this Agreement, provided that such claims are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein.

8. Monitoring of Construction

8.1 The Client acknowledges and understands that unanticipated or changed conditions may be encountered during construction. There is a substantial risk to the Client and to Cornerstone if Cornerstone is not engaged to provide complete services, including but not limited to, construction observation services. Such risks include the increased likelihood of misinterpretation of Cornerstone's findings and conclusions and error in implementing recommendations by Cornerstone. If Client fails to retain Cornerstone to provide complete services, the Client agrees, notwithstanding any other provisions of this Agreement, to the fullest extent permitted by law, to indemnify and hold harmless Cornerstone, its officers, partners, employees and Cornerstones from and against any and all claims, suits, demands, liabilities, losses, damages or costs, including reasonable attorneys' fees and defense costs arising out of or in any way connected with the Work or arising out of implementing or interpreting Cornerstone's work product except when the Claim arises from the sole negligence of Cornerstone or where the Claim arises from the willful, wanton or reckless conduct of Cornerstone.

8.2 Cornerstone shall not be required to make exhaustive or continuous on-site observations to check the quality or quantity of the Work and shall not be responsible for any contractor's failure to carry out the work in accordance with the contract documents.

8.3 Cornerstone shall not be responsible for the acts or omissions of any contractor or subcontractor or any of the contractors' or subcontractors' agents or employees or other persons performing any work on the Project.

9. Changed Conditions

9.1 If, during the term of this Agreement, circumstances or conditions that were not originally contemplated by or known to Cornerstone are revealed, to the extent that they affect the scope of services, compensation, schedule, allocation of risks or other material terms of this Agreement, Cornerstone may call for renegotiation of appropriate portions of this Agreement. Cornerstone shall notify the Client of the changed conditions necessitating renegotiation, and Cornerstone and the Client shall promptly and in good faith enter into renegotiation of this Agreement to address the changed conditions. If terms cannot be agreed to, the parties agree that either party has the absolute right to terminate this Agreement, in accordance with the termination provision hereof.

10. Jobsite Safety

10.1 Neither the professional activities of Cornerstone nor the presence of Cornerstone or its employees, subconsultants and subcontractors shall relieve the Client or the Client's General Contractor of its obligations, duties and responsibilities, including, but not limited to, health and safety programs. Cornerstone and its personnel have no authority to exercise any control over the site or any construction contractor or its employees in connection with their work or any health or safety programs or procedures. The Client acknowledges and agrees that Cornerstone shall not be responsible for jobsite safety.

11. Hazardous Materials and Environmental Contamination

11.1 The Client hereby warrants that if it knows or has any reason to assume or suspect that hazardous or toxic substances, or any other type of environmental hazard, contamination or pollution may exist at the Site, the Client will immediately inform Cornerstone to the best of the Client's knowledge of such hazardous or toxic substances, environmental hazard, contamination or pollution's type, quantity and location.

11.2 Cornerstone, its officers, directors, employees, agents and/or subcontractors shall have no title to, ownership of, or legal responsibility and/or liability for any and all contamination at the Site, including, but not limited to, the groundwater thereunder. "Contamination at the Site" includes but is not limited to any hazardous or toxic substance, or any other type of environmental hazard, contamination or pollution present at or under the Site, including, but not limited to the ground water thereunder, which is not brought onto the Site by Cornerstone, its officers, directors, employees, agents and/or subcontractors.

11.3 Cornerstone and the Client agree that the discovery of unanticipated Contamination at the Site may constitute a changed condition mandating renegotiation and/or termination of this Agreement. Cornerstone and the Client agree that the discovery of unanticipated Contamination at the Site may make it necessary for Cornerstone to take immediate measures to protect the public health, safety and the environment. The Client agrees that Cornerstone may take any or all measures that in Cornerstone's professional opinion are justified to preserve and protect the health and safety of Cornerstone's personnel, the public and the environment, and the Client agrees to compensate Cornerstone for the cost of such services.

11.4 The Client agrees to indemnify, defend and hold harmless Cornerstone, its officers, directors, employees, agents and/or subcontractors from any and all damages, losses or expenses, including, but not limited to, reasonable attorney's fees and legal costs connected therewith, liabilities, penalties and fines sustained by Cornerstone, its officers, directors, employees, agents and/or subcontractors as a result of any and all claim with respect to and arising out of any and all Contamination at the Site, provided that such claims are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein.

11.5 Subsurface sampling may result in unavoidable contamination of certain subsurface areas, as when a probe or boring is advanced or drilled through a contaminated area into a clean soil or water-bearing zone. Because of the risks posed by such work, and because subsurface sampling is often a necessary part of Cornerstone's Work, the Client hereby agrees to waive all claims against Cornerstone, its officers, directors, employees, agents and/or subcontractors with respect to and arising out of any and all subsurface sampling, including but not limited to claims relating to cross-contamination occurring because of such subsurface sampling, provided that such claims are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein.

12. Disposal of Samples and Drill Cuttings

12.1 Unless mutually agreed in writing by the Parties as provided in Subsection 1.1 herein, Cornerstone shall hold samples collected during the performance of the Work no longer than thirty (30) calendar days after their date of collection. Drill cuttings and waste materials will be left on-Site. In the event that soil, rock, water, drill cuttings and/or other samples or materials are contaminated or are suspected to contain hazardous materials or other toxic substances hazardous or detrimental to public health, safety or the environment as defined by federal, state or local law, Cornerstone will, after completion of testing, notify the Client of the same in order for the Client to arrange for the disposal of the samples and/or materials. The Client recognizes and agrees that Cornerstone at no time assumes title to said samples and/or materials, and that the Client is responsible for the disposal of such samples and/or materials. The Client agrees to pay all costs associated with any storage, transport and/or disposal of samples and/or materials, and to defend and indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors from any and all claims arising out of or in any way related to the storage, transport and/or disposal of asbestos, hazardous or toxic substances, and/or pollutants, including but not limited to any samples and/or materials.

13. Use and Ownership of Documents

13.1 All reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents and instruments prepared by Cornerstone as instruments of service shall remain the property of Cornerstone. Cornerstone shall retain all common law, statutory and other reserved rights, including copyright thereto. In the event the Client, the Client's contractors or subcontractors, or anyone for whom the Client is legally liable makes or permits to be made any changes to reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents prepared by Cornerstone without obtaining Cornerstone's prior written consent, the Client shall assume full responsibility for the results of such changes. Therefore, the Client agrees to waive any claim against Cornerstone and to release Cornerstone from any liability arising directly or indirectly from such changes. In addition, the Client agrees, to the

fullest extent permitted by law, to indemnify and hold harmless Cornerstone from any damages, liabilities or costs, including reasonable attorney's fees and costs of defense, arising from such changes.

The Client agrees that all reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents and other services furnished to the Client or its agents and/or employees by Cornerstone, which are not paid for, shall be immediately returned upon demand and may not be used by the Client for any purpose. Any reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents, advice or opinions provided by Cornerstone to the Client as part of the Work are provided for the sole and exclusive use of the Client for specific application to the Site detailed in this Agreement. Any third party use of any drafts, reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents, advice or opinion of Cornerstone is the sole responsibility of the Client.

14. Insurance

- 14.1 Cornerstone, its officers, directors, employees and agents have and shall maintain during the term of this Agreement insurance in the following types: (a) Worker's Compensation Insurance; (b) Employer's Liability Insurance; (c) Commercial General Liability Insurance (GLI); and (d) Professional Liability Insurance.
- 14.2 Cornerstone shall, at the Client's request, provide the Client with a certificate of insurance or other satisfactory evidence that such insurance has been obtained and are maintained in force through the term of this Agreement. Any additional insurance policy or increase in the coverage of existing insurance required by the Client shall constitute an additional expense under this Agreement, and the Client shall reimburse Cornerstone for any additional premiums and costs incurred by Cornerstone in connection with obtaining such additional insurance.

15. Prevailing Wage Obligations

- 15.1 The Client shall notify Cornerstone in writing if the Work contemplated by this Agreement constitutes a "public work" under any and all federal, state and/or local prevailing wage laws, and/or living wage laws, including but not limited to the Davis-Bacon Act and the provisions of California Labor Code §§ 1720 *et seq.* In addition, the Client shall notify Cornerstone if Cornerstone is obligated by statute, any public contracting authority and/or a developer to pay prevailing wages and benefits and/or any predetermined wages or benefits (collectively, "prevailing wage obligations"). In the event that Cornerstone must adhere to federal, state and/or local prevailing wage obligations for the Work performed, the Client shall provide Cornerstone with any and all prevailing wage determinations applicable to the Work to be performed under this Agreement. Any prevailing wage obligations might affect the payment terms contemplated by this Agreement and thus constitute a changed condition mandating renegotiation and/or termination of this Agreement. The Client understands and agrees that Cornerstone will rely on the representations made by the Client with regard to prevailing wage obligations and the Client agrees to indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors against any and all claims, liabilities, suits, demands, losses, costs and expenses, including but not limited to reasonable attorney's fees and legal costs, arising from Cornerstone's reliance upon the Client's representations regarding prevailing wage obligations.

16. Limitations—THIS CLAUSE LIMITS CORNERSTONE'S LIABILITY

- 16.1 Cornerstone shall not be responsible for the validity or accuracy of data collected by others or for interpretations made by others.
- 16.2 Cornerstone's relationship with the Client under this Agreement shall be that of an independent contractor. Nothing in this Agreement shall be construed to designate Cornerstone, its officers, directors, employees, agents and/or subcontractors as employees, agents, joint ventures or partners of the Client. Cornerstone shall have no authority to bind, commit or obligate the Client in any manner and shall not hold itself out to third parties as being capable of doing so.
- 16.3 The Client and Cornerstone have discussed the risks and rewards associated with this project, as well as Cornerstone's fee for services. After negotiation, the Client and Cornerstone have expressly agreed to allocate certain of the risks so that, to the fullest extent permitted by law, the total aggregate liability of Cornerstone, its officers, directors, employees, agents and subcontractors to the Client and all third-parties is limited to \$50,000 or the amount of Cornerstone's fee, whichever is greater, for any and all injuries, damages, claims, losses, expenses, or claim expenses (including attorney's fees) arising out of this Agreement from any cause or causes. Such causes include but are not limited to Cornerstone's negligence, errors, omissions, strict liability, breach of contract or breach of warranty. In no event shall Cornerstone, its officers, directors, employees, agents and/or subcontractors be liable in contract, tort, strict liability, warranty or otherwise, for any special, incidental or consequential damages, such as but not limited to delay, disruption, loss of product, loss of anticipated profits or revenue, loss of use of any equipment or system, non-operation or increased expense of operation of any equipment or systems, cost of capital, or cost of purchase or replacement equipment systems or power.
- 16.4 Notwithstanding any other provision of this Agreement, the total aggregate liability of Cornerstone, its officers, directors, employees, agents and subcontractors to the Client and all third parties, including attorney's fees awarded pursuant to this Agreement, for claims, damages or losses arising out of the treatment, transport, storage, discharge, dispersal or release of hazardous materials, shall be limited to \$50,000 or the amount of Cornerstone's fee, whichever is greater and regardless of the legal theory under which liability is imposed.
- 16.5 For an additional 5% of Cornerstone's total fee or \$500, whichever is greater, Cornerstone will raise the limitation of liability up to the amount that actually would be paid by Cornerstone's insurance carriers if Client and Cornerstone initial below:

LIMITATION INCREASE: THE LIMITATION OF LIABILITY IS INCREASED TO THE ACTUAL AMOUNT PAID BY CORNERSTONE'S INSURANCE CARRIERS IN EXCHANGE FOR AN ADDITIONAL FEE OF 5% OF THE TOTAL SERVICE CHARGE OR \$500, WHICHEVER IS GREATER.

Client's Initial	Date	Cornerstone's Initial	Date

- 16.6 The Client shall indemnify, defend and hold harmless Cornerstone and its officers, directors, employees, agents and subcontractors from any and all damages, losses, or expenses, included but not limited to reasonable legal expenses and attorney's fees connected therewith, sustained by Cornerstone, its officers, directors, employees, agents and subcontractors as a result of any and all claims, demands, suits, causes of action, proceedings, judgments and liabilities for property damage, statutory penalty and/or personal injury with respect to and arising out of the Client's negligent acts, omissions or material breach of this Agreement. In the event a claim is the result of joint negligent acts or omissions of the Client and Cornerstone, the Client's duty of indemnification shall be in proportion to its respective allocable share of the joint negligence.
- 16.7 Client acknowledges and agrees that in no event shall any action or proceeding be brought against Cornerstone or proceeding be brought against Cornerstone by Client or its assignees for any claim or cause of action arising from or in any way related to the Work or this Agreement unless such action or proceeding is commenced within three (3) years from the Date of Completion of Work provided by Cornerstone under this Agreement. The Date of Completion shall be the date of the final invoice for the Work performed under this Agreement.
- 16.8 If Client requests that Cornerstone's work product be relied upon by a third party, including, but not limited to a lender, Client agrees to provide the third party with a copy of these terms and conditions, and Client agrees to require said third party to agree to limit Cornerstone's total liability to Client and any third party as described in paragraph 16.4 and Client agrees to indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors against any and all claims, liabilities, suits, demands, losses, costs and expenses, including but not limited to reasonable attorney's fees and legal costs, arising from third party claims, damages, costs and losses arising out of or in any way related to Work.

17. Disputing Cornerstone's Performance

- 17.1 Except as provided in Section 6 and Subsection 17.2 herein, if Cornerstone shall breach any provision herein, the Client shall notify Cornerstone within five (5) business days of the Client's knowledge of such breach. Except as provided in Subsections 17.3 herein, upon receipt of the Client's notice, Cornerstone shall have the option to take such corrective measures, if any, to remedy the breach, and shall notify the Client within five (5) business days after receipt of the

Client's notification of the corrective measures Cornerstone shall take and the estimated time period within which the corrective measures shall be taken. In no event shall Cornerstone be liable to the Client for any damages without being given a reasonable opportunity to remedy its breach as provided herein.

- 17.2 The Client shall make no claim for professional negligence unless the Client has first provided Cornerstone with a written certification executed by an independent Consultant currently practicing in the same discipline and locality as Cornerstone and licensed in the State of California. This certification shall (a) contain the name and license number of the certifier; (b) specify the acts or omissions that the certifier contends are not in conformance with the standard care for a Cornerstone performing professional services under similar circumstances; and (c) state in detail the basis for the certifier's opinion that such acts or omissions do not conform to the standard of care. This certificate shall be provided to Cornerstone no less than thirty (30) calendar days prior to the presentation of any claim or the institution of any mediation, arbitration or judicial proceeding.
- 17.3 Cornerstone agrees that upon receipt of written notice from the Client pursuant to Subsection 17.2 herein it will implement necessary corrections to the Work performed by Cornerstone that fails to conform to the standard of care that Cornerstone has accepted pursuant to Subsection 4.1, as mutually agreed in writing by the Parties as provided in Subsection 1.1. herein, if such written notice is received within one (1) year of the performance of the Work failing to conform to Subsection 4.1. If Cornerstone has been paid by the Client for such Work, Cornerstone shall perform the corrections at its own expense. If Cornerstone has not been paid by the Client for such Work, and the Work is subsequently corrected to conform with the standard of care that Cornerstone has accepted pursuant to Subsection 4.1, the Client shall pay Cornerstone in accordance with Section 3 herein.
- 17.4 In no event shall Cornerstone, its officers, directors, employees, agents and/or subcontractors be liable for any special, incidental or consequential damages, such as but not limited to delay, disruption, loss of product, loss of anticipated profits or revenue, loss of use of any equipment or system, non-operation or increased expense of operation of any equipment or systems, cost of capital, or cost of purchase or replacement equipment systems or power, or any other incidental, special, indirect or consequential damages of any kind or nature whatsoever resulting from Cornerstone's performance or failure to perform the Work in accordance with the standard of care that Cornerstone has accepted pursuant to Subsection 4.1.
- 18. Termination**
- 18.1 Cornerstone shall have the right to terminate this Agreement ten (10) business days after written notice is sent to the Client if (a) the Client fails to pay any of Cornerstone's undisputed invoices within sixty (60) days from the date of the invoice; or (b) Cornerstone's attached proposal and/or the Work was based upon misinformation, whether by the Client or a third party, or upon information not fully disclosed to Cornerstone, whether by the Client or a third party.
- 18.2 Except as provided for in Section 6, and after compliance with Section 17, the Client shall have the right to terminate this Agreement ten (10) business days after written notice is sent to Cornerstone if Cornerstone fails to comply in any material respect with any of the material provisions herein and subsequently fails to notify the Client pursuant to Subsections 17.1 and 17.3 of the corrective measures Cornerstone intends to take.
- 18.3 The termination of this Agreement by Cornerstone under Subsection 18.1 herein, or by the Client under Subsection 18.2 herein, shall not relieve the Client of its obligations to pay Cornerstone for any of the Work performed and expenses incurred as of the date of termination, and shall not constitute a waiver by Cornerstone or the Client of any cause of action for breach of this Agreement or any provision herein.
- 19. Miscellaneous Provisions.**
- 19.1 "Indemnity" Defined. The term "indemnify" shall mean indemnify, defend and hold harmless from and against any and all claims, liabilities, suits, demands, losses, costs and expenses, including but not limited to reasonable attorney's fees and all legal costs incurred on appeal, and all interest thereon, accruing or resulting to any and all persons, firms, or any other legal entities, on account of any damages or losses to property or persons, including death or economic losses, arising out of the item, matter, action or inaction specified in the specific provision.
- 19.2 Choice of Counsel. In any circumstance whereby Cornerstone is entitled to indemnification by the Client, Cornerstone shall have the right to select counsel of its choosing.
- 19.3 Successors and Assigns. This Agreement shall be binding upon and inure to the benefit of the Parties and their successors and assigns as provided herein. The Client shall not assign, sell, transfer or subcontract this Agreement or any interest herein without the prior written consent of Cornerstone. Cornerstone shall not assign, sell, transfer or subcontract this Agreement or any interest herein without the prior written consent of the Client. The Client hereby consents to the subcontracting of those portions of the Work as the attached proposal herein indicates are or will be subcontracted. Notwithstanding the above, Cornerstone shall have the right to assign monies due hereunder for the Work performed and expenses incurred.
- 19.4 Third Party Beneficiaries. The Parties agree that this Agreement is not intended by either Cornerstone or the Client to give any benefits, rights, privileges, actions or remedies to any person or entity, partnership, firm or corporation as a third party beneficiary or otherwise under any theory of law, that is not a signatory to this Agreement.
- 19.5 Survival. In order that the Parties may fully exercise their rights and perform their obligations arising from the performance of this Agreement, any provisions of this Agreement that are necessary to ensure such exercise or performance shall survive the termination of this Agreement.
- 19.6 Severability. If any part, term or provision of this Agreement shall be held illegal, unenforceable or in conflict with any federal, state or local law having jurisdiction over this Agreement, the validity of the remaining parts, terms or provisions of this Agreement shall not be affected thereby.
- 19.7 Choice of Law and Venue. This Agreement shall be governed by California law. The venue for any legal action brought pursuant to this Agreement shall be located within the County of Santa Clara, State of California.
- 19.8 Publicity. Unless otherwise mutually agreed in writing by the parties as provided in Subsection 1.1, Cornerstone may use and publish the Client's name and a general description of Cornerstone's services with respect to the Work in describing Cornerstone's experience and qualifications to other clients or prospective clients.
- 19.9 Signatories. Each undersigned representative of the Parties to this Agreement certifies that he or she is fully authorized to enter into the terms and conditions of this Agreement and to execute and legally bind such Party to this document.
- 19.10 Corporate Protection. It is intended by the parties to this Agreement that Cornerstone's services in connection with the Work shall not subject Cornerstone's individual employees, officers or directors to any personal legal exposure for the risks associated with this Project. Therefore, and notwithstanding anything to the contrary herein, the Client agrees that as the Client's sole and exclusive remedy, any claim, demand or suit shall be directed and/or asserted only against Cornerstone, a California Corporation, and not against any of Cornerstone's individual employees, officers or directors.
- 19.11 Code Compliance. Cornerstone shall exercise usual and customary professional care in its efforts to comply with applicable laws, codes and regulations as of the date of this Agreement.
- 19.12 Quotation. Unless stated in writing, this quotation shall not remain in effect after thirty (30) days of the Proposal date.
- 19.13 Contractors State License. Cornerstone maintains a General Engineering A license (No. 905816) with a Hazardous Substances Removal and Remedial Actions Certification with the State of California, which are regulated by the Contractors State License Board. Any questions concerning a contractor may be referred to the Registrar, Contractors State License Board, P.O. Box 26000, Sacramento, California 95826.

APPENDIX B – TITLE REPORTS

ALTA OWNER'S POLICY OF TITLE INSURANCE

Issued By:

CHICAGO TITLE INSURANCE COMPANY

Policy Number:

**PROFORMA
FCLA-3861600245**

Any notice of claim and any other notice or statement in writing required to be given to the Company under this Policy must be given to the Company at the address shown in Section 18 of the Conditions.

COVERED RISKS

SUBJECT TO THE EXCLUSIONS FROM COVERAGE, THE EXCEPTIONS FROM COVERAGE CONTAINED IN SCHEDULE B, AND THE CONDITIONS, CHICAGO TITLE INSURANCE COMPANY, a Nebraska corporation (the "Company") insures, as of Date of Policy and, to the extent stated in Covered Risks 9 and 10, after Date of Policy, against loss or damage, not exceeding the Amount of Insurance, sustained or incurred by the Insured by reason of:

1. Title being vested other than as stated in Schedule A.
2. Any defect in or lien or encumbrance on the Title. This Covered Risk includes but is not limited to insurance against loss from
 - (a) A defect in the Title caused by
 - (i) forgery, fraud, undue influence, duress, incompetency, incapacity, or impersonation;
 - (ii) failure of any person or Entity to have authorized a transfer or conveyance;
 - (iii) a document affecting Title not properly created, executed, witnessed, sealed, acknowledged, notarized, or delivered;
 - (iv) failure to perform those acts necessary to create a document by electronic means authorized by law;
 - (v) a document executed under a falsified, expired, or otherwise invalid power of attorney;
 - (vi) a document not properly filed, recorded, or indexed in the Public Records including failure to perform those acts by electronic means authorized by law; or
 - (vii) a defective judicial or administrative proceeding.
 - (b) The lien of real estate taxes or assessments imposed on the Title by a governmental authority due or payable, but unpaid.
 - (c) Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land. The term "encroachment" includes encroachments of existing improvements located on the Land onto adjoining land, and encroachments onto the Land of existing improvements located on adjoining land.
3. Unmarketable Title.
4. No right of access to and from the Land.
5. The violation or enforcement of any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (a) the occupancy, use, or enjoyment of the Land;
 - (b) the character, dimensions, or location of any improvement erected on the Land;
 - (c) the subdivision of land; or
 - (d) environmental protectionif a notice, describing any part of the Land, is recorded in the Public Records setting forth the violation or intention to enforce, but only to the extent of the violation or enforcement referred to in that notice.

This is a PROFORMA Policy. It does not reflect the present state of the Title and is not a commitment to (i) insure the Title or (ii) issue any of the attached endorsements. Any such commitment must be an express written undertaking on appropriate forms of the Company.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

- 6. An enforcement action based on the exercise of a governmental police power not covered by Covered Risk 5 if a notice of the enforcement action, describing any part of the Land, is recorded in the Public Records, but only to the extent of the enforcement referred to in that notice.
- 7. The exercise of the rights of eminent domain if a notice of the exercise, describing any part of the Land, is recorded in the Public Records.
- 8. Any taking by a governmental body that has occurred and is binding on the rights of a purchaser for value without Knowledge.
- 9. Title being vested other than as stated in Schedule A or being defective
 - (a) as a result of the avoidance in whole or in part, or from a court order providing an alternative remedy, of a transfer of all or any part of the title to or any interest in the Land occurring prior to the transaction vesting Title as shown in Schedule A because that prior transfer constituted a fraudulent or preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws; or
 - (b) because the instrument of transfer vesting Title as shown in Schedule A constitutes a preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws by reason of the failure of its recording in the Public Records
 - (i) to be timely, or
 - (ii) to impart notice of its existence to a purchaser for value or to a judgment or lien creditor.
- 10. Any defect in or lien or encumbrance on the Title or other matter included in Covered Risks 1 through 9 that has been created or attached or has been filed or recorded in the Public Records subsequent to Date of Policy and prior to the recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The Company will also pay the costs, attorneys' fees, and expenses incurred in defense of any matter insured against by this Policy, but only to the extent provided in the Conditions.

IN WITNESS WHEREOF, CHICAGO TITLE INSURANCE COMPANY has caused this policy to be signed and sealed by its duly authorized officers.

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

(b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
 - (a) a fraudulent conveyance or fraudulent transfer; or
 - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

This is a PROFORMA Policy. It does not reflect the present state of the Title and is not a commitment to (i) insure the Title or (ii) issue any of the attached endorsements. Any such commitment must be an express written undertaking on appropriate forms of the Company.

EXHIBIT "A"
Legal Description

For APN/Parcel ID(s): 408-204-001, 408-204-002, 408-204-003, 408-204-004, 408-204-005 and 409-300-037

THE LAND REFERRED TO HEREIN IS SITUATED IN THE UNINCORPORATED AREA, COUNTY OF CONTRA COSTA, STATE OF CALIFORNIA, AND IS DESCRIBED AS FOLLOWS:

Parcel One:

Lot "Q", as said lot is shown on the map of the Sampson-Tams Ranch, filed July 1, 1907, Map Book 1, Page 7, Contra Costa County Records.

Excepting from Parcel One: The south 50 feet, right angle measurements, of said Lot "Q" (1 M 7), as conveyed in the deed from Albert August Reinecker, et al, to Heizo Oshima, et ux, recorded July 11, 1957, Book 3011, Page 369, Official Records.

Parcel Two:

Lot "R", as said lot is shown on the map of the Sampson-Tams Ranch, filed July 1, 1907, Map Book 1, Page 7, Contra Costa County Records.

Parcel Three:

Lot "S", as said lot is shown on the map of the Sampson-Tams Ranch, filed July 1, 1907, Map Book 1, Page 7, Contra Costa County Records.

Parcel Four:

The west one-half (1/2) of Lot "T", as said lot is shown on the map of the Sampson-Tams Ranch, filed July 1, 1907, Map Book 1, Page 7, Contra Costa County Records.

Parcel Five:

The south 50 feet, right angle measurements, of Lot "Q", as said lot is shown on the map of the Sampson-Tams Ranch, filed July 1, 1907, Map Book 1, Page 7, Contra Costa County Records.

Parcel Six:

Portion of Lot 198, as designated on the map entitled "Map of the San Pablo Rancho, Accompanying and Forming a Part of the Final Report of the Referees in Partition", which map was filed in the office of the Recorder of the County of Contra Costa, State of California on March 1, 1894, described as follows:

Commencing at a point on the northern boundary line of said Lot 198, 739 feet West from the northeast corner of said Lot 198, San Pablo Rancho; thence from said point of beginning West, along said northern

SCHEDULE B EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses that arise by reason of:

1. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2017-2018.
2. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring on or after the Date of Policy.
3. Intentionally deleted
4. A right of way for road purposes, affecting a 20-foot-wide strip crossing southerly portions of Parcels Six and Seven and a northerly portion of Parcel Nine, as created in the following instruments of record:
 - A. The deed from Laura Rose Viera to Laura Frias and Mariano Frias, recorded October 7, 1918, Book 325 of Deeds, Page 256.
 - B. The deed from Laura Rose Viera to Sarah Silva, recorded October 7, 1918, Book 327 of Deeds, Page 230.
 - C. The deed from Laura Rose Viera to Joe Davilla, Jr., recorded October 7, 1918, Book 327 of Deeds, Page 232.
 - D. The deed from Laura Rose Viera to Antonio Davilla, recorded October 7, 1918, Book 327 of Deeds, Page 234.
 - E. The deed from Laura Rose Viera to Mary Soares, recorded October 10, 1918, Book 327 of Deeds, Page 246.
 - F. The deed from Herman Kerlin, et ux, to San Pablo School District, a political subdivision, recorded June 6, 1949, Book 1396, Page 312, Official Records.

SCHEDULE B
EXCEPTIONS FROM COVERAGE

(continued)

5. The terms and provisions contained in the Redevelopment Plan for the North Richmond Redevelopment Project, as disclosed by the "Statement of Institution of Redevelopment Proceedings" recorded July 23, 1987, Book 13791, Page 511, Instrument No. 87-157129, Official Records; a copy of said Redevelopment Plan recorded July 23, 1987, Book 13791, Page 466, Instrument No. 87-157128, Official Records.

Said Redevelopment Plan has been amended by Ordinance No. 94-63 of the Board of Supervisors of the County of Contra Costa, adopted on December 6, 1994, a copy of which recorded December 14, 1994, Instrument No. 94-294407, Official Records, and has been further amended by Ordinance No. 99-06 of the Board of Supervisors of the County of Contra Costa, adopted on February 23, 1999, a copy of which recorded March 15, 1999, Instrument No. 99-070071, Official Records, and has been further amended by Ordinance No. 99-31 of the Board of Supervisors of the County of Contra Costa, adopted on June 8, 1999, a copy of which recorded June 9, 1999, Instrument No. 99-154027, Official Records.

An Ordinance of the Board of Supervisors for the County of Contra Costa Adopting an Amendment to the Redevelopment Plan for the North Richmond Redevelopment Project Area Pursuant to Health and Safety Code Section 33333.6(e) (2) (B) and (C), and Amending Related Ordinances in Connection therewith, recorded July 24, 2006, Instrument No. 2006-233265, Official Records.

The Statement of Institution of Redevelopment Plan Amendment, recorded July 2, 2008, Instrument No. 2008-0121615, of Official Records.

6. Easement(s) for the purpose(s) shown below and rights incidental thereto as granted in a document.

Granted to: Pacific Gas and Electric Company
Purpose: Gas pipelines
Recorded: November 1, 1988, Instrument No. 88-202210, Book 14688, Page 692,
of Official Records
Affects: A 10-foot-wide strip crossing portions of the premises

7. Easement(s) for the purpose(s) shown below and rights incidental thereto as granted in a document.

Granted to: East Bay Municipal Utility District
Purpose: Water pipelines
Recorded: August 1, 1989, Instrument No. 89-145218, Book 15236, Page 392,
of Official Records
Affects: All of Parcel Ten

END OF SCHEDULE B

This is a PROFORMA Policy. It does not reflect the present state of the Title and is not a commitment to (i) insure the Title or (ii) issue any of the attached endorsements. Any such commitment must be an express written undertaking on appropriate forms of the Company.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

CONDITIONS**1. DEFINITION OF TERMS**

The following terms when used in this policy mean:

- (a) "Amount of Insurance": The amount stated in Schedule A, as may be increased or decreased by endorsement to this policy, increased by Section 8(b), or decreased by Sections 10 and 11 of these Conditions.
- (b) "Date of Policy": The date designated as "Date of Policy" in Schedule A.
- (c) "Entity": A corporation, partnership, trust, limited liability company, or other similar legal entity.
- (d) "Insured": The Insured named in Schedule A.
 - (i) The term "Insured" also includes
 - (A) successors to the Title of the Insured by operation of law as distinguished from purchase, including heirs, devisees, survivors, personal representatives, or next of kin;
 - (B) successors to an Insured by dissolution, merger, consolidation, distribution, or reorganization;
 - (C) successors to an Insured by its conversion to another kind of Entity;
 - (D) a grantee of an Insured under a deed delivered without payment of actual valuable consideration conveying the Title
 - (1) if the stock, shares, memberships, or other equity interests of the grantee are wholly-owned by the named Insured,
 - (2) if the grantee wholly owns the named Insured,
 - (3) if the grantee is wholly-owned by an affiliated Entity of the named Insured, provided the affiliated Entity and the named Insured are both wholly-owned by the same person or Entity, or
 - (4) if the grantee is a trustee or beneficiary of a trust created by a written instrument established by the Insured named in Schedule A for estate planning purposes.
 - (ii) With regard to (A), (B), (C), and (D) reserving, however, all rights and defenses as to any successor that the Company would have had against any predecessor Insured.
- (e) "Insured Claimant": An Insured claiming loss or damage.
- (f) "Knowledge" or "Known": Actual knowledge, not constructive knowledge or notice that may be imputed to an Insured by reason of the Public Records or any other records that impart constructive notice of matters affecting the Title.
- (g) "Land": The land described in Schedule A, and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is insured by this policy.
- (h) "Mortgage": Mortgage, deed of trust, trust deed, or other security instrument, including one evidenced by electronic means authorized by law.
- (i) "Public Records": Records established under state statutes at Date of Policy for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge. With respect to Covered Risk 5(d), "Public Records" shall also include environmental protection liens filed in the records of the clerk of the United States District Court for the district where the Land is located.
- (j) "Title": The estate or interest described in Schedule A.
- (k) "Unmarketable Title": Title affected by an alleged or apparent matter that would permit a prospective purchaser or lessee of the Title or lender on the Title to be released from the obligation to purchase, lease, or lend if there is a contractual condition requiring the delivery of marketable title.

2. CONTINUATION OF INSURANCE

The coverage of this policy shall continue in force as of Date of Policy in favor of an Insured, but only so long as the Insured retains an estate or interest in the Land, or holds an obligation secured by a purchase money Mortgage given by a purchaser from the Insured, or only so long as the Insured shall have liability by reason of warranties in any transfer or conveyance of the Title. This policy shall not continue in force in favor of any purchaser from the Insured of either (i) an estate or interest in the Land, or (ii) an obligation secured by a purchase money Mortgage given to the Insured.

3. NOTICE OF CLAIM TO BE GIVEN BY INSURED CLAIMANT

The Insured shall notify the Company promptly in writing (i) in case of any litigation as set forth in Section 5(a) of these Conditions, (ii) in case Knowledge shall come to an Insured hereunder of any claim of title or interest that is adverse to the Title, as insured, and that might cause loss or damage for which the Company may be liable by virtue of this policy, or (iii) if the Title, as insured, is rejected as Unmarketable Title. If the Company is prejudiced by the failure of the Insured Claimant to provide prompt notice, the Company's liability to the Insured Claimant under the policy shall be reduced to the extent of the prejudice.

This is a PROFORMA Policy. It does not reflect the present state of the Title and is not a commitment to (i) insure the Title or (ii) issue any of the attached endorsements. Any such commitment must be an express written undertaking on appropriate forms of the Company.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

(continued)

4. PROOF OF LOSS

In the event the Company is unable to determine the amount of loss or damage, the Company may, at its option, require as a condition of payment that the Insured Claimant furnish a signed proof of loss. The proof of loss must describe the defect, lien, encumbrance, or other matter insured against by this policy that constitutes the basis of loss or damage and shall state, to the extent possible, the basis of calculating the amount of the loss or damage.

5. DEFENSE AND PROSECUTION OF ACTIONS

- (a) Upon written request by the Insured, and subject to the options contained in Section 7 of these Conditions, the Company, at its own cost and without unreasonable delay, shall provide for the defense of an Insured in litigation in which any third party asserts a claim covered by this policy adverse to the Insured. This obligation is limited to only those stated causes of action alleging matters insured against by this policy. The Company shall have the right to select counsel of its choice (subject to the right of the Insured to object for reasonable cause) to represent the Insured as to those stated causes of action. It shall not be liable for and will not pay the fees of any other counsel. The Company will not pay any fees, costs, or expenses incurred by the Insured in the defense of those causes of action that allege matters not insured against by this policy.
- (b) The Company shall have the right, in addition to the options contained in Section 7 of these Conditions, at its own cost, to institute and prosecute any action or proceeding or to do any other act that in its opinion may be necessary or desirable to establish the Title, as insured, or to prevent or reduce loss or damage to the Insured. The Company may take any appropriate action under the terms of this policy, whether or not it shall be liable to the Insured. The exercise of these rights shall not be an admission of liability or waiver of any provision of this policy. If the Company exercises its rights under this subsection, it must do so diligently.
- (c) Whenever the Company brings an action or asserts a defense as required or permitted by this policy, the Company may pursue the litigation to a final determination by a court of competent jurisdiction, and it expressly reserves the right, in its sole discretion, to appeal from any adverse judgment or order.

6. DUTY OF INSURED CLAIMANT TO COOPERATE

- (a) In all cases where this policy permits or requires the Company to prosecute or provide for the defense of any action or proceeding and any appeals, the Insured shall secure to the Company the right to so prosecute or provide defense in the action or proceeding, including the right to use, at its option, the name of the Insured for this purpose. Whenever requested by the Company, the Insured, at the Company's expense, shall give the Company all reasonable aid (i) in securing evidence, obtaining witnesses, prosecuting or defending the action or proceeding, or effecting settlement, and (ii) in any other lawful act that in the opinion of the Company may be necessary or desirable to establish the Title or any other matter as insured. If the Company is prejudiced by the failure of the Insured to furnish the required cooperation, the Company's obligations to the Insured under the policy shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation, with regard to the matter or matters requiring such cooperation.
- (b) The Company may reasonably require the Insured Claimant to submit to examination under oath by any authorized representative of the Company and to produce for examination, inspection, and copying, at such reasonable times and places as may be designated by the authorized representative of the Company, all records, in whatever medium maintained, including books, ledgers, checks, memoranda, correspondence, reports, e-mails, disks, tapes, and videos whether bearing a date before or after Date of Policy, that reasonably pertain to the loss or damage. Further, if requested by any authorized representative of the Company, the Insured Claimant shall grant its permission, in writing, for any authorized representative of the Company to examine, inspect, and copy all of these records in the custody or control of a third party that reasonably pertain to the loss or damage. All information designated as confidential by the Insured Claimant provided to the Company pursuant to this Section shall not be disclosed to others unless, in the reasonable judgment of the Company, it is necessary in the administration of the claim. Failure of the Insured Claimant to submit for examination under oath, produce any reasonably requested information, or grant permission to secure reasonably necessary information from third parties as required in this subsection, unless prohibited by law or governmental regulation, shall terminate any liability of the Company under this policy as to that claim.

7. OPTIONS TO PAY OR OTHERWISE SETTLE CLAIMS; TERMINATION OF LIABILITY

In case of a claim under this policy, the Company shall have the following additional options:

- (a) To Pay or Tender Payment of the Amount of Insurance.
- To pay or tender payment of the Amount of Insurance under this policy together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment or tender of payment and that the Company is obligated to pay.
- Upon the exercise by the Company of this option, all liability and obligations of the Company to the Insured under this policy, other than to make the payment required in this subsection, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.
- (b) To Pay or Otherwise Settle With Parties Other Than the Insured or With the Insured Claimant.
- (i) To pay or otherwise settle with other parties for or in the name of an Insured Claimant any claim insured against under this policy. In addition, the Company will pay any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay; or

This is a PROFORMA Policy. It does not reflect the present state of the Title and is not a commitment to (i) insure the Title or (ii) issue any of the attached endorsements. Any such commitment must be an express written undertaking on appropriate forms of the Company.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

(continued)

- (ii) to pay or otherwise settle with the Insured Claimant the loss or damage provided for under this policy, together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay.

Upon the exercise by the Company of either of the options provided for in subsections (b)(i) or (ii), the Company's obligations to the Insured under this policy for the claimed loss or damage, other than the payments required to be made, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

8. DETERMINATION AND EXTENT OF LIABILITY

This policy is a contract of indemnity against actual monetary loss or damage sustained or incurred by the Insured Claimant who has suffered loss or damage by reason of matters insured against by this policy.

- (a) The extent of liability of the Company for loss or damage under this policy shall not exceed the lesser of
 - (i) the Amount of Insurance; or
 - (ii) the difference between the value of the Title as insured and the value of the Title subject to the risk insured against by this policy.
- (b) If the Company pursues its rights under Section 5 of these Conditions and is unsuccessful in establishing the Title, as insured,
 - (i) the Amount of Insurance shall be increased by Ten percent (10%), and
 - (ii) the Insured Claimant shall have the right to have the loss or damage determined either as of the date the claim was made by the Insured Claimant or as of the date it is settled and paid.
- (c) In addition to the extent of liability under (a) and (b), the Company will also pay those costs, attorneys' fees, and expenses incurred in accordance with Sections 5 and 7 of these Conditions.

9. LIMITATION OF LIABILITY

- (a) If the Company establishes the Title, or removes the alleged defect, lien, or encumbrance, or cures the lack of a right of access to or from the Land, or cures the claim of Unmarketable Title, all as insured, in a reasonably diligent manner by any method, including litigation and the completion of any appeals, it shall have fully performed its obligations with respect to that matter and shall not be liable for any loss or damage caused to the Insured.
- (b) In the event of any litigation, including litigation by the Company or with the Company's consent, the Company shall have no liability for loss or damage until there has been a final determination by a court of competent jurisdiction, and disposition of all appeals, adverse to the Title, as insured.
- (c) The Company shall not be liable for loss or damage to the Insured for liability voluntarily assumed by the Insured in settling any claim or suit without the prior written consent of the Company.

10. REDUCTION OF INSURANCE; REDUCTION OR TERMINATION OF LIABILITY

All payments under this policy, except payments made for costs, attorneys' fees, and expenses, shall reduce the Amount of Insurance by the amount of the payment.

11. LIABILITY NONCUMULATIVE

The Amount of Insurance shall be reduced by any amount the Company pays under any policy insuring a Mortgage to which exception is taken in Schedule B or to which the Insured has agreed, assumed, or taken subject, or which is executed by an Insured after Date of Policy and which is a charge or lien on the Title, and the amount so paid shall be deemed a payment to the Insured under this policy.

12. PAYMENT OF LOSS

When liability and the extent of loss or damage have been definitely fixed in accordance with these Conditions, the payment shall be made within thirty (30) days.

13. RIGHTS OF RECOVERY UPON PAYMENT OR SETTLEMENT

- (a) Whenever the Company shall have settled and paid a claim under this policy, it shall be subrogated and entitled to the rights of the Insured Claimant in the Title and all other rights and remedies in respect to the claim that the Insured Claimant has against any person or property, to the extent of the amount of any loss, costs, attorneys' fees, and expenses paid by the Company. If requested by the Company, the Insured Claimant shall execute documents to evidence the transfer to the Company of these rights and remedies. The Insured Claimant shall permit the Company to sue, compromise, or settle in the name of the Insured Claimant and to use the name of the Insured Claimant in any transaction or litigation involving these rights and remedies.

If a payment on account of a claim does not fully cover the loss of the Insured Claimant, the Company shall defer the exercise of its right to recover until after the Insured Claimant shall have recovered its loss.

- (b) The Company's right of subrogation includes the rights of the Insured to indemnities, guaranties, other policies of insurance, or bonds, notwithstanding any terms or conditions contained in those instruments that address subrogation rights.

This is a PROFORMA Policy. It does not reflect the present state of the Title and is not a commitment to (i) insure the Title or (ii) issue any of the attached endorsements. Any such commitment must be an express written undertaking on appropriate forms of the Company.

(continued)

14. ARBITRATION

Either the Company or the Insured may demand that the claim or controversy shall be submitted to arbitration pursuant to the Title Insurance Arbitration Rules of the American Land Title Association ("Rules"). Except as provided in the Rules, there shall be no joinder or consolidation with claims or controversies of other persons. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the Insured arising out of or relating to this policy, any service in connection with its issuance or the breach of a policy provision, or to any other controversy or claim arising out of the transaction giving rise to this policy. All arbitrable matters when the Amount of Insurance is Two Million and No/100 Dollars (\$2,000,000) or less shall be arbitrated at the option of either the Company or the Insured. All arbitrable matters when the Amount of Insurance is in excess of Two Million and No/100 Dollars (\$2,000,000) shall be arbitrated only when agreed to by both the Company and the Insured. Arbitration pursuant to this policy and under the Rules shall be binding upon the parties. Judgment upon the award rendered by the Arbitrator(s) may be entered in any court of competent jurisdiction.

15. LIABILITY LIMITED TO THIS POLICY; POLICY ENTIRE CONTRACT

- (a) This policy together with all endorsements, if any, attached to it by the Company is the entire policy and contract between the Insured and the Company. In interpreting any provision of this policy, this policy shall be construed as a whole.
- (b) Any claim of loss or damage that arises out of the status of the Title or by any action asserting such claim shall be restricted to this policy.
- (c) Any amendment of or endorsement to this policy must be in writing and authenticated by an authorized person, or expressly incorporated by Schedule A of this policy.
- (d) Each endorsement to this policy issued at any time is made a part of this policy and is subject to all of its terms and provisions. Except as the endorsement expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsement, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance.

16. SEVERABILITY

In the event any provision of this policy, in whole or in part, is held invalid or unenforceable under applicable law, the policy shall be deemed not to include that provision or such part held to be invalid, but all other provisions shall remain in full force and effect.

17. CHOICE OF LAW; FORUM

- (a) Choice of Law: The Insured acknowledges the Company has underwritten the risks covered by this policy and determined the premium charged therefor in reliance upon the law affecting interests in real property and applicable to the interpretation, rights, remedies, or enforcement of policies of title insurance of the jurisdiction where the Land is located.

Therefore, the court or an arbitrator shall apply the law of the jurisdiction where the Land is located to determine the validity of claims against the Title that are adverse to the Insured and to interpret and enforce the terms of this policy. In neither case shall the court or arbitrator apply its conflicts of law principles to determine the applicable law.

- (b) Choice of Forum: Any litigation or other proceeding brought by the Insured against the Company must be filed only in a state or federal court within the United States of America or its territories having appropriate jurisdiction.

18. NOTICES, WHERE SENT

Any notice of claim and any other notice or statement in writing required to be given to the Company under this policy must be given to the Company at:

Chicago Title Insurance Company
P.O. Box 45023
Jacksonville, FL 32232-5023
Attn: Claims Department

END OF CONDITIONS

This is a PROFORMA Policy. It does not reflect the present state of the Title and is not a commitment to (i) insure the Title or (ii) issue any of the attached endorsements. Any such commitment must be an express written undertaking on appropriate forms of the Company.

- 1. The Company insures against loss or damage sustained by the Insured in the event that, at Date of Policy,
 - a. According to applicable zoning ordinances and amendments, the Land is not classified Zone P-1 (Planned Development District) with General Plan designation of Heavy Industry (H-I);
 - b. The following use or uses are not allowed under that classification:
 - Heavy Industrial
- 2. There shall be no liability under this endorsement based on
 - a. Lack of compliance with any conditions, restrictions, or requirements contained in the zoning ordinances and amendments, including but not limited to the failure to secure necessary consents or authorizations as a prerequisite to the use or uses. This paragraph 2.a. does not modify or limit the coverage provided in Covered Risk 5.
 - b. The invalidity of the zoning ordinances and amendments until after a final decree of a court of competent jurisdiction adjudicating the invalidity, the effect of which is to prohibit the use or uses.
 - c. The refusal of any person to purchase, lease or lend money on the Title covered by this policy.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. 1. The insurance provided by this endorsement is subject to the exclusions in Section 4 of this endorsement; and the Exclusions from Coverage, the Exceptions from Coverage contained in Schedule B, and the Conditions in the policy.
2. For the purposes of this endorsement only, "Covenant" means a covenant, condition, limitation or restriction in a document or instrument in effect at Date of Policy.
3. The Company insures against loss or damage sustained by the Insured by reason of:
 - a. A violation on the Land at Date of Policy of an enforceable Covenant, unless an exception in Schedule B of the policy identifies the violation; or
 - b. A notice of a violation, recorded in the Public Records at Date of Policy, of an enforceable Covenant relating to environmental protection describing any part of the Land and referring to that Covenant, but only to the extent of the violation of the Covenant referred to in that notice, unless an exception in Schedule B of the policy identifies the notice of the violation.
4. This endorsement does not insure against loss or damage (and the Company will not pay costs, attorneys' fees, or expenses) resulting from:
 - a. any Covenant contained in an instrument creating a lease;
 - b. any Covenant relating to obligations of any type to perform maintenance, repair, or remediation on the Land; or
 - c. except as provided in Section 3.b, any Covenant relating to environmental protection of any kind or nature, including hazardous or toxic matters, conditions, or substances.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. Otherwise, this endorsement is subject to all of the terms and provisions of the policy and of any prior endorsements.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 12/11/2017 has revealed that there are 6 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 09/13/2017 has revealed that there are 5 CORRACTS sites within approximately 1 mile of the target property.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-TSDF list, as provided by EDR, and dated 09/13/2017 has revealed that there are 2 RCRA-TSDF sites within approximately 0.5 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 09/13/2017 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 09/13/2017 has revealed that there are 6 RCRA-SQG sites within approximately 0.25 miles of the target property.

CA RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the CA RESPONSE list, as provided by EDR, has revealed that there are 7 CA RESPONSE sites within approximately 1 mile of the target property.

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 10/30/2017 has revealed that there are 50 CA ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal landfill and/or solid waste disposal site lists

CA SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the CA SWF/LF list, as provided by EDR, has revealed that there are 2 CA SWF/LF sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Local Lists of Hazardous waste / Contaminated Sites

CA HIST Cal-Sites: Formerly known as ASPIS, this database contains both known and potential hazardous substance sites. The source is the California Department of Toxic Substance Control. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

A review of the CA HIST Cal-Sites list, as provided by EDR, and dated 08/08/2005 has revealed that there are 6 CA HIST Cal-Sites sites within approximately 1 mile of the target property.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

HAZARDOUS AIR POLLUTANT MAJOR

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Info:

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Correspondence
Completed Date: 02/07/2017
Comments: Environmental Resource Group submitted to DTSC additional grab groundwater analytical results on January 11, 2017. Petroleum hydrocarbons and acetone were detected at relatively low concentrations below the applicable Regional Water Quality Control Board Environmental Screening Levels for groundwater not used as a drinking water resource. DTSC responded that the sampling results further support DTSC's no further action determination in a letter issued on November 8, 2016.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Voluntary Cleanup Agreement
Completed Date: 08/04/2016
Comments: DTSC entered into a Voluntary Cleanup Agreement Sunborne Nursery to oversee a Preliminary Endangerment Assessment.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 11/08/2016
Comments: DTSC determined that no further action is required and that the planned plant nursery is an acceptable land use at the site. This determination was based on review of Phase I and Phase II Environmental Site Assessment Reports. Approximately 4 cubic yards of soil was removed at one sampling location where arsenic was detected at a concentration of 42 milligrams per kilogram, above the naturally-occurring background arsenic concentration.

 RB Case Number: 07S0050
 File Location: Regional Board
 Potential Media Affected: Soil
 Potential Contaminants of Concern: Dichloroethane (DCA), Dichloroethene (DCE), Tetrachloroethylene (PCE)
 Site History: The site is located in North Richmond, an unincorporated area which is north of Richmond and west of San Pablo. The property is bordered by a pasture on the north, Central Street on the east, Pittsburgh Avenue on the south. The property occupies approximately six acres. The eastern half of the property includes two buildings, which house the drum reconditioning operations. The main building is surrounded by concrete and by asphalt-paved parking. The western half of the property is paved with gravel, and is used for drum storage. Prior to Meyers acquisition of the site (January 1991), the property was owned by Cooper Drum. (Groundwater Assessment Workplan, 5-22-1991) On March 22, 1991, approximately 2,300 gallons of caustic oily waste water was released from an oil/water separator tank located on the site into a flood control channel which discharges to San Pablo Bay. (Myers Container Corporation Richmond Facility, Caustic Oily Waste Water Spill, in Richmond, 1991, 9-27-1991)

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 03/07/2013
Comments: The Site Screening recommends No Further Action. The Rational supporting the recommendation is : 1.The known wastes previously handled at the site, K078 and K079, were delisted in 1980 and exempted under the 40 Code of Federal Regulations, Section 29, Parts 199 to 399. 2.The facility changed to water soluble organic coatings in 1987 and eliminated the K078 and K079 waste streams. 3.EPA recommended no further action because one of the most significant HRS factors related to the John L. Armitage site in May 1991 revealed that the site had no known past chemical spills at the site.

Case Worker: DT
Local Agency: Not reported
RB Case Number: 07S0191
File Location: Regional Board
Potential Media Affected: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: Other Petroleum, Aviation
Site History:

Actual:
28 ft.

The case is a product leak from Shell pipeline running along the Southern Pacific Railroad, between properties located at 850 and 900 Brookside Drive in Richmond. discovered during investigations of former underground storage tank (UST) leaks at the adjacent properties located east and west of the subject pipeline (at 850 Brookside Drive, Board case number 07-0189; and at 900 Brookside Drive; Board case number 07-0660, respectively). Soil and groundwater data collected from these properties suggested that a fuel leak(s) from the subject Shell pipeline contaminated the subsurface with

SHELL PIPELINE AT BROOKSIDE DRIVE (Continued)

S108937539

various hydrocarbon constituents including jet fuel hydrocarbons, not stored in any of the sites former USTs. Contamination appears to be significant, as indicated by the presence of free product on groundwater beneath the western boundary of the 850 Brookside Drive site, near the Shell pipeline and upgradient to the site former USTs.

 Status Date: 07/18/2000
 Case Worker: BGS
 RB Case Number: 07-0189
 Local Agency: CONTRA COSTA COUNTY
 File Location: Regional Board
 Local Case Number: 08195
 Potential Media Affect: Other Groundwater (uses other than drinking water)
 Potential Contaminants of Concern: Diesel
 Site History: the subject property (Site) is located on the south side of Brookside Drive in Richmond, California. The parcels has a rhomboidal shape and is buttressed to the east and west by two operating rail lines. Surrounding properties are largely commercial and industrial with some open marsh / bay-filled lots to the west of the Site, with San Pablo creek running to the Bay across the northern side of the parcels just to the north of the Site. Shell's petroleum pipeline is located to the east side of the UPRR (Union Pacific Railroad) lines. A second petroleum pipeline is located on the west side of the UPRR lines and east of the former underground storage tank (UST) area.

Three (3) USTs were removed in 1986. Soil and groundwater have detectable levels of petroleum hydrocarbons and related contaminants, including BTEX (benzene toluene ethylene and xylenes), total petroleum hydrocarbons as gasoline (TPHg) or diesel (TPHd), and motor oil (TPHmo), and as crude oil (TPHc) due to the historic pipeline use on Site. TPHc concentrations in soil recorded up to 23,000 mg/kg, while groundwater grab samples ranged from 2,900 ug/L to 1,300,000 ug/L. Multiple petroleum sources are in the vicinity of the Site. Investigations continue on and off-Site.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

S72	FMC CORPORATION - RICHMOND	CA BOND EXP. PLAN	S105960428
NE	835 PAR BOULEVARD		N/A
1/4-1/2	RICHMOND, CA 94802		
0.343 mi.			
1811 ft.	Site 2 of 2 in cluster S		

Relative:	CA BOND EXP. PLAN:	RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
Higher	Reponsible Party:	
	Project Revenue Source Company:	Not reported
Actual:	Project Revenue Source Addr:	Not reported
27 ft.	Project Revenue Source City,St,Zip:	Not reported
	Project Revenue Source Desc:	DHS will be issuing a remedial action order or entering into an enforceable agreement with the responsible parties. DHS has budgeted \$50,000 for oversight/monitoring of cleanup efforts. DHS will recover 100 percent of direct costs plus staff costs and overhead related to the project. The responsible parties will pay all costs associated with remedial investigations and cleanup activities.
	Site Description:	The FMC Corporation-Richmond site operated as a pesticide formulating facility from the late 1940's to 1979 when operations at the plant ceased and a decommissioning program began. The plant occupies approximately 20 acres between the Southern Pacific and Santa Fe Railroad tracks, north of Parr Boulevard. The areas to the east and the southeast of the site are residential. Industrial developments occupy areas to the north, west and southeast.
	Hazardous Waste Desc:	Soil and ground water are contaminated with various organochlorine and organophosphorus pesticides and solvents. Heavy metal contamination exists in some onsite soil locations. Dinitrobutylphenol (DNBP), toxaphene, and dichlorodiphenyltrichloroethane (DDT) are some of the pesticides found at the highest concentrations.
	Threat To Public Health & Env:	Soils are contaminated both at the surface and subsurface. There are contaminated sediments in the drainage pathways which have the potential to flow offsite. Pesticides have leached to the ground water as a result of percolating rainwater. Surface runoff may become contaminated during contact with contaminated soils and travel offsite.
	Site Activity Status:	The responsible parties under DHS oversight, have removed approximately 20,000 tons of contaminated soil from the site. Lower levels of pesticide contamination remain onsite. FMC is continuing RI/FS activities under oversight by DHS and the RWQCB.

WDS:

Facility ID: San Francisco Bay 071013532
Facility Type: Industrial - Facility that treats and/or disposes of liquid or semisolid wastes from any servicing, producing, manufacturing or processing operation of whatever nature, including mining, gravel washing, geothermal operations, air conditioning, ship building and repairing, oil production, storage and disposal operations, water pumping.
Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.
NPDES Number: CAS000001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board
Subregion: 2
Facility Telephone: 5102362488
Facility Contact: BILLY INMAN

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Completed Info:

Completed Area Name: PROJECT WIDE
 Completed Sub Area Name: Not reported
 Completed Document Type: Site Screening
 Completed Date: 06/05/2008
 Comments: Site screening approved 6/5/08. Site referred to RWQCB, since RWQCB oversaw investigation and cleanup this site. The site screening covered four properties, including the subject site, that were acquired to provide land for a proposed redevelopment project (a tribal casino). The formerly separate properties are 81 Parr Blvd (Broadline/Simpson Filtration/American Refining), 155 Parr Blvd (Agra Foundations), 177 Parr Blvd (Color Spot Nursery, Yard 3), and 2701 Goodrick Ave. 81 Parr and 155 Parr appear to have mostly petroleum-related contamination, and the site screening therefore recommended referral to RWQCB. The site screening also recommended referring 2701 Goodrick to RWQCB, because it borders 177 Parr and would likely have similar contamination issues.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Background Info: FMC Corporation formulated agricultural chemical and pesticide products at the site from 1946 to 1979. Soil and shallow groundwater were contaminated through releases from the routine handling of materials. The primary contaminants detected in soil and shallow groundwater during the site investigation are organochlorine and organophosphorous pesticides, including DDT, DDD, DDE, dieldrin and chlordane. Dinitrobutylphenol was detected in groundwater most frequently.
Comments Date: 04232003
Comments: Completed Five-Year Review. The report concluded that the
Comments Date: 04232003
Comments: objectives of the remedial action were being met. However, the

Environmental Interest/Information System
HAZARDOUS AIR POLLUTANT MAJOR

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Info:

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Correspondence
Completed Date: 07/18/2008
Comments: Referral letter to SF RWQCB sent 7/18/08. Referral includes 155 Parr Blvd and 2701 Goodrick Ave.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 06/05/2008
Comments: Site screening approved 6/5/08. The site screening recommended referral to RWQCB, because contamination appears to be mainly related to petroleum hydrocarbon releases. The site screening covered four properties, including the subject site, that were acquired to provide land for a proposed redevelopment project (a tribal casino). The formerly separate properties are 81 Parr Blvd (Broadline/Simpson Filtration/American Refining), 155 Parr Blvd (Agra Foundations), 177 Parr Blvd (Color Spot, Yard 3), and 2701 Goodrick Ave. 155 Parr appears to have mostly petroleum-related contamination, and the site screening therefore recommended referral to RWQCB. RWQCB oversaw investigation and cleanup at 177 Parr (former Color Spot Nursery, Yard 3). The site screening also recommended referral of 2701 Goodrick to RWQCB, because it borders 177 Parr (former Color Spot, Yard 3).

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as

SLIC:

Region: STATE
Facility Status: **Open - Remediation**
Status Date: 11/30/2011
Global Id: SL0601392884
Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)
Lead Agency Case Number: Not reported
Latitude: 37.9636380015323
Longitude: -122.355680465698
Case Type: Cleanup Program Site
Case Worker: BGS
Local Agency: Not reported
RB Case Number: 07S0182
File Location: Regional Board
Potential Media Affected: Indoor Air, Other Groundwater (uses other than drinking water), Soil, Soil Vapor

Actual:
28 ft.

Potential Contaminants of Concern: Tetrachloroethylene (PCE), Trichloroethylene (TCE), Vinyl chloride
Site History: The soil and groundwater beneath the site have been contaminated by PCE from dry cleaning operations. Several environmental investigation have been conducted at the site since 2004. The investigation results indicate that the dissolved PCE plume has migrated off-site (to the west) beneath the adjacent apartment building. The plume has been delineated vertically, and laterally in all directions except to the southwest. PCE concentrations in soil vapor samples collected in several on-site and off-site locations, including locations within the off-site apartment building exceed the ESLs. The site cleanup options are being evaluated.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Correspondence
Completed Date: 07/18/2008
Comments: Referral letter sent to SF RWQCB on 7/18/08. Referral also included 81 and 155 Parr Blvd.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 06/05/2008
Comments: Site screening approved 6/5/08. The site screening recommended referring 2701 Goodrick to RWQCB, because it borders 177 Parr where RWQCB provided oversight for investigation and cleanup of contamination issues. The site screening covered four properties, including the subject site, that were acquired to provide land for a proposed redevelopment project (a tribal casino). The formerly

separate properties are 81 Parr Blvd (Broadline/Simpson Filtration/American Refining), 155 Parr Blvd (Agra Foundations), 177 Parr Blvd (Color Spot, Yard 3), and 2701 Goodrick Ave. 81 Parr and 155 Parr appear to have mostly petroleum-related contamination, and the site screening therefore recommended referral to RWQCB. RWQCB oversaw investigation and cleanup at 177 Parr (former Color Spot Nursery, Yard 3).

Potential Contaminants of Concern: Not reported
Site History: Order R2-2001-0030 rescinded Waste Discharge Requirements contained in Order No. 95-032. The thermal treatment unit is no longer operated on this site, and there is no remaining soil or groundwater contamination. Rescission of Waste Discharge Requirements Contained in Order 95-032: Following the closure of REMCO and Bay Area Soil, approximately 20,000 to 30,000 yards of soil were left on the site in a stockpile. This soil was graded to an approximately level condition in late 1999, and left uncovered. During the spring of 1999 and again during the summer of 2000, these soils and four on-site groundwater monitoring wells were sampled. The soil showed no detectable benzene or MTBE, and TPH-gasoline and diesel were found at maximum concentrations of 10 mg/kg and 75 mg/kg respectively. Metals were found, but at background levels. The groundwater showed no detectable benzene or petroleum hydrocarbons, save for one well showing TPH-gasoline at 74 ppb. There is no free product or petroleum hydrocarbon sources left on this site, and the remaining concentrations of metals and petroleum hydrocarbons in the soil and groundwater do not pose a risk to the public or to the environment. Hence no further action is needed at this site.

Solid Waste Assessment Test Program: Not reported
 Threat to Water Quality: Moderate Threat to Water Quality. A violation could have a major adverse impact on receiving biota, can cause aesthetic impairment to a significant human population, or render unusable a potential domestic or municipal water supply. Awsthetic impairment would include nuisance from a waste treatment facility.

Comments: Work notice for field work scheduled for 8/29/2013 mailed out 8/22/2013.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Workplan
Completed Date: 06/02/2014
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 08/26/2014
Comments: Fieldwork to implement the site investigation activities in the workplan approved on June 2, 2014. Activities included the installation and sampling of groundwater monitoring wells, and collecting and analyzing soil and sub-slab soil vapor samples.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 12/12/2014
Comments: Additional site characterization did not detect contaminants of concern west of monitoring well 4 group near border of neighboring property. Additional monitoring will be conducted to verify this.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 08/19/2014
Comments: Fieldwork to simultaneously measure groundwater elevation in monitoring wells at the Apogee and Garden Tract sites to determine the direction groundwater is flowing and resolve the mound observed at MW-4.

Completed Area Name: PROJECT WIDE

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

Comments: Approved community profile received 11/20/12.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 01/20/2005
Comments: This site investigation was conducted prior to DTSC involvement at the site. Report dated December 2004 was transmitted to EPA January 20, 2005.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 02/27/1990
Comments: Site Tracking Sheet states that recommendation is pending, PEA medium priority. County and city of Richmond are lead agencies; RWQCB is involved. Cleanup oversight by City; RWQCB if there is groundwater contamination. Site had drums containing phosphoric acid, pesticides, sodium hydroxide, and oil waste. Buried pesticide drums were found.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 07/01/1991
Comments: City of Richmond Fire Dept. originally ordered SFPRC to abate the fire hazards caused by delapidated buildings and trash on site. Upon cleaning site, approx. 100 drums were found, including 12 buried drums containing pesticides. Hazcat on drum material indicate the presence of oil sludges, phosphoric acid, NaOH, and pesticides. City of Richmond overseeing initial site stabilization, RWQCD overseeing long term cleanup when groundwater contamination found. City of Richmond and RWQCB also currently overseeing cleanup.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Alternate City,St,Zip: RICHMOND, CA 94801
Alternate Address: 521 WEST GERTRUDE AVENUE
Alternate City,St,Zip: RICHMOND, CA 94801
Background Info: Hazardous substances are suspected to have been released at the Site based on conditions noted in a 1997 drive-by. The property was used as a junkyard for several years. In 1997, the Site had several junk piles, drums, pressurized and other containers, severe dark soil staining and evidence of fire on more than 50% of the Site. In May 1997, a thick black plume of smoke was observed coming from the site which was covered with tires, batteries and miscellaneous automobile scrap. In 1998, DTSC conducted sampling at the site and found elevated levels of lead, copper, zinc and bis(2-ethylhexyl)phthalate.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

manufacturer that briefly used the site. However, other manufacturers have used onsite buildings since the late 1960s, including National Lead subsidiaries, Weigman and Rose, Inc. (WRI) and currently, Richmond Machine and Fabrication. In the early 1970's, the low area in the back of the property (Site R), was filled in with soil, metal, and other miscellaneous debris. In 1987, thirty drums were discovered in this area. These drums contained resins, other wastes and aromatic hydrocarbons. The surrounding soil were found to be contaminated with the aromatic hydrocarbons. The soil still contains elevated levels of lead and chromium. Although metals are found in the groundwater sediments, they have not been detected in filter groundwater samples. Operation and maintenance entails inspection of the site cap and groundwater monitoring to ensure that no contaminant migration occurs.

CA BOND EXP. PLAN:

Responsible Party: RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
Project Revenue Source Company: Not reported
Project Revenue Source Addr: Not reported
Project Revenue Source City,St,Zip: Not reported
Project Revenue Source Desc: Weigmann and Rose, the current site owner, is the designated responsible party and have taken all actions to date. DHS will be issuing a remedial action order or entering into an enforceable agreement with the responsible parties. DHS has budgeted \$30,000 for oversight/monitoring of cleanup efforts. DHS will recover 100 percent of direct costs plus staff costs and overhead related to the project. The responsible party will pay for all costs associated with remedial investigations and cleanup activities.
Site Description: Cooper Chemical formerly manufactured catalyst for fiberglass resins. A chemical manufacturing facility operated adjacent to the vacant site area.
Hazardous Waste Desc: Heavy metals (lead, zinc and copper) have been detected in the soil.
Threat To Public Health & Env: The primary route of potential exposure is through direct contact.
Site Activity Status: The responsible party is continuing with RI/FS activities. Buried drums, discovered in September, 1988, have been removed from the site.

CA BOND EXP. PLAN:

Responsible Party: RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
 Project Revenue Source Company: Not reported
 Project Revenue Source Addr: Not reported
 Project Revenue Source City,St,Zip: Not reported
 Project Revenue Source Desc: Currently, the RPs are in compliance with an order issued by the Department in

Actual:
14 ft.

May, 1988. However, approximately \$20,000 in Bond funds were expended by the Department to complete the FS and prepare the RAP. DHS has budgeted an additional \$25,000 for direct costs related to the project. The Department will oversee and monitor the RP's implementation of the remedial action. DHS will recover 100 percent of its direct costs plus staff costs and overhead related to the project.

Site Description: This two acre site was used as a scrap metal and drum storage area. A large asbestos pile onsite has been removed. Leaking 55-gallon drums have been observed onsite. The site also includes a contiguous residential property and drainage ditch.

Hazardous Waste Desc: Approximately 3,500 cubic yards of soil contaminated with elevated levels of heavy metals (copper, nickel, lead and zinc) are distributed over the surface of the site. Limited amounts have migrated to the residential property and drainage ditch.

Threat To Public Health & Env: The primary threats to the public health and environment are surface water migration and direct contact. A salt water wetlands area is about 3,000 feet away. The site is poorly secured and accessible to the general public. There is a garden area on the residential property which also contains very high concentrations of lead and zinc. The heavy metals in the garden area are suspected of having migrated from the Drew Sales site.

Site Activity Status: The final RAP has been approved and the remedial design prepared. A deed restriction limiting uses of the property will be imposed. Implementation of the remedial action is projected to be completed in early 1989.

Alternate Address: 818 W. GERTRUDE AVENUE
Alternate City,St,Zip: RICHMOND, CA 94801
Background Info: This two-acre site has operated as a metal recycling facility since 1957. The site is a low-lying filled marshland subject to occasional flooding during wet weather conditions. Used transformers with oil coolant containing low levels of polychlorinated biphenyls (PCBs) were bought by Sacramento Municipal Utilities District (SMUD) and were dismantled onsite. The transformers were broken apart and the copper cores were separated from the oil. During this operation, oil containing PCBs was spilled onto the ground.
Comments Date: 01191993
Comments: ORDER - AMEND - An amendment to the Consent Order was made to
Comments Date: 01191993
Comments: implement the approved RAP with modifications. Two Explanation
Comments Date: 01191993
Comments: of Significant Differences (ESD) were done in December 1993 and
Comments Date: 01191993
Comments: April 1995 for modifications and as-builts to the original RAP.

CA BOND EXP. PLAN:

Responsible Party: RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
Project Revenue Source Company: Not reported
Project Revenue Source Addr: Not reported
Project Revenue Source City,St,Zip: Not reported
Project Revenue Source Desc: To, date, all remediation activities have been conducted by the responsible party. The RP may not be financially capable or willing to complete the site investigation or remediation. DHS will issue a final determination of noncompliance if the RP is unable to complete all necessary activities. DHS has budgeted \$300,000 for investigation and remediation activities and oversight. DHS will recover 100 percent of all direct costs plus staff costs and overhead related to the project.
Site Description: This two-acre site has been operated as a metal recycling facility. Used polychlorinated biphenyl (PCB) transformers from the Sacramento Municipal Utilities District (SMUD) were received here. The PCB transformers were broken apart and the copper cores were separated from the PCB oil coolant. During this

Hazardous Waste Desc: operation, the PCB oil coolant was spilled onto the ground. Substantial amounts of PCB-contaminated soils are present. Preliminary soil sample results indicate that metals and chlorinated solvents may also be present.

Threat To Public Health & Env: The primary threats to public health and the environment are ground water migration, surface water migration and direct contact. Ground water wells are within one-quarter mile. A recreational creek is less than 4,000 feet from the contamination. Thesite is fenced and posted.

Site Activity Status: Excavation and offsite disposal of 160 cubic yards of PCB contaminated soil occurred in late 1986. All debris and old transformer casings have been removed and disposed of properly. A runoff diversion, containment and treatment system has been operating since December, 1987. Ground water monitoring wells have been installed and tested. PCBs in ground water were non-detectable. The responsible party has begun work on the risk assessment, feasibility study and remedial action plan. The Departmenthas conducted additional soil sampling and analyses to determine the presence of other contaminants. Chlorobenzene solvents have been found below the ground surface. Additional investigations have been completed.

 Description: This two-acre site consisted of the Drew Property (a former scrap metal business), the Ellison Property (contiguous residential property), and the Southern Pacific Railroad Right-of-Way (a contiguous drainage ditch). The Drew Property was originally owned by the Richmond Sanitary Service, and was used for storage and maintenance of trucks. In August 1960, the property was purchased by the Drews who operated a scrap metal business on the site until August 1976. Property was sold in December 2002 to Anchor, LLC and is occupied by Ranger Pipelines, a subsidiary of Anchor, LLC. An extensive resurfacing of the cap was done in September 2003. The site is used for equipment storage.

Background Info: This two-acre site consisted of the Drew Property (a former scrap metal business), the Ellison Property (contiguous residential property), and the Southern Pacific Railroad Right-of-Way (a contiguous drainage ditch). The Drew Property was originally owned by the Richmond Sanitary Service, and was used for storage and maintenance of trucks. In August 1960, the property was purchased by Bernard and Cathryne Drew who operated a scrap metal business on the site until August 1976. During the period of operation, the site was contaminated with copper, lead, nickel and zinc. The Ellison Property, owned by Richard and Anita Ellison was also contaminated with copper, lead, nickel and zinc at the boundary it shared with the Drew Sales Property. Property was sold in December 2002 to Anchor, LLC and is occupied by Ranger Pipelines, a subsidiary of Anchor, LLC. An extensive resurfacing of the cap was done in September 2003. The site is used for equipment storage.

Background Info: American Standard operated a vitrified porcelain manufacturing facility from 1913 to 1967. The American Standard Products Site consists of a 10.5-acre manufacturing facility (FMF); a 2-acre former waste disposal area and the adjacent banks of Rheem Creek (collectively referred to as the FWDA); and a 34.5-acre adjacent property known as the Lazy J Ranch (LJR). The Site was divided into three Operable Units (OU): OU-I = FWDA; OU-II = FMF; and OU-III = LJR. Rheem Creek separates FMF and FWDA; Giant Highway separates FWDA and FMF from LJR.

CA BOND EXP. PLAN:

Responsible Party: RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
 Project Revenue Source Company: American Standard, Inc.
 Project Revenue Source Addr: 40 West 40th Street
 Project Revenue Source City,St,Zip: New York, NY 10018
 Project Revenue Source Desc: DHS will be issuing a remedial action order or entering into an enforceable agreement with the responsible parties. DHS has budgeted \$50,000 for oversight/monitoring of cleanup efforts. DHS will recover 100 percent of direct costs plus staff costs and overhead related to the project. The responsible parties will pay all costs associated with site cleanup.

Site Description: Significant concentrations of heavy metals have been identified at the this decommissioned ceramic manufacturing facility waste water treatment pond. Sedimented waste glazing slip containing lead and zinc is spread over a three acre area across a small creek from the manufacturing site.

Hazardous Waste Desc: Lead has been identified at concentrations as high as 83,000 parts per million (ppm) in the fill material. Zinc has been identified at concentrations as high as 48,000 ppm in the fill material.

Threat To Public Health & Env: The site is located adjacent to a residential area and to a creek which flows into the San Francisco Bay. Ground water and surface water contamination is possible. Direct contact is possible. The site is fenced and posted. People fishing and trespassing along the fenced creek may be exposed by contact or through ingestion.

Site Activity Status: A draft RI report for the settling pond area has been submitted for review. Additional remedial investigation is underway on the manufacturing side of the creek. A preliminary feasibility study of remedial alternatives has been submitted.

THE PRODUCTION OF 2,4,6, TRIBROMPHENOL

- . Waste code: K141
- . Waste name: PROCESS RESIDUES FROM THE RECOVERY OF COAL TAR, INCLUDING, BUT NOT LIMITED TO, TAR COLLECTING SUMP RESIDUES FROM THE PRODUCTION OF COKE FROM COAL OR THE RECOVERY OF COKE BY-PRODUCTS PRODUCED FROM COAL. THIS LISTING DOES NOT INCLUDE K087 (DECANTER TANK SLUDGE FROM COKING OPERATIONS).

- . Waste code: K142
- . Waste name: TANK STORAGE RESIDUES FROM THE PRODUCTION OF COKE FROM COAL OR FROM THE RECOVERY OF COKE BY-PRODUCTS FROM COAL.

- . Waste code: K143
- . Waste name: PROCESS RESIDUES FROM THE RECOVERY OF LIGHT OIL, INCLUDING, BUT NOT LIMITED TO, THOSE GENERATED IN STILL, DECANTERS, AND WASH OIL RECOVERY UNITS FROM THE RECOVERY OF COKE BY-PRODUCTS PRODUCED FROM COAL.

- . Waste code: K144
- . Waste name: WASTEWATER SUMP RESIDUES FROM LIGHT OIL REFINING, INCLUDING, BUT NOT LIMITED TO, INTERCEPTING OR CONTAMINATION SUMP SLUDGES FROM THE RECOVERY OF COKE BY-PRODUCTS PRODUCED FROM COAL.

- . Waste code: K145
- . Waste name: RESIDUES FROM NAPHTHALENE COLLECTION AND RECOVERY OPERATIONS FROM THE RECOVERY OF COKE BY-PRODUCTS PRODUCED FROM COAL.

- . Waste code: K147
- . Waste name: TAR STORAGE RESIDUES FROM COAL TAR REFINING.

- . Waste code: K148
- . Waste name: RESIDUES FROM COAL TAR DISTILLATION, INCLUDING, BUT NOT LIMITED TO, STILL BOTTOMS.

- . Waste code: K149
- . Waste name: DISTILLATION BOTTOMS FROM THE PRODUCTION OF ALPHA (OR METHYL-) CHLORINATED TOLUNES, RING-CHLORINATED TOLUNES, BENZOYL CHLORIDES, AND COMPOUNDS WITH MIXTURES OF THESE FUNCTIONAL GROUPS. [THIS WASTE DOES NOT INCLUDE STILL BOTTOMS FROM THE DISTILLATION OF BENZOYL CHLORIDE]

- . Waste code: K150
- . Waste name: ORGANIC RESIDUES EXCLUDING SPENT CARBON ADSORBENT, FROM THE SPENT CHLORINE GAS AND HYDROCHLORIC ACID RECOVERY PROCESSES ASSOCIATED WITH THE PRODUCTION OF ALPHA (OR METHYL-) CHLORINATED TOLUNES, BENZOYL CHLORIDES, AND COMPOUNDS WITH MIXTURES OF THESE FUNCTIONAL GROUPS.

- . Waste code: K151
- . Waste name: WASTEWATER TREATMENT SLUDGES, EXCLUDING NEUTRALIZATION AND BIOLOGICAL SLUDGES, GENERATED DURING THE TREATMENT OF WASTEWATERS FROM THE PRODUCTION OF ALPHA (OR METHYL-) CHLORINATED TOLUNES, BENZOYL CHLORIDES, AND COMPOUNDS WITH MIXTURES OF THESE FUNCTIONAL GROUPS.

- . Waste code: K156
- . Waste name: ORGANIC WASTE (INCLUDING HEAVY ENDS, STILL BOTTOMS, LIGHT ENDS, SPENT SOLVENTS, FILTRATES, AND DECANTATES) FROM THE PRODUCTION OF CARBAMATES AND CARBAMOYL OXIMES.

- . Waste code: F006
- . Waste name: WASTEWATER TREATMENT SLUDGES FROM ELECTROPLATING OPERATIONS, EXCEPT FROM THE FOLLOWING PROCESSES: (1) SULFURIC ACID ANODIZING OF ALUMINUM; (2) TIN PLATING ON CARBON STEEL; (3) ZINC PLATING (SEGREGATED BASIS) ON CARBON STEEL; (4) ALUMINUM OR ZINC-ALUMINUM PLATING ON CARBON STEEL; (5) CLEANING/STRIPPING ASSOCIATED WITH TIN, ZINC, AND ALUMINUM PLATING ON CARBON STEEL; AND (6) CHEMICAL ETCHING AND MILLING OF ALUMINUM.

- . Waste code: F007
- . Waste name: SPENT CYANIDE PLATING BATH SOLUTIONS FROM ELECTROPLATING OPERATIONS.

- . Waste code: F037
- . Waste name: PETROLEUM REFINERY PRIMARY OIL/WATER/SOLIDS SEPARATION SLUDGE - ANY SLUDGE GENERATED FROM THE GRAVITATIONAL SEPARATION OF OIL/WATER/SOLIDS DURING THE STORAGE OR TREATMENT OF PROCESS WASTEWATERS AND OILY COOLING WASTEWATERS FROM PETROLEUM REFINERIES. SUCH SLUDGES INCLUDE, BUT ARE NOT LIMITED TO, THOSE GENERATED IN OIL/WATER/SOLIDS SEPARATORS; TANKS AND IMPOUNDMENTS; DITCHES AND OTHER CONVEYANCES; SUMPS; AND STORM WATER UNITS RECEIVING DRY WEATHER FLOW. SLUDGES GENERATED IN STORM WATER UNITS THAT DO NOT RECEIVE DRY WEATHER FLOW, SLUDGES GENERATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS AS DEFINED IN SECTION 261.31(B)(2) (INCLUDING SLUDGES GENERATED IN ONE OR MORE ADDITIONAL UNITS AFTER WASTEWATERS HAVE BEEN TREATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS), AND K051 WASTES ARE EXEMPTED FROM THIS LISTING.

- . Waste code: F038
- . Waste name: PETROLEUM REFINERY SECONDARY (EMULSIFIED) OIL/WATER/SOLIDS SEPARATION SLUDGE - ANY SLUDGE AND/OR FLOAT GENERATED FROM THE PHYSICAL AND/OR CHEMICAL SEPARATION OF OIL/WATER/SOLIDS IN PROCESS WASTEWATERS AND OILY COOLING WASTEWATERS FROM PETROLEUM REFINERIES. SUCH WASTES INCLUDE, BUT ARE NOT LIMITED TO, ALL SLUDGES AND FLOATS GENERATED IN INDUCED AIR FLOTATION (IAF) UNITS, TANKS AND IMPOUNDMENTS, AND ALL SLUDGES GENERATED IN DAF UNITS. SLUDGES GENERATED IN STORMWATER UNITS THAT DO NOT RECEIVE DRY WEATHER FLOW, SLUDGES GENERATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS AS DEFINED IN SECTION 261.31(B)(2) (INCLUDING SLUDGES GENERATED IN ONE OR MORE ADDITIONAL UNITS AFTER WASTEWATERS HAVE BEEN TREATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS), AND F037, K048, AND K051 WASTES ARE EXEMPTED FROM THIS LISTING.

- . Waste code: K050
- . Waste name: HEAT EXCHANGER BUNDLE CLEANING SLUDGE FROM THE PETROLEUM REFINING INDUSTRY.

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
Amount (Lbs): 0

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
Amount (Lbs): 0

Waste code: D003
Waste name: A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS

NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE OF SUCH WASTE WOULD BY WASTE GUNPOWDER.

Environmental Interest/Information System

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

STATE MASTER

HAZARDOUS WASTE BIENNIAL REPORTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/11/2017	Source: EPA
Date Data Arrived at EDR: 12/22/2017	Telephone: N/A

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/11/2017	Source: EPA
Date Data Arrived at EDR: 12/22/2017	Telephone: N/A
Date Made Active in Reports: 01/05/2018	Last EDR Contact: 12/22/2017
Number of Days to Update: 14	Next Scheduled EDR Contact: 04/16/2018
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/11/2017	Source: EPA
Date Data Arrived at EDR: 12/22/2017	Telephone: N/A
Date Made Active in Reports: 01/05/2018	Last EDR Contact: 12/22/2017

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/07/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/05/2017	Telephone: 703-603-8704

Number of Days to Update: 92	Next Scheduled EDR Contact: 04/16/2018
	Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 12/11/2017	Source: EPA
Date Data Arrived at EDR: 12/22/2017	Telephone: 800-424-9346
Date Made Active in Reports: 01/12/2018	Last EDR Contact: 01/17/2018
Number of Days to Update: 21	Next Scheduled EDR Contact: 04/30/2018
	Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 12/11/2017	Source: EPA
Date Data Arrived at EDR: 12/22/2017	Telephone: 800-424-9346

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 09/13/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/26/2017	Telephone: (415) 495-8895

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/13/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/26/2017	Telephone: (415) 495-8895
Date Made Active in Reports: 10/06/2017	Last EDR Contact: 01/19/2018
Number of Days to Update: 10	Next Scheduled EDR Contact: 04/09/2018

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 09/13/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/26/2017	Telephone: (415) 495-8895
Date Made Active in Reports: 10/06/2017	Last EDR Contact: 01/19/2018
Number of Days to Update: 10	Next Scheduled EDR Contact: 04/09/2018
	Data Release Frequency: Quarterly

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/13/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/26/2017	Telephone: (415) 495-8895

	Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

Number of Days to Update: 52	Next Scheduled EDR Contact: 05/07/2018
	Data Release Frequency: Varies

Financial Assurance 2: Financial Assurance Information Listing

A listing of financial assurance information for solid waste facilities. Financial assurance is intended to ensure that resources are available to pay for the cost of closure, post-closure care, and corrective measures if the owner or operator of a regulated facility is unable or unwilling to pay.

Date of Government Version: 11/14/2017	Source: California Integrated Waste Management Board
Date Data Arrived at EDR: 11/17/2017	Telephone: 916-341-6066
Date Made Active in Reports: 12/18/2017	Last EDR Contact: 11/09/2017
Number of Days to Update: 31	Next Scheduled EDR Contact: 02/26/2018
	Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2016	Source: California Environmental Protection Agency

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water board's review found that more than one-third of the region's active disposal pits are operating without permission.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Certified Sanborn® Map Report

04/25/17

Site Name:

506-550 Brookside Drive
506-550 Brookside Drive
Richmond, CA 94801
EDR Inquiry # 4918447.3

Client Name:

Cornerstone Earth Group
1259 Oakmead Parkway
Sunnyvale, CA 94085
Contact: Randall Bleichner

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Cornerstone Earth Group were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- Library of Congress
- University Publications of America
- EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

Cornerstone Earth Group (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

UNDERGROUND TANK PROGRAM

Facility Name: Sugihara Nursery

DATE	ACTIVITY	TIME
1-20-88	I Reviewed This folder.	
	This does NOT appear to be a problem with this Dept But please send a leak report so the R.W.G.C.B. will have the opportunity to see for themselves. Rk	
2.4.88	Called Mr. Sugihara to ascertain what happened to the sixth tank that was registered. He said that was a mistake & no other tank was found.	
	He also said he lost the leak report & needs another one - sent. Jan	
2/17/88	Please send The Leak Report to The RWGC Board and let them decide the fate, Rk. Also if we do send a copy of test results.	
9/5/89	BF	File review, Brian Em. Assoc, see letter 8/29/89 Bill Wengard
5-10-90	Site Assessment Nancy	

UNDERGROUND TANK PROGRAM

Facility Name: Sugihara Nursery

DATE	ACTIVITY	TIME
7/2/86	Shig Doi (neighbor) called. They want to abandon 12,000 gal.	
BF	Leaking oil tank, but now full. Could test & use act # 8 (85)	
7/16/86	met with Shig Doi and Mrs. Sugihara (?) owner of facility - he stated that he was having difficulty getting his tanks tested and might need more time -	
1/27/87	BF Talked to Mr. Sugihara. After meeting with Bruce & Richard nurseries yesterday he decided to keep tanks & has them tested. Sent list of testers, application API tank. Re-invoice via application received	
5-22-87	owner called asked for 2 more appl for I sent + M.P. Helen	
12-15-87	5 TANKS were removed 4 Diesel 1 Gas - The gas TANK Hole showed NO Apparent Leakage. The Diesel TANKS have water and product in the holes. The TANKS were rinsed & red and removed to H+H SF. Fey & Bitner took water & soil samples - They have proper containers. R.D.

if hazardous _____

Name/Address of New Tank Owner (Re-use Only) _____

Destination of Tank _____

Nature of Re-Use _____

All tanks will be considered as hazardous waste unless they are thoroughly cleaned and purged of all product and residue.

CCCHSD staff will inspect all tanks prior to removal from the site.

Copies of manifests for any hazardous waste generated on site during tank removal operations, including tanks disposed of as hazardous waste, must be sent to the CCCHSD.

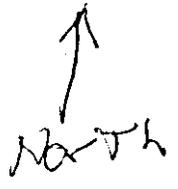

Note: All associated tank piping must be removed; piping that may cause damage to structures if removed may be capped.

Owners of underground storage tanks must contact the local fire district prior to tank removal.

We are requesting extension of time for removal of tanks until we can use up the diesel oil when normal greenhouse heating season starts during October and November on. We should be through using up the existing oil supply by the end of the year. In the meantime, Diablo Petroleum Inc. of 3930 Pacheco Blvd., Martinez, 94553, Ph. 415-228-2222 has been contacted to test these tanks at the earliest possible date. We have been advised that Diablo Petroleum will notify us as soon as the testing date can be scheduled.

OK

Free Product (Oil and tar) was found in the 6000 gallon tank hole. This product and residue was skimmed and pumped, removed and hauled as hazardous waste, on two separate days prior to backfill per instructions of the County Health Department.

Copies of the Hazardous Materials Manifests are attached.

Date: January 21, 1988

Owner address:

Sugihara Nursery

Facility location:

Same

550 Brookside Drive

Richmond, CA 94801

You are required to complete the enclosed "Leak Report" form per California Administrative Code, Title 23, Subchapter 16, Article 5, Section 2612. Upon completion of the form, send back the four (4) top copies and keep the fifth copy (goldenrod) for your records. Send copies to:

Contra Costa County Health Services
Occupational Health Department
Underground Tank Division
1111 Ward Street
Martinez, CA 94553

(X) Review of soil or water sample analysis indicates that further investigation of soil or ground water contamination at this site may be necessary.

() Contra Costa County Health Services Department have noted these conditions which may warrant further investigation:

This notification is not intended to relieve the facility owner of his obligation to notify the Regional Board (Cal. Water Code Sections 1327 and 3272).

Your failure to take proper action makes you liable for civil penalties ranging from not less than \$500 per day to \$5,000 per day under California Health and Safety Code Section 25299.

If you have any questions, please call (415) 646-2286 and your inquiry will be routed to the appropriate staff.

CLEAN WATER PROGRAM - RECOMMENDED BEST MANAGEMENT PRACTICES (BMP)

1. **Training for Employees:** Provide employees with general information regarding storm water pollution. Include information on the proper disposal of non-storm water, the environmental impacts of storm water pollution, and the benefits of good housekeeping.
2. **Eliminate Improper Discharges into Storm Drains:** Illicit connections are unauthorized permanent connections that allow non-storm water to enter a storm drain. Illicit discharges are routine practices that allow waste water, debris or non-storm water to enter a storm drain, catch basin, or surface water. Illicit connections and discharges are prohibited and must be discontinued. Alternative methods of non-storm water disposal include reuse, recycling, and permitted discharge to sewer.
3. **Spill prevention, Control and Cleanup:** Develop written procedures for spill response containment and cleanup. The business specific plan should address the cleanup of any size spill and include procedures that minimize the polluting of storm water.
4. **Outdoor Equipment Operations and Maintenance:** Inventory outdoor equipment that comes in contact with storm water. Regularly inspect this equipment to locate potential releases of storm water pollutants.
5. **Outdoor Materials Storage and Handling:** Use paved surfaces, storage sheds, and roof coverings to keep storm water from work and storage areas where pollutants may be present. Keep pollutants off surfaces that come into contact with storm water.
6. **Waste Handling & Disposal:** Properly store and handle all wastes. Keep containers closed and protected from storm water. Use good housekeeping procedures. Store oily materials inside or covered. Properly store hazardous wastes.
7. **Equipment Washing and Steam Cleaning:** Do not discharge wash water into a storm drain. Wash areas should be bermed and paved to collect all wastewater. Collected water should be recycled or properly discharged to sewer.
8. **Maintenance of Fleet Vehicles:** Perform vehicle maintenance in areas protected from storm water runoff. Use good housekeeping procedures to keep the work area clean. Regularly inspect vehicles for leaks. Properly maintain storm drains located in service and parking area.
9. **Fueling Fleet Vehicles & Equipment:** Design and operate fueling areas to prevent storm water pollution. Cover fueling areas and perform routine cleanings and other general housekeeping practices. Runoff water should pass through a separator before discharged to sewer.
10. **Building & Grounds Maintenance:** Clean areas by wiping, sweeping, or picking up trash. Maintain rain gutters, catch basins and storm drains to prevent debris from polluting storm water. Avoid washing down areas when cleaning.
11. **Building Repair, Remodeling & Construction:** Store building materials inside or covered. Keep the work area clean and free of debris and spills. Use drop cloths to help minimize the spread of pollutants.

Richmond, CA 94801

Subject: **Case Closure - Underground Storage Tanks – Sugihara Nursery, 550 Brookside Drive, Richmond, Contra Costa County**

Dear Mr. Sugihara:

This letter confirms the completion of site investigation and remedial action for the underground storage tanks formerly located at the above described location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tanks are greatly appreciated.

Based upon the available information, including the land use, and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action related to the underground storage tank release is required.

This notice is issued pursuant to a regulation contained in Title 23, California Water Code of Regulations, Division 3, Chapter 16, Section 2721(e). If change in land use is proposed, the owner must promptly notify this agency.

Please contact our office, if you have any questions regarding this matter.

Sincerely,

John D. Wolfenbarger

APPENDIX G – OWNER QUESTIONNAIRE

General Environmental Questionnaire

Cornerstone Earth Group is performing a Phase I environmental site assessment (ESA). The purpose of the ESA is to evaluate current and historic uses of the property that may have involved the use, generation, or storage of hazardous materials. Please respond to these questions to the best of your knowledge.

Return the completed, signed questionnaire by fax at (925) 988-9501 or by mail to the address below. Alternatively, a scanned copy can be emailed to cheiny@cornerstoneearth.com. The completed questionnaire will be attached to the ESA report. Thank you for your assistance and timely response.

GENERAL PROPERTY INFORMATION

- 1) **Site Address(es) and Assessor's Parcel Number(s):** Please list all current and former addresses. Some sites have multiple addresses; all are needed, even if they are not in current use.

<u>Address(es)</u>	<u>APN Number(s)</u>
506 Brookside Drive	
<hr/>	
408-204-001, 408-204-002, 408-204-003, 408-204-004, 408-204-005,	
<hr/>	
408-300-037	
<hr/>	

- 2) **Property Size:** 24.1755 Square Feet Acres [check one]

- 3) **Current site owner(s) and purchase date:**

<u>Current Owner Name</u>	<u>Year Purchased</u>
Ninomiya Nursery Company	
<hr/>	

- 4) **Previous site owner(s) and dates of ownership:**

<u>Prior Owner Name</u>	<u>Year Purchased</u>	<u>Year Sold</u>
<hr/>		
<hr/>		
<hr/>		

STRUCTURES AND OCCUPANTS

5) Please describe all on-site buildings:

Building Size (sq. ft) Building Use Date of Construction

Two residences

1 storage area

Potable Water Source (e.g., city or other water agency, on-site well, etc.): City

Sewage Disposal System (e.g., city sewer, septic tank, etc.): Septic Tank

Heating/Cooling System and Fuel Source (e.g., electric, natural gas, fuel oil, etc.): Electric
Natural Gas

6) Current site tenant(s), site use, and years of occupancy:

Tenant Site Use Years of Occupancy
(e.g., From 1995 to 2007)

Unoccupied

7) Prior site tenant(s), site use, and years of occupancy:

Tenant Site Use Years of Occupancy
(e.g., From 1975 to 1983)

Single tenant in house

Colorspot Nursery, 1999 - 2009

OTHER SITE FEATURES AND INFORMATION

8) Please indicate if you are aware of any of the following structures, features, or activities currently or formerly at the site.

Structure/Feature	Yes	No	Do Not Know
Aboveground Storage Tanks (ASTs)	✓		
Agricultural fields	✓		
Agricultural or drinking water supply wells	✓		
Air emission control systems		✓	
Areas where garbage or other wastes have been disposed on-site		✓	
Boilers	✓		
Chemical mixing or processing activities	✓		
Chemical storage areas	✓		
Current or former drainage ditches, ponds, or streams	✓		
Dry cleaning equipment		✓	
Dry wells		✓	
Elevators		✓	
Emergency generators		✓	
Equipment maintenance or repair areas		✓	
Fill materials placed on-site (i.e., fill used to build up the site elevation to current level)		✓	
Ground water monitoring wells		✓	
Ground water or soil remediation systems		✓	
Hydraulic lifts		✓	
Incinerators		✓	
Manufacturing machinery		✓	
Medical Waste		✓	
Oil or gas wells		✓	
Petroleum pipelines		✓	
Railroad lines		✓	
Septic tanks	✓		
Stockpiles of soil or debris		✓	
Storage sheds	✓		
Sumps, clarifiers, oil/water separators, or similar structures	✓		
Transformers		✓	
Underground Storage Tanks (USTs)	✓		
Vapor or dust control hoods and ducting		✓	
Waste burning areas (i.e. burn pit) or ash disposal area		✓	

If you checked yes to any of the above, please provide additional information here or attach to this questionnaire.

Formerly, one above ground and one under ground storage tank. Site used for agriculture, which included boilers for heating and the use of a variety of hazardous materials in connection with nursery operations.

9) Please indicate if, to your knowledge, any of the following documents exist:

Document	Yes	No	Do Not Know
Environmental site assessments			✓
Environmental permits or violation notices			✓
Underground or above ground storage tank documents/permits			✓
Geotechnical reports or hydrogeologic studies			✓
Risk assessments			✓
Hazardous materials management plans or chemical inventories			✓
Safety/emergency response plans or spill prevention plans			✓
Compliance audits or community right-to-know plans			✓
Asbestos or lead based paint surveys			✓

If you checked yes to any of the above, please indicate the location of the documents.

Can copies be provided? Yes _____ No ✓

10) Have significant quantities of hazardous materials been used, stored, or generated on-site?

Yes _____ No ✓

If so, please list types and quantities and where these materials are or were located.

See response to question 8

11) Are you aware of commonly known or reasonably ascertainable information about the site that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, do you know of past uses of the site, specific chemicals that were or are present at the site, have knowledge of spills or other chemical releases at the site, or any environmental cleanups at the site.

Yes _____ No ✓

If so, please briefly describe below, including whether reports documenting the activities are available for review by Cornerstone Earth Group.

12) Are you aware of any environmental cleanup liens against the site that are filed or recorded under federal, tribal, state, or local law?

Yes _____ No ✓

13) Are you aware of any activity or use limitations (UALs), such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?

Yes _____ No ✓

If so, please briefly describe below.

14) Are you aware of 1) any pending, threatened or past litigation, or administrative proceedings relevant to hazardous substances or petroleum products at the site, or 2) any notices from any governmental entity regarding possible violations of environmental laws or possible liability related to hazardous substances or petroleum products?

Yes _____ No ✓

If so, please briefly describe below.

Type of Services	Phase I Environmental Site Assessment Update
Location	550 and 560 Brookside Drive Richmond, California

SECTION 1: INTRODUCTION

This report presents the results of the Phase I Environmental Site Assessment (ESA) Update performed at 550 and 560 Brookside Drive in Richmond, California (Site, also referred to as the Sugihara Nursery or Property) as shown on Figures 1 and 2. The report updates our Phase I ESA dated August 3, 2017. This work was performed for CenterPoint Properties in accordance with our January 24, 2018 Agreement (Agreement).

1.1 PURPOSE

The scope of work presented in the Agreement was prepared in general accordance with ASTM E 1527-13 titled, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" (ASTM Standard). The ASTM Standard is in general compliance with the Environmental Protection Agency (EPA) rule titled, "Standards and Practices for All Appropriate Inquiries; Final Rule" (AAI Rule). The purpose of this Phase I ESA is to strive to identify, to the extent feasible pursuant to the scope of work presented in the Agreement, Recognized Environmental Conditions at the property.

As defined by ASTM E 1527-13, the term Recognized Environmental Condition means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not Recognized Environmental Conditions.

Cornerstone Earth Group, Inc. (Cornerstone) understands that CenterPoint Properties intends to purchase the property for a warehouse/industrial redevelopment. We performed this Phase I ESA to support CenterPoint Properties in evaluation of Recognized Environmental Conditions at the Site. This Phase I ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for Recognized Environmental Conditions at the Site.

1.2 SCOPE OF WORK

As presented in our Agreement, the scope of work performed for this Phase I ESA Update included the following:

- A reconnaissance of the Site to note readily observable indications of significant hazardous materials releases to structures, soil or ground water.

- Drive-by observation of adjoining properties to note readily apparent hazardous materials activities that have or could significantly impact the Site.
- Acquisition and review of a regulatory agency database report of public records for the general area of the Site to evaluate potential impacts to the Site from reported contamination incidents at nearby facilities.
- Review of readily available information on file at selected governmental agencies to help evaluate past and current Site use and hazardous materials management practices.
- Review of readily available maps and aerial photographs to help evaluate past and current Site uses.
- Interviews with persons reportedly knowledgeable of existing and prior Site uses, including the current and past Site owners, and the current and past Site operator(s).
- Preparation of a written report summarizing our findings and recommendations.

The limitations for the Phase I ESA are presented in Section 10; the terms and conditions of our Agreement are presented in Appendix A.

1.3 ASSUMPTIONS

In preparing this Phase I ESA, Cornerstone assumed that all information received from interviewed parties is true and accurate. In addition, we assumed that all records obtained by other parties, such as regulatory agency databases, maps, related documents and environmental reports prepared by others are accurate and complete. We also assumed that the boundaries of the Site, based on information provided by CenterPoint Properties, are as shown on Figure 2. We have not independently verified the accuracy or completeness of any data received.

1.4 ENVIRONMENTAL PROFESSIONAL

This Phase I ESA was performed by Christopher J. Heiny, P.G., and Peter M. Langtry, P.G., C.E.G, Environmental Professionals who meet the qualification requirements described in ASTM E 1527-13 and 40 CFR 312 § 312.10 based on professional licensing, education, training and experience to assess a property of the nature, history and setting of the Site.

SECTION 2: SITE DESCRIPTION

This section describes the Site as of the date of this Phase I ESA. The location of the Site is shown on Figures 1 and 2. Tables 1 through 3 summarize general characteristics of the Site and adjoining properties. The Site is described in more detail in Section 7, based on our on-Site observations.

2.1 LOCATION AND OWNERSHIP

Table 1 describes the physical location, and ownership of the property, based on information provided by CenterPoint Properties.

Table 1. Location and Ownership

Parcel No.	Reported Address	Owner	Approximate Size (Acres)	Building Size	Construction Date
408-204-010	560 Brookside Drive	Edna Kazuko Sakai	0.19	974	Unknown
408-204-011	580 Brookside Drive	Mark S. Sugihara and Wayne Haruo Sugihara	0.19	1535	Unknown
408-204-012	550 Brookside Drive	Glenn E.K. Sugihara and Karen A. Sugihara, Trustees, et. al.	2.13	1,303	1,920
408-210-001	[no address] Brookside Drive		0.057	n/a	n/a
408-210-002	550 Brookside Drive		0.057	n/a	n/a
408-210-003			0.057	n/a	n/a
408-210-004	[no address] Brookside Drive		0.1	n/a	n/a
408-210-007	[no address] Niemeyer Avenue		0.12	n/a	n/a
408-210-008	[no address] Niemeyer Avenue		0.12	n/a	n/a
408-210-009	[no address] Niemeyer Avenue		0.35	n/a	n/a
408-210-010	560 Brookside Drive		3.87	n/a	n/a
408-210-011	[no address] Brookside Drive		0.267	n/a	n/a
Total				7.5	

2.2 CURRENT/PROPOSED USE OF THE PROPERTY

The current and proposed uses of the property are summarized in Table 2.

Table 2. Current and Proposed Uses

Current Use	Residential single-family homes, out buildings related to former nursery/greenhouses, and vacant fields
Proposed Use	Commercial warehouses

2.3 SITE SETTING AND ADJOINING SITE USE

Land use in the general Site vicinity appears to be primarily commercial. Based on our Site vicinity reconnaissance, adjoining Site uses are summarized below in Table 3.

Table 3. Adjoining Site Uses

North	Brookside Drive, Commercial greenhouses and plant nurseries
South	Da Villa Drive, Verde Elementary School, commercial vehicle (dump trucks) storage
East	Vacant former agricultural land.
West	Former Ninomiya Nursery

SECTION 3: USER PROVIDED INFORMATION

The ASTM standard defines the User as the party seeking to use a Phase I ESA to evaluate the presence of Recognized Environmental Conditions associated with a property. For the purpose of this Phase I ESA, the User is CenterPoint Properties. The “All Appropriate Inquiries” Final Rule (40 CFR Part 312) requires specific tasks be performed by or on behalf of the party seeking to qualify for Landowner Liability Protection under CERCLA (*i.e.*, the User).

Per the ASTM standard, if the User has information that is material to Recognized Environmental Conditions, such information should be provided to the Environmental Professional. This information includes: 1) specialized knowledge or experience of the User, 2) commonly known or reasonably ascertainable information within the local community, and 3) knowledge that the purchase price of the Site is lower than the fair market value due to contamination. A search of title records for environmental liens and activity and use limitations also is required.

3.1 CHAIN OF TITLE

A chain-of-title was not provided for our review.

3.2 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

An environmental lien is a financial instrument that may be used to recover past environmental cleanup costs. Activity and use limitations (AULs) include other environmental encumbrances, such as institutional and engineering controls. Institutional controls (ICs) are legal or regulatory restrictions on a property’s use, while engineering controls (ECs) are physical mechanisms that restrict property access or use.

The regulatory agency database report described in Section 4.1 did not identify the Site as being in 1) US EPA databases that list properties subject to land use restrictions (*i.e.*, engineering and institutional controls) or Federal Superfund Liens or 2) lists maintained by the California Department of Toxic Substances Control (DTSC) of properties that are subject to AULs or environmental liens where the DTSC is a lien holder.

A Commitment for Title Insurance prepared by Chicago Title Insurance Company (dated June 15, 2017) was provided for our review (Appendix B). No environmental liens or records of ownership (including leases) indicative of significant hazardous materials use associated with the Site were listed in the title report. The ownership information provided in these reports is consistent with what was obtained from other sources.

3.3 SPECIALIZED KNOWLEDGE AND/OR COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION

Based on information provided by or discussions with CenterPoint Properties, we understand that CenterPoint Properties does not have specialized knowledge or experience, commonly known or reasonably ascertainable information regarding the Site, or other information that is material to Recognized Environmental Conditions.

3.4 PREVIOUS ENVIRONMENTAL SITE EVALUATION

During preparation of the previous Phase I ESA, Cornerstone performed a Phase II evaluation to evaluate if the previous Site uses impacted soil or ground water quality beneath the Site. This subsurface evaluation was performed on the Sugihara and Ninomiya Nursery properties. In addition, Cornerstone oversaw a magnetometer survey to determine if buried metallic objects (such as an underground storage tank [UST]) were present. The magnetometer survey and subsequent test pit investigation were performed on the Ninomiya property, which is adjacent and to the west. Results of this evaluation is summarized below; however, please refer to Cornerstone's draft *Phase I Environmental Site Assessment and Preliminary Soil and Ground Water Quality Evaluation* (August 3, 2017) for complete details.

Based on information obtained in preparation of the previous Phase I ESA, the Site formerly consisted of greenhouses and associated structures used in the cut flower growing business. Currently, the Site consists of three residential structures, adjacent storage buildings, and a former flower packaging/storage building. The flower packaging and storage structure reportedly contained a boiler room. According to documents reviewed in preparation of the previous Phase I ESA, the Site formerly had five underground storage tanks (USTs) (one 500-gallon gasoline, one 2,000-gallon gasoline, two 6,000-gallon diesel, and one 10,000-gallon diesel). The USTs reportedly were located between the residence and the nursery buildings, near the boiler room and packaging area. As discussed in Section 4.2.1, these USTs were removed on December 15, 1987, and the case was closed by the California Regional Water Quality Control Board (Water Board) in 2001.

The Phase I ESA identified the past pesticide use as potential environmental concerns. The Phase I ESA recommended sampling around the former UST locations to determine current soil and ground water quality. In addition, the previous Phase I ESA identified that a 2,000-gallon UST may have been present on the adjacent Ninomiya Nursery Property. The magnetometer survey and subsequent test pit investigation were performed to further evaluate this finding. These Site studies are further discussed below.

Magnetometer Survey

In July 2017, Cornerstone contracted the services of JR Associates (JRA) to perform a magnetometer survey on the adjacent Ninomiya Nursery Property. The survey was performed under the supervision of James Rezowalli, a State of California licensed geophysicist (GP-921). JRA surveyed two areas: one located on the 506 Brookside Drive, and the other located along the southern border of this property, in areas where apparent boiler rooms were visible on historical aerial photographs. Both areas were surveyed by collecting magnetic data along traverses spaced 10 feet apart. The purpose of the survey was to detect subsurface magnetic anomalies, such as abandoned metallic USTs or piping.

The magnetometer survey identified several anomalies, most of which were suspected metallic remnants of the former greenhouses. Eleven of the anomalies were considered significant and were potentially large enough to be caused by an UST. JRA recommended a pothole investigation to determine the cause of these anomalies. Results of this survey and the report prepared by JRA are included in the *Phase I Environmental Site Assessment and Preliminary Soil and Ground Water Quality Evaluation* (August 3, 2017).

Test Pit Exploration

On July 17, 2017, Cornerstone oversaw a test pit exploration at the 11 anomalies identified in the magnetometer survey. Cornerstone observed steel pipes of various diameters at depths ranging from approximately 1 to 2 feet, concrete with rebar, and what appeared to be a 4-foot diameter by 12-foot-long metal septic tank. The top of the tank had been removed and the remaining shell was filled with debris (e.g., concrete, bricks, and drain rock). Several PVC pipes that lead to the tank were encountered at a depth of approximately 18 inches. Drain rock was encountered leading away from the tank to the north in a plastic lined trench. No odors were noted in the tank excavation. These observations of the tank appear consistent with use as a septic system. No USTs were in the test pits excavated. The results of the test pit exploration are included in the *Phase I Environmental Site Assessment and Preliminary Soil and Ground Water Quality Evaluation* (August 3, 2017).

Soil and Ground Water Quality Evaluation

Cornerstone collected soil samples from 12 locations and ground water grab samples from 3 locations in July 2017. This evaluation was performed in conjunction with the soil and ground water quality evaluation performed on the adjacent property to the west. The soil and ground water quality evaluation performed at the Site and on the adjacent property are included in the *Phase I Environmental Site Assessment and Preliminary Soil and Ground Water Quality Evaluation* (August 3, 2017).

Soil samples were collected from the upper approximately ½ foot of soil and from depths of approximately 1 to 1½ feet. Deeper samples were analyzed at locations where elevated concentrations of a parameter were detected in the shallow soil. A summary of the soil quality results is included below:

- Total chromium was detected at concentrations up to 390 milligrams per kilogram (mg/kg). The sample with the highest total chromium concentration was analyzed for soluble chromium by STLC extraction. The resulting soluble chromium concentration in this sample was below the Soluble Threshold Limit Concentration (STLC) value of 5 milligrams per liter (mg/L) for determining a non-RCRA (California) hazardous waste in all three samples.
- Lead was detected at concentrations up to 1,110 mg/kg and exceeded the commercial/industrial California Department of Toxic Substances Control recommended screening level (DTSC-SL, January 2018) of 320 mg/kg in 3 of 14 samples analyzed. In addition, the sample with lead detected at a concentration of 1,110 mg/kg exceeded the Total Threshold Limit Concentration (TTLC) value of 1,000 mg/kg for determining a non-RCRA hazardous waste.

- One sample was additionally analyzed for soluble lead by STLC extraction, and the resulting concentration exceeded the STLC threshold of 5 mg/L for a non-RCRA hazardous waste.
- Copper was detected at a concentration of 707 mg/kg in one sample. This concentration is below the commercial DTSC-SL, but appeared to be elevated above background for the Site. This sample was further analyzed for soluble copper, and the detected concentration was below the STLC threshold of 25 mg/L.
- Arsenic was detected in two samples from one location (upper approximately ½ foot of soil and from approximately 1 to 1½ feet) at concentrations above the published background concentration of 11 mg/kg. All other arsenic concentrations were detected below this background concentration.
- The remain metals were detected at concentration that are typical of background for the region or below their respective screening levels.
- Dieldrin was detected was detected in one of 13 soil samples collected on Site at a concentration exceeding the industrial Regional Screening Level (RSL; EPA, November 2017) of 0.14 mg/kg. All other OCP compounds detected were at concentrations below their respective commercial/industrial screening criteria.
- Petroleum hydrocarbons in the diesel (TPHd) range was detected at a concentration of 2,2530 mg/kg, which is above the Tier 1 Environmental Screening Level (ESL; California Regional Water Quality Control Board [Water Board], February 2017) of 230 mg/kg. This sample was collected at a depth of approximately 2 to 3 feet near the former UST location. Oil-range petroleum hydrocarbons (TPHo), gasoline-range petroleum hydrocarbons (TPHg), and volatile organic compounds (VOCs) were not detected in the samples analyzed.

Grab ground water samples were collected from three locations and analyzed for petroleum hydrocarbons and VOCs. No VOCs or TPHo were detected above their respective Tier 1 ESL; TPHo was not detected in the samples analyzed. TPHg and TPHd were detected in one sample each at concentrations above their Tier 1 ground water ESLs of 100 micrograms per liter (µg/L). The Tier 1 ESLs for TPHg and TPHd are based on the odor/nuisance thresholds. The direct exposure ESLs, which are more likely to be applicable in this proposed land use, are 220 µg/L (TPHg) and 150 µg/L (TPHd). The detected TPHg and TPHd concentrations are below the direct exposure ESLs.

The previous Phase I ESA indicated that the soil with elevated dieldrin, lead, and chromium concentrations may require special handling during development. Cornerstone recommended preparing a Soil Management Plan that would provide guidance for handling this soil as well as any unanticipated conditions encountered during development.

SECTION 4: RECORDS REVIEW

4.1 STANDARD ENVIRONMENTAL RECORD SOURCES

Cornerstone conducted a review of federal, state and local regulatory agency databases provided by Environmental Data Resources (EDR) to evaluate the likelihood of contamination incidents at and near the Site. The database sources and the search distances are in general

accordance with the requirements of ASTM E 1527-13. A list of the database sources reviewed, a description of the sources, and a radius map showing the location of reported facilities relative to the project Site are attached in Appendix C.

The purpose of the records review was to obtain reasonably available information to help identify Recognized Environmental Conditions. Accuracy and completeness of record information varies among information sources, including government sources. Record information is often inaccurate or incomplete. The Environmental Professional is not obligated to identify mistakes or insufficiencies or review every possible record that might exist with the Site. The customary practice is to review information from standard sources that is reasonably available within reasonable time and cost constraints.

4.1.1 On-Site Database Listings

The Sugihara Nursery (550 Brookside Drive) was identified in the FINDS (Facility Indexing System), CA RGA LUST (California recovered archived leaking underground storage tank), CA SWEEPS UST (California statewide environmental evaluation and planning system), CA HIST UST (California Historical UST listing), CA LUST (California leaking UST), CA FID UST (local list of registered USTs), and the CA Contra Costa Site List (Contra Costa County Site Listing) databases. These database listings relate to the previous USTs reportedly located on-Site and are further discussed in Section 4.2.1.

The Site was not identified in the orphan listing. Orphaned properties refer to database listings that do not have sufficient information to accurately map. Our assessment was based on the orphaned description, orphaned property location description, and/or the zip code.

4.1.2 Adjoining Property Database Listings and Nearby Spill Incidents

The Ninomiya Nursery located at 506 Brookside Drive (adjacent and west of the Site) was identified in the CA SWEEPS UST, CA HIST UST, CA FID UST, and the Contra Costa CO. SITE LIST. The database listings refer to the previous USTs on-Site and are further discussed in Section 4.2.1

Properties to the north (Nabeta Nursery [411 Brookside Drive] and Aebi Nursery [509 Brookside Drive]), south (Fuji Nursery, Inc [541 Da Villa Road]), and east (IMACC Corporation [900 Brookside Drive]) were listed as adjacent facilities in the databases researched. These listings related to former underground storage tanks and/or the use of pesticides/herbicides during normal business operations. No information was listed that indicates uncontrolled releases occurred at these properties that may have impacted the Site.

4.2 ENVIRONMENTAL RECORD SOURCES

The following additional sources of readily ascertainable public information for the Site also were reviewed during this Phase I ESA.

4.2.1 City, County, and State Agency File Review

Cornerstone requested available files pertaining to Site addresses listed in Table 1 at the following public agencies: the Contra Costa County Building Department (BD), City of Richmond Fire Department (FD), Contra Costa County Department of Environmental Health (DEH), the California Regional Water Quality Control Board (Water Board), and the California Department

of Water Resources (DWR). Available documents from these agencies are included in Appendix F. Cornerstone also requested files for the adjacent Sugihara Nursery located at 550 Brookside Drive.

Records were also requested for the reported UST located at 506 Brookside Drive (Ninomiya Nursery). The County reportedly did not have records related to this UST. The Water Board files contained an information sheet that listed a 2,000-gallon steel UST that contained gasoline. The UST owner was listed as Ninomiya Nursery Company. No information was located related to the removal of this UST.

The DEH and Water Board had files related to former USTs located at the Sugihara Nursery (550 Brookside Drive). According to documents in these files, the Sugihara Nursery had five USTs (one 500-gallon gasoline, one 2,000-gallon gasoline, two 6,000-gallon diesel, and one 10,000-gallon diesel). The USTs reportedly were located between the residence and the nursery buildings, near the boiler room and packaging area. The USTs reportedly were removed on December 15, 1987. Soil samples were collected from the sidewalls of each UST excavation at depths of approximately 3½ feet, reportedly just above shallow ground water. TPHd, TPHg, and benzene, toluene, ethylbenzene, and xylenes (BTEX) reportedly were not detected above their respective detection limits. Free product consisting of oil and tar reportedly was observed on the ground water surface in the excavation that contained the two 6,000-gallon USTs. Approximately 2,750 gallons of water reportedly was pumped from this excavation. Subsequent ponded water samples reportedly did not detect TPHd above its detection limit. Ponded water samples collected from the gasoline UST excavations contained “low” concentrations of TPHg (detected at concentrations of 160 micrograms per liter [µg/L] and 240 µg/L) and benzene (detected at concentrations of 5 µg/L and 7 µg/L). The current Tier 1 ground water ESL¹ for TPHg is 100 µg/L, and the MCL² for benzene is 5 µg/L. Based on these data, the Water Board determined that this site could be classified as a “low risk case”. The Water Board closed this case in a letter dated August 9, 2001. In this letter, the Water Board states that the closure was based on “available information, including land use” and that “if change in land use is proposed, the owner must promptly notify this agency”. A copy of this closure letter is provided in Appendix F.

4.2.2 Radon

Elevated levels of radon in indoor air are a result of radon moving into buildings from the soil, either by diffusion or flow due to air pressure differences. The ultimate source of radon is the uranium that is naturally present in rock, soil, and water. Some types of rocks are known to have uranium concentrations greater than others and, consequently, there is an increased chance of elevated radon concentrations in soils and weathered bedrock where they are located. Areas down-slope which received sediments and/or surface and ground water from rock units with above average uranium content also have an increased likelihood of elevated radon concentrations in soil gas. In California, bedrock that can contain above average uranium concentrations includes the Monterey formation, asphaltic rocks, marine phosphatic rocks, granitic rocks, felsic volcanic rocks, and certain metamorphic rocks.

The federal EPA has established an action level of 4 pCi/L, above which the EPA recommends taking action to reduce radon levels in structures. To help local, state, and federal agencies

¹ Environmental Screening Limit (ESL), Water Board, 2016.

² Maximum Contaminant Level (MCL), Water Board, 2017.

prioritize resources and implement radon-control building codes, the EPA published maps of radon hazards for each county in California (www.epa.gov/radon/zonemap/california.htm).

The Site is located in Contra Costa County, which is designated by the EPA as Zone 2 with a moderate potential (from 2 to 4 pCi/L). It is important to note that EPA has identified structures with elevated levels of radon in all three zones, and the EPA recommends Site-specific testing in order to determine radon testing at a specific location.

Based on information present in the regulatory agency database report, five radon screening tests have been performed in the Site vicinity (zip code 94801), with no results exceeding 4 pCi/L.

4.2.3 Division of Oil, Gas and Geothermal Resources Maps

To evaluate the presence of oil or gas wells on-Site and in the immediate Site vicinity, maps available on-line at the California Department of Conservation, Division of Oil, Gas, and Geothermal Resources (<http://www.consrv.ca.gov/dog>) were reviewed. Review of the available map for the Site area did not show oil or gas wells on-Site or on the adjacent properties.

SECTION 5: PHYSICAL SETTING

We reviewed readily available geologic and hydrogeologic information to evaluate the likelihood that chemicals of concern released on a nearby property could pose a significant threat to the Site and/or its intended use.

5.1 RECENT USGS TOPOGRAPHIC MAP

A 2012 USGS 7.5 minute topographic map was reviewed to evaluate the physical setting of the Site. The Site's elevation is approximately 20 feet above mean sea level; topography in the vicinity of the Site is flat, with gentle slopes downward gently to the northwest, towards the San Pablo Bay.

5.2 HYDROGEOLOGY

In July 2017, Cornerstone oversaw the advancement of 42 borings on the Site and adjacent property for purposes of ground water grab sample collection (Section 3.4). The subsurface material observed in these borings consisted of clay with minor amounts of sand. Ground water was not encountered in all borings due to the high clay content. Where observed, ground water was encountered at depths ranging between approximately 7 and 10 feet. The ground water flow direction was not evaluated as part of these field activities. The regional shallow ground water flow direction is expected to follow topography and flow to the northwest, however, local flow directions can vary based on differences in geology.

SECTION 6: HISTORICAL USE INFORMATION

The objective of the review of historical use information is to develop a history of the previous uses of the Site and surrounding area in order to help identify the likelihood of past uses having led to Recognized Environmental Conditions at the property. The ASTM standard requires the identification of all obvious uses of the property from the present back to the property's first developed use, or back to 1940, whichever is earlier, using reasonably ascertainable standard historical sources.

6.1 HISTORICAL SUMMARY OF SITE

The historical sources reviewed are summarized below. The results of our review of these sources are summarized in Table 4.

- **Historical Aerial Photographs:** We reviewed aerial photographs dated between 1939 and 2012 obtained from EDR of Milford, Connecticut; copies of aerial photographs reviewed are presented in Appendix C.
- **Historical Topographic Maps:** We reviewed USGS 15-minute and 7.5-minute historic topographic maps dated 1895, 1899, 1915, 1947, 1948, 1949, 1959, 1968, 1973, 1980, 1995, 1996, and 2012; copies of historic topographic maps reviewed are presented in Appendix C.
- **Historical Fire Insurance Maps:** EDR reported that the Site was not within the coverage area of fire insurance maps.
- **Local Street Directories:** We reviewed city directories obtained from EDR that were researched at approximately 5-year intervals between 1922 and 2013 to obtain information pertaining to past Site occupants. The city directory summary is presented in Appendix D.

Table 4. Summary of Historical Source Information for Site

Date	Source	Comment
1895 and 1899	Topographic Maps	No structures are depicted on-Site. The Site is located approximately 1/2 mile east of the San Pablo Bay.
1915	Topographic Maps	Three unpaved roads are depicted as crossing the Site.
1939, 1946, and 1958	Aerial Photographs	Agricultural Site uses are apparent on-Site, with what appear to be rectangular-shaped greenhouses on the eastern side of the Site. Smaller structures are shown adjacent to these greenhouses. The 1946 and 1958 aerials are similar to the 1939 image.
1947, 1948	Topographic Maps	Several of the greenhouse and associated structures are depicted on-Site.
1959	Topographic Maps	Additional structures are depicted on-Site.
1975	City Directory	David Ninomiya (506 Brookside) and Sugihara Nursery (550 Brookside) are listed
1963	Aerial Photographs	The greenhouse structures have expanded to the west, east, and south from the original structures. The existing residential structures (506, 540, 560, and 580 Brookside) are present. Smaller structures reportedly associated with the operations activities (maintenance, packaging, storage, etc.) are depicted adjacent to the warehouses on 506, 540, and 560 Brookside. What appears to be a residential structure and another maintenance/operations building is depicted along the southern border of the Site.

Date	Source	Comment
1968	Topographic Maps	Additional structures are depicted on-Site. Nearly the entire Site is occupied by structures.
1968 and 1974	Aerial Photographs	Additional greenhouses have been constructed that have filled in most of the previously-vacant area on the eastern, western, and southern portions of the Site. The westernmost parcel appears to be open air agricultural. What appear to be vertical aboveground storage tanks (ASTs) are shown adjacent to the house on 506 Brookside and adjacent to the "operations/maintenance" areas of 506 and 560 Brookside Drive and along the southern border of the Site.
1973 and 1980	Topographic Maps	The Site features are similar to the previous map.
1980	City Directory	T. Ninomiya (506 Brookside) and Roses Only and Sugihara Nursery (550 Brookside)
1982, 1993, 1998	Aerial Photographs	The Site features appear similar to the 1974 aerial photograph
1985	City Directory	T. Ninomiya (506 Brookside) and Sugihara Nursery (550 Brookside)
1992	City Directory	Sugihara Nursery listed at 550 Brookside
1995, 1996, and 2012	Topographic Maps	No features are depicted on the maps for these years.
1995	City Directory	Fumiko Sugihara listed at 550 Brookside
1999	City Directory	T. Ninomiya (506 Brookside), Sugihara Nursery (550 Brookside), and Elko Sugihara (580 Brookside)
2003	City Directory	Hector Samaniego and T. Ninomiya (506 Brookside), unknown occupants (540 and 550 Brookside), and Fumiko Sugihara (560 Brookside)
2005	Aerial Photographs	The area not occupied by greenhouses appears to be used for open-air agricultural purposes. The remainder of the Site appear similar to the previous images.
2008	City Directory	David Ninomiya (506 Brookside), unknown occupants (540 and 550 Brookside), and Mark Sugihara (560 Brookside)
2009	Aerial Photographs	The open-air agricultural activities do not appear to be present. The greenhouses and associated structures remain.

Date	Source	Comment
2010	Aerial Photographs	The greenhouse structures have been demolished and are no longer present. The greenhouse at the southwestern corner of the Site appears to be in the process of being demolished. All of the maintenance/operation structures have been removed from the southern border of the Site. Some of the maintenance/operation structures located at 506 Brookside Drive have been removed. Most of the associated structures on 560 Brookside Drive appear to remain. The residential structures are still depicted.
2012	Aerial Photographs	The residential structures and operation/maintenance structures remain. The remainder of the Site appears vacant.
2013	City Directory	Richmond Junk & Wrecking (506 Brookside), unknown occupants (540 and 550 Brookside), and Mark Sugihara (580 Brookside)
2013 to 2017	Google Earth Aerial Photographs	The Site appears similar to the 2012 aerial photograph. No indicators of “junk and wrecking” yard are apparent on 506 Brookside Drive.

6.2 HISTORICAL SUMMARY OF SITE VICINITY

Based on our review of the information described in Section 6.1, the general Site vicinity appears to have historically consisted mainly of agricultural land (orchards and row crops) with widely spaced residences. By the 1940s and 1950s, the properties to the south and across Wildcat Creek are developed for residential use. With the exception of this residential area, the remainder of the Site vicinity appears to be used for mainly agricultural and little industrial purposes until the early 2000s, when some of the agricultural land appears to be vacated. An increase in mainly residential development is apparent in the general vicinity.

SECTION 7: SITE RECONNAISSANCE

We performed a Site reconnaissance to evaluate current Site conditions and to attempt to identify Site Recognized Environmental Conditions. The results of the reconnaissance are discussed below. Additional Site observations are summarized in Table 5 in Section 7.2. Photographs of the Site are presented in Section 7.2.1.

7.1 METHODOLOGY AND LIMITING CONDITIONS

To observe current Site conditions (readily observable environmental conditions indicative of a significant release of hazardous materials), Cornerstone staff Christopher J. Heiny, P.G., visited the Site on February 1, 2018, and was unaccompanied. The Site reconnaissance was conducted by walking representative areas of the Site, including the interior of the on-Site structures, the periphery of the structures, and the Site periphery. Cornerstone staff only observed those areas that were reasonably accessible, safe, and did not require movement of equipment, materials or other objects. The structures located on 550 and 560 Brookside Drive were not accessible at the time of our Site visit. Cornerstone attempted to view the interior of these structures where possible.

7.2 OBSERVATIONS

The Site conditions were similar to those previously observed during our Site visit conducted on July 7, 2017 as part of our previous Phase I ESA. At the time of our Site visit, the Site consisted of three single-family homes (two occupied, one used for an office), a former “production” building where the cut flowers were arranged and packaged, a vehicular garage, a boiler room, a water well, and concrete pads that formerly supported water tanks. No environmental concerns were observed around the single-family homes.

The production structure was observed to be vacant. During our previous Site visit, Mr. Glenn Sugihara (property owner) indicated that all equipment was removed when the nursery closed. The production building consisted of tables, cutting equipment, packaging equipment, and coolers to keep the cut flowers fresh. The boiler room formerly consisted of a boiler, pump, air compressor, and associated piping. The production area and boiler room both had a concrete floor.

A vehicular garage was observed that is used to store vehicles, along with minor amounts of vehicular fluids stored (oil, antifreeze, etc). A concrete floor was observed within the garage. The area adjacent to the garage consisted of concrete pads that Mr. Sugihara indicated formerly supported water tanks. Mr. Sugihara indicated that pesticides and herbicides were mixed in this area for use in the nursery. A water well that appeared to be under artesian conditions was observed in this area.

The remainder of the Site consisted of vacant fields with low-lying vegetation. A concrete pad was observed within the field. The purpose of this pad was not readily apparent, although it likely related to the former greenhouses that occupied the area.

A stormwater drainage culvert was observed along the northern border of the Site with Brookside Road. Petroleum pipeline signage was observed along the eastern border of the Site.

Table 5. Summary of Readily Observable Site Features

General Observation	Comments
Aboveground Storage Tanks	Observed – Pressure tank connected to water well
Agricultural Wells	Observed
Air Emission Control Systems	Not Observed
Boilers	Not Observed
Burning Areas	Not Observed
Chemical Mixing Areas	Not Observed
Chemical Storage Areas	Not Observed
Clean Rooms	Not Observed
Drainage Ditches	Observed – along northern property border
Elevators	Not Observed
Emergency Generators	Not Observed
Equipment Maintenance Areas	Not Observed
Fill Placement	Not Observed
Ground Water Monitoring Wells	Not Observed
High Power Transmission Lines	Not Observed
Hoods and Ducting	Not Observed
Hydraulic Lifts	Not Observed
Incinerator	Not Observed
Petroleum Pipelines	Observed – along eastern border
Petroleum Wells	Not Observed
Ponds or Streams	Not Observed
Railroad Lines	Not Observed
Row Crops or Orchards	Not Observed
Stockpiles of Soil or Debris	Not Observed
Sumps or Clarifiers	Not Observed
Transformers	Not Observed
Underground Storage Tanks	Not Observed
Vehicle Maintenance Areas	Not Observed
Vehicle Wash Areas	Not Observed
Wastewater Neutralization Systems	Not Observed

The comment “Not Observed” does not warrant that these features are not present on-Site; it only indicates that these features were not readily observed during the Site visit.

7.2.1 Site Photographs

Photograph 1. Typical view of former agricultural portion of Site.

Photograph 2. Former cut flower storage and packaging structures.

Photograph 3. Operations area between storage/packaging structures with water well and pressure tank located in center of photograph.

Photograph 4. Water well and pressure tank. Water was observed seeping from wellhead causing vegetation growth.

Photograph 5. Storage area between houses. Minor amounts of hazardous materials were observed to be stored in this area.

Photograph 6. Existing residential structure and adjacent yard.

Photograph 7. Drainage culvert located along the northern property border with Brookside Road.

Photograph 8. Petroleum pipeline signage located along eastern property boundary.

SECTION 8: ENVIRONMENTAL QUESTIONNAIRE AND INTERVIEWS

8.1 ENVIRONMENTAL QUESTIONNAIRE / OWNER INTERVIEW

During our previous Site visit on July 7, 2017, Cornerstone interviewed Mr. Glenn Sugihara, owner of the Site. Mr. Sugihara provided description of the existing on-Site structures described in Section 7.2. Mr. Sugihara indicated that pesticide/herbicide mixing occurred on-Site, near the existing water well. Specifics on the types of chemicals previously used were not provided. No additional information was provided that was not obtained from other sources. The owner did not provide any updates to the previously-provided information.

8.2 INTERVIEWS WITH PERSON(S) KNOWLEDGEABLE OF SITE USE

Contact information for persons knowledgeable of existing and prior site uses of the Site was not provided to us prior to or at the Site visit.

8.3 INTERVIEWS WITH PREVIOUS OWNERS AND OCCUPANTS

Contact information for previous Site owners and occupants was not provided to us. Therefore, interviews with previous Site owners and occupants could not be performed.

SECTION 9: FINDINGS, OPINIONS AND CONCLUSIONS (WITH RECOMMENDATIONS)

Cornerstone performed this Phase I ESA in general accordance to ASTM E1527-13 to support CenterPoint Properties in evaluation of Recognized Environmental Conditions. Cornerstone also performed a magnetometer survey, exploratory pit investigation, and collected soil and ground water samples. Our findings, opinions and conclusions are summarized below.

9.1 HISTORICAL SITE USAGE

Based on the information reviewed in preparation of this Phase I ESA, the Site has been used for agricultural purposes as a nursery since at least the 1930s. The agricultural activities reportedly consisted of the growing of cut flowers (roses, tulips, etc.), packaging, and shipping. Greenhouses have been onsite since the mid- to late- 1930's.

9.2 CHEMICAL STORAGE AND USE

Minor quantities of vehicular fluids and household cleaners were observed stored near the existing residents. No environmental concerns were noted around these materials. During our previous Site visit, Mr. Sugihara indicated that pesticide/herbicide mixing occurred on-Site, near the existing water well. Specifics on the types of chemicals previously used were not provided. No additional information was provided that was not obtained from other sources.

9.3 AGRICULTURAL USE AND SOIL QUALITY

The Site has been used as a plant nursery with greenhouses several decades. Pesticides were applied during the normal course of growing operations.

To evaluate for the presence of residual pesticides compounds, Cornerstone collected soil samples from the upper approximately 1½ feet of soil in July 2017. Results from these samples detected elevated concentrations of lead, arsenic, and the OCP compound dieldrin in soil samples collected from the upper approximately ½ foot of soil. Two of the soil samples collected contained lead concentrations above the threshold for a non-RCRA (California) hazardous waste.

Because the Site will be capped by the proposed warehouse structure and associated parking areas, risk to human health from residual pesticides, if any, will be significantly reduced. Exposed areas, such as landscaped areas and storm water detention basins, may require soil removal if elevated pesticides or metals are present. During Site construction, protocols for soil handling and construction worker health and safety should be developed. We recommend developing and implementing a soil management plan (SMP) that will address the handling and management of the soil during and after construction. If soil with elevated contaminants will be left on Site, we recommend preparing and implementing the SMP under regulatory agency oversight. Note that regulatory agency staff likely will require a deed restriction and SMP if soil exceeding residential screening criteria will be left on-Site.

9.4 FORMER USTS

According to documents reviewed from the County Health Department, the Sugihara Nursery had five USTs (one 500-gallon gasoline, one 2,000-gallon gasoline, two 6,000-gallon diesel, and one 10,000-gallon diesel). The USTs reportedly were removed on December 15, 1987. Soil samples were collected from the sidewalls of each UST excavation at depths of approximately 3½ feet, reportedly just above shallow ground water. The collected samples detected concentrations of TPH as diesel, TPH as gasoline, and BTEX below their screening levels. The Water Board deemed the site a “*low risk case*” and closed this case in a letter dated August 9, 2001. In this letter, the Water Board states that the closure was based on “*available information, including land use*” and that “*if change in land use is proposed, the owner must promptly notify this agency*”. We recommend contacting the Water Board to inform them of this land use change. Laboratory analyses of ground water samples collected during this investigation detected TPHd and TPHg at concentrations similar to those reported at the time of closure.

Water Board documentation indicated the presence of one 2,000-gallon gasoline UST located on the adjacent Ninomiya Nursery Property (506 Brookside Drive). No further documentation was available regarding this reported UST. Based on the subsurface evaluation performed during the previous Phase I ESA, this reported UST is not expected to impact the Site.

9.5 DISPOSAL OF EXCESS SOIL DURING CONSTRUCTION

Soil samples collected from the Site detected elevated concentrations of dieldrin, lead, and arsenic, as well as, non-RCRA hazardous waste concentrations of lead and chromium. This soil may require special handling and disposal if transported off-Site, which may increase construction costs.

9.6 IMPORTED SOIL

If the planned development will require importing soil for Site grading, we recommend documenting the source and quality of imported soil. The DTSC’s October 2001 Clean Fill Advisory provides useful guidance on evaluating imported fill.

9.7 WATER SUPPLY WELL, IRRIGATION SYSTEM, AND SEPTIC SYSTEM

A water well was observed during our Site visit. The on-Site wells will require destruction in accordance with regulatory agency requirements prior to Site development.

9.8 UNDOCUMENTED FILL

Undocumented fill was encountered beneath the former greenhouses. The debris appeared consistent with demolition activities. Additionally, a soil and debris stockpile was observed at the center of the site. We recommend collecting soils samples from the pile to evaluate potential disposal or reuse options.

9.9 POTENTIAL ENVIRONMENTAL CONCERNS WITHIN THE SITE VICINITY

Properties to the north (Nabeta Nursery [411 Brookside Drive] and Aebi Nursery [509 Brookside Drive]), south (Fuji Nursery, Inc [541 Da Villa Road]), and east (IMACC Corporation [900 Brookside Drive]) were listed as adjacent facilities in the databases researched. These listings related to former underground storage tanks and/or the use of pesticides/herbicides during normal business operations. If leaks or spills occur at these facilities, contamination could impact the Site, depending upon the location of the property, the magnitude of the release, and the effectiveness of cleanup efforts.

9.10 SOIL MANAGEMENT PLAN

We recommend preparing a Soil Management Plan (SMP) and Health and Safety Plan (HSP). The purpose of these documents will be to establish appropriate management practices for handling impacted soil, soil vapor and ground water that may be encountered during construction activities. Based on the history of the Site and near vicinity, areas of impacted soil, soil vapor and ground water may be encountered during construction activities, which may require special monitoring, handling and/or disposal. These documents should include the following:

- Site control procedures to control the flow of personnel, vehicles and materials in and out of the Site.
- Measures to minimize dust generation, storm water runoff and tracking of soil off-Site.
- If excavation de-watering is required, protocols to evaluate water quality and discharge/disposal alternatives should be described.
- Protocols for conducting earthwork activities in areas where impacted soil, soil vapor and/or ground water are present or suspected. Worker training requirements, health and safety measures and soil handling procedures should be described.
- Protocols to be implemented if buried tanks, structures, wells, debris, or unidentified areas of impacted soil are encountered during construction activities.
- Protocols to evaluate the quality of soil suspected of being contaminated so that appropriate mitigation, disposal or reuse alternatives, if necessary, can be

determined.

- Procedures to evaluate and document the quality of any soil imported to the Site. Soil containing chemicals exceeding residential (unrestricted use) screening levels or typical background concentrations of metals should not be accepted.
- Methods to monitor excavations for the potential presence of volatile chemical vapors.

9.11 ENVIRONMENTAL ATTORNEY

Due to known Recognized Environmental Conditions at the Site, we recommend consulting with an environmental attorney regarding liabilities associated with acquiring the Site.

9.12 ASBESTOS CONTAINING BUILDING MATERIALS (ACBMS)

Due to the age of the on-Site structure(s), building materials may contain asbestos. If demolition, renovation, or re-roofing of the building is planned, an asbestos survey is required by local authorities and/or National Emissions Standards for Hazardous Air Pollutants (NESHAP) guidelines. NESHAP guidelines require the removal of potentially friable ACBMs prior to building demolition or renovation that may disturb the ACBM.

9.13 LEAD-BASED PAINT

The Consumer Product Safety Commission banned the use of lead as an additive in paint in 1978. Based on the age of the building, lead-based paint may be present. If demolition is planned, the removal of lead-based paint isn't required if it is bonded to the building materials. However, if the lead-based paint is flaking, peeling, or blistering, it should be removed prior to demolition. In either case, applicable OSHA regulations must be followed; these include requirements for worker training, air monitoring and dust control, among others. Any debris or soil containing lead must be disposed appropriately.

9.14 DATA GAPS

ASTM Standard Designation E 1527-13 requires the Environmental Professional to comment on significant data gaps that affect our ability to identify Recognized Environmental Conditions. A data gap is a lack of or inability to obtain information required by ASTM Standard Designation E 1527-13 despite good faith efforts by the Environmental Professional to gather such information. A data gap by itself is not inherently significant; it only becomes significant if it raises reasonable concerns. The following data gaps were identified:

- Contact information for the former occupants and owners of the Site was not provided to us; thus, no interviews with former occupants and owners were conducted during this study. The general environmental setting of the Site appears to have been established based on the information reviewed from other data sources. However, these individuals may have knowledge of the Site that is not otherwise readily available or apparent. Thus, the absence of these interviews may diminish our ability to identify Recognized Environmental Conditions.

9.15 DATA FAILURES

As described by ASTM Standard Designation E 1527-13, a data failure occurs when all of the standard historical sources that are reasonably ascertainable and likely to be useful have been reviewed and yet the historical research objectives have not been met. Data failures are not uncommon when attempting to identify the use of a Site at five year intervals back to the first use or to 1940 (whichever is earlier). ASTM Standard Designation E 1527-13 requires the Environmental Professional to comment on the significance of data failures and whether the data failure affects our ability to identify Recognized Environmental Conditions. A data failure by itself is not inherently significant; it only becomes significant if it raises reasonable concerns. No significant data failures were identified during this Phase I ESA.

9.16 RECOGNIZED ENVIRONMENTAL CONDITIONS

Cornerstone has performed a Phase I ESA in general conformance with the scope and limitations of ASTM E 1527-13 of 506 and 550 Brookside Drive, Richmond, California. This assessment identified the following Recognized Environmental Conditions.

- The Site historically was used for agricultural purposes. The soil quality evaluation identified elevated concentrations of the OCP compound dieldrin, lead, and arsenic in the shallow soil. The soil with these elevated concentrations may require management or removal prior to construction. Based on the proposed development, capping or consolidating and capping beneath impervious pavements or structures appears to be an appropriate mitigation measure to reduce potential risks to future Site occupants. Alternatively, soil exceeding commercial/industrial screening levels could be removed for appropriate off-Site disposal at a licensed facility. With either approach, a land use restriction prohibiting sensitive uses, such as residences, and an operation and maintenance plan (OMP) would be required. Preliminary discussions with DTSC staff are being conducted to evaluate remedial alternatives and documentation requirements.

This assessment identified the following Historical Recognized Environmental Conditions³:

- Five USTs reportedly were present at the Sugihara Nursery (550 Brookside Drive). The Water Board closed the site based on *“available information, including land use”* and that *“if change in land use is proposed, the owner must promptly notify this agency”*.

SECTION 10: LIMITATIONS

Cornerstone performed this Phase I ESA to support CenterPoint in evaluation of Recognized Environmental Conditions associated with the Site. CenterPoint understands that no Phase I ESA can wholly eliminate uncertainty regarding the potential for Recognized Environmental Conditions to be present at the Site. This Phase I ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for Recognized Environmental Conditions. CenterPoint understands that the extent of information obtained is based on the reasonable limits of time and budgetary constraints.

³ A past Recognized Environmental Condition has been addressed to the satisfaction of the applicable regulatory agency or meeting of unrestricted use criteria established by the applicable regulatory agency without subjecting the Site to required controls or restrictions.

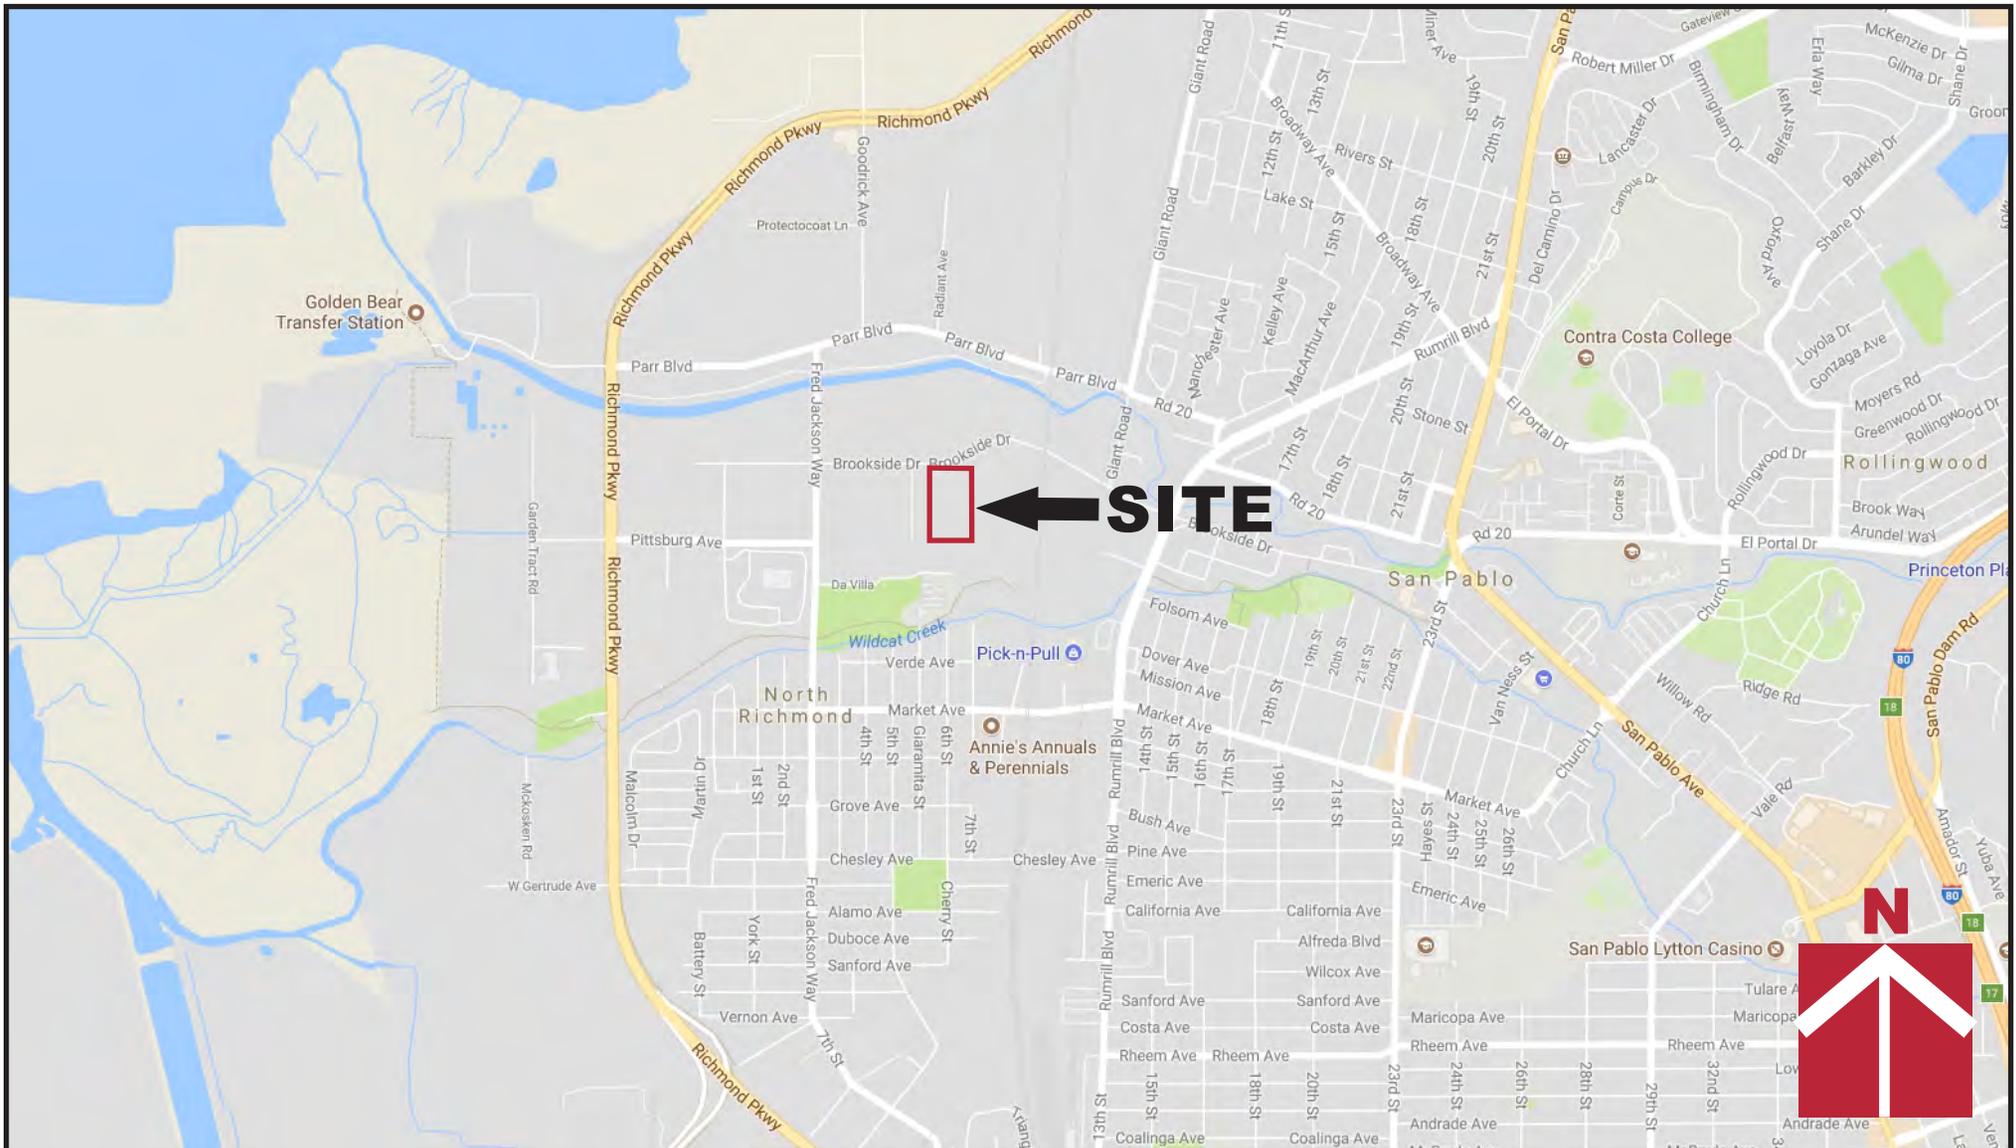

Findings, opinions, conclusions and recommendations presented in this report are based on readily available information, conditions readily observed at the time of the Site visit, and/or information readily identified by the interviews and/or the records review process. Phase I ESAs are inherently limited because findings are developed based on information obtained from a non-intrusive Site evaluation. Cornerstone does not accept liability for deficiencies, errors, or misstatements that have resulted from inaccuracies in the publicly available information or from interviews of persons knowledgeable of Site use. In addition, publicly available information and field observations often cannot affirm the presence of Recognized Environmental Conditions; there is a possibility that such conditions exist. If a greater degree of confidence is desired, soil, ground water, soil vapor and/or air samples should be collected by Cornerstone and analyzed by a state-certified laboratory to establish a more reliable assessment of environmental conditions.

Cornerstone acquired an environmental database of selected publicly available information for the general area of the Site. Cornerstone cannot verify the accuracy or completeness of the database report, nor is Cornerstone obligated to identify mistakes or insufficiencies in the information provided (ASTM E 1527-13, Section 8.1.3). Due to inadequate address information, the environmental database may have mapped several facilities inaccurately or could not map the facilities. Releases from these facilities, if nearby, could impact the Site.

CenterPoint may have provided Cornerstone environmental documents prepared by others. CenterPoint understands that Cornerstone reviewed and relied on the information presented in these reports and cannot be responsible for their accuracy.

This report, an instrument of professional service, was prepared for the sole use of CenterPoint and may not be reproduced or distributed without written authorization from Cornerstone. It is valid for 180 days. An electronic transmission of this report may also have been issued. While Cornerstone has taken precautions to produce a complete and secure electronic transmission, please check the electronic transmission against the hard copy version for conformity.

Cornerstone makes no warranty, expressed or implied, except that our services have been performed in accordance with the environmental principles generally accepted at this time and location.

CORNERSTONE
EARTH GROUP

APPENDIX A – TERMS AND CONDITIONS

**CORNERSTONE EARTH GROUP, INC.
TERMS AND CONDITIONS**

1. Agreement

- 1.1 Cornerstone Earth Group, Inc.'s ("Cornerstone") services are defined by and limited to (a) those services (the "Work") described in the attached proposal, which is incorporated herein by this reference, and (b) these Terms and Conditions of Agreement ("Terms and Conditions"). Together, the proposal and Terms and Conditions form the "Agreement." This Agreement represents the entire agreement between the Client and Cornerstone (collectively, the "Parties") and supersedes all prior negotiations, representations, or agreements, either written or oral. The Agreement can only be amended by a written instrument signed by both the Client and Cornerstone. In the event that the Client authorizes the Work by means of a purchase order or other writing ("Confirmation"), it is expressly agreed that these Terms and Conditions shall apply, and any terms, conditions or provisions appearing in the Confirmation are void and inapplicable except to the extent the Confirmation authorizes the Work and binds the Client to this Agreement.
- 1.2. Failure to immediately enforce any provision in this Agreement shall not constitute a waiver of the right to enforce that provision or any other provision. No waiver by the Parties of a breach of any term or covenant contained in this Agreement, whether by conduct or otherwise, in any one or more instances shall be deemed to be or construed as a further or continuing waiver of any such breach or as a waiver of a breach of any other term or covenant in this Agreement.

2. Scope of Services

- 2.1 Cornerstone will serve the Client by providing professional counsel and technical advice based on information furnished by the Client. The Client will make available to Cornerstone all known information regarding existing and proposed conditions of the site, and will immediately transmit any new information that becomes available or any change in plans. The Client and Cornerstone agree that Cornerstone, its officers, directors, employees, agents and/or subcontractors shall not be liable for any claims, damages, costs, or losses arising from or in any way related to conditions not actually encountered during the course of Cornerstone's Work and Cornerstone shall not have any liability or responsibility for losses resulting from inaccurate or incomplete information supplied by the Client, and the Client agrees to defend and indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors against claims, damages, costs or losses arising therefrom. Cornerstone, its officers, directors, employees, agents and/or subcontractors shall not be liable for failing to discover any condition the discovery of which would reasonably require the performance of services not authorized by the Client.

3. Terms of Payment

- 3.1 The Client's obligation to pay for the Work is in no way dependent upon the Client's ability to obtain financing. The Client's obligation to pay for the Work is in no way dependent upon the Client's successful completion of the Client's project. No provision of this Agreement shall be construed to constitute a "Pay-When-Paid" clause or a "Pay-If-Paid" clause.
- 3.2 Payment for the Work shall be due and payable upon receipt of Cornerstone's invoice. To be recognized, any dispute over charges must be claimed in writing within thirty (30) calendar days of the billing date. Any dispute over an invoice amount shall not affect the Client's obligation to pay invoice amounts not in dispute. Amounts unpaid thirty (30) calendar days after the issue date of Cornerstone's invoice shall be assessed a service charge of 1 percent per month on balances outstanding.
- 3.3 Timely payment is a substantial condition of the Client's performance under this Agreement. Cornerstone may at its option withhold delivery of reports or other work product or suspend performance of the Work pending receipt of payments for all past due invoices and Cornerstone, its officers, directors, employees, agents and/or subcontractors shall have no liability to the Client for delay or damage caused because of such withholding or suspension. In the event that Cornerstone must take legal action to enforce this Agreement for payment for the Work performed and Cornerstone prevails, Cornerstone will be reimbursed by the Client for all expenses, including but not limited to reasonable attorney's fees and litigation costs.

4. Standard of Care

- 4.1 While performing the Work under this Agreement, Cornerstone shall exercise the degree of care and skill ordinarily exercised under similar circumstances by members of the environmental and geotechnical engineering consulting professions, as applicable, performing the kind of services to be performed hereunder and practicing in the same or similar locality at the same period of time.
- 4.2 Except for the express promise set forth in Subsection 4.1 herein, Cornerstone neither makes, nor offers, nor shall Cornerstone be liable to the Client for any express or implied warranties with respect to the performance of the Work.

5. Force Majeure

- 5.1 Cornerstone will diligently proceed with its services and will complete the Work in a timely manner, but it is expressly agreed to and understood by the Client that Cornerstone shall not be held responsible for delays occasioned by factors beyond its control, nor by factors which could not reasonably have been foreseen at the time of the execution of the Agreement between the parties.
- 5.2 Except for the obligation to pay for the Work performed and expenses incurred, neither Cornerstone nor the Client shall be liable for its failure to perform hereunder, in whole or in part, due to contingencies beyond its reasonable control, included, but not limited to, strikes or other concerted acts of workmen not in Cornerstone's employ, whether direct or indirect, riots, war, acts of terrorism, fire, floods, storms, washouts, acts of God or the public enemy, explosions, accidents, epidemics, breakdowns, injunctions, compliance with any law, regulation or order, whether valid or invalid, of the United States of America or any governmental body or any instrumentality thereof, whether now existing or hereafter created.

6. Effect of Delay or Impediment to Work

- 6.1 If any event occurs which causes or may cause Cornerstone: (a) to be impeded in its performance of the Services; or (b) to be delayed in the completion of the Work within the time provided in the attached proposal and/or in an applicable Change Order due to any act or omission of the Client, its officers, directors, employees and agents, or the Client's contractors, or due to any contingency beyond Cornerstone's control as provided in Section 5 herein, Cornerstone shall notify the Client in writing within ten (10) business days of the date on which Cornerstone becomes aware of such event.
- 6.2 The Client shall notify Cornerstone in writing of the Client's agreement or disagreement with Cornerstone's claim of an impediment or delay to performance within five (5) business days after receipt of Cornerstone's notice under Subsection 6.1. If the Client agrees with Cornerstone's claim, the time for performance of such requirement may be extended as mutually agreed in writing by the parties as provided in Subsection 1.1. If the Client disputes Cornerstone's assertion of an impediment or delay, such dispute shall be resolved pursuant to Section 17.
- 6.3 Impediments or delays to performance, addressed pursuant to this Section, shall not (a) constitute a breach hereunder; (b) give rise to any special right to terminate this Agreement; or (c) give rise to a claim by the Client for damages or other relief, if and to the extent that such impediment or delay is due to any act or omission of the Client, its officers, directors, employees and agents, or the Client's contractors, or due to any contingency beyond Cornerstone's control as provided in Section 5.

7. Right of Entry

- 7.1 Unless otherwise agreed in writing, the Client shall furnish and/or secure right of entry to the Site described in the proposal for Cornerstone personnel and equipment in order for Cornerstone to perform the Work. The Client shall waive any claim against Cornerstone, its officers, directors, employees, agents and/or subcontractors and agree to defend and indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors from any claims arising from entry onto the Site which is the subject of the Work.

7.2 The Parties acknowledge and agree that although Cornerstone will take reasonable precautions to minimize damage to property, including landscapes, hardscapes, crops and underground utilities, any and all damages, losses or expenses which could result from damage to such property due to Cornerstone's performance of the Work under this Agreement shall be the sole and exclusive responsibility of the Client provided that such damages, losses or expenses are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein. The Client shall indemnify, defend and hold harmless Cornerstone, its officers, directors, employees, agents and/or subcontractors from any damages, losses or expenses including, without limitation, attorney's fees, sustained or incurred by Cornerstone, its officers, directors, employees, agents and/or subcontractors as a result of any and all claims arising out of any damage to subsurface utilities due to Cornerstone's performance of the Work under this Agreement, provided that such claims are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein.

8. Monitoring of Construction

8.1 The Client acknowledges and understands that unanticipated or changed conditions may be encountered during construction. There is a substantial risk to the Client and to Cornerstone if Cornerstone is not engaged to provide complete services, including but not limited to, construction observation services. Such risks include the increased likelihood of misinterpretation of Cornerstone's findings and conclusions and error in implementing recommendations by Cornerstone. If Client fails to retain Cornerstone to provide complete services, the Client agrees, notwithstanding any other provisions of this Agreement, to the fullest extent permitted by law, to indemnify and hold harmless Cornerstone, its officers, partners, employees and Cornerstones from and against any and all claims, suits, demands, liabilities, losses, damages or costs, including reasonable attorneys' fees and defense costs arising out of or in any way connected with the Work or arising out of implementing or interpreting Cornerstone's work product except when the Claim arises from the sole negligence of Cornerstone or where the Claim arises from the willful, wanton or reckless conduct of Cornerstone.

8.2 Cornerstone shall not be required to make exhaustive or continuous on-site observations to check the quality or quantity of the Work and shall not be responsible for any contractor's failure to carry out the work in accordance with the contract documents.

8.3 Cornerstone shall not be responsible for the acts or omissions of any contractor or subcontractor or any of the contractors' or subcontractors' agents or employees or other persons performing any work on the Project.

9. Changed Conditions

9.1 If, during the term of this Agreement, circumstances or conditions that were not originally contemplated by or known to Cornerstone are revealed, to the extent that they affect the scope of services, compensation, schedule, allocation of risks or other material terms of this Agreement, Cornerstone may call for renegotiation of appropriate portions of this Agreement. Cornerstone shall notify the Client of the changed conditions necessitating renegotiation, and Cornerstone and the Client shall promptly and in good faith enter into renegotiation of this Agreement to address the changed conditions. If terms cannot be agreed to, the parties agree that either party has the absolute right to terminate this Agreement, in accordance with the termination provision hereof.

10. Jobsite Safety

10.1 Neither the professional activities of Cornerstone nor the presence of Cornerstone or its employees, subconsultants and subcontractors shall relieve the Client or the Client's General Contractor of its obligations, duties and responsibilities, including, but not limited to, health and safety programs. Cornerstone and its personnel have no authority to exercise any control over the site or any construction contractor or its employees in connection with their work or any health or safety programs or procedures. The Client acknowledges and agrees that Cornerstone shall not be responsible for jobsite safety.

11. Hazardous Materials and Environmental Contamination

11.1 The Client hereby warrants that if it knows or has any reason to assume or suspect that hazardous or toxic substances, or any other type of environmental hazard, contamination or pollution may exist at the Site, the Client will immediately inform Cornerstone to the best of the Client's knowledge of such hazardous or toxic substances, environmental hazard, contamination or pollution's type, quantity and location.

11.2 Cornerstone, its officers, directors, employees, agents and/or subcontractors shall have no title to, ownership of, or legal responsibility and/or liability for any and all contamination at the Site, including, but not limited to, the groundwater thereunder. "Contamination at the Site" includes but is not limited to any hazardous or toxic substance, or any other type of environmental hazard, contamination or pollution present at or under the Site, including, but not limited to the ground water thereunder, which is not brought onto the Site by Cornerstone, its officers, directors, employees, agents and/or subcontractors.

11.3 Cornerstone and the Client agree that the discovery of unanticipated Contamination at the Site may constitute a changed condition mandating renegotiation and/or termination of this Agreement. Cornerstone and the Client agree that the discovery of unanticipated Contamination at the Site may make it necessary for Cornerstone to take immediate measures to protect the public health, safety and the environment. The Client agrees that Cornerstone may take any or all measures that in Cornerstone's professional opinion are justified to preserve and protect the health and safety of Cornerstone's personnel, the public and the environment, and the Client agrees to compensate Cornerstone for the cost of such services.

11.4 The Client agrees to indemnify, defend and hold harmless Cornerstone, its officers, directors, employees, agents and/or subcontractors from any and all damages, losses or expenses, including, but not limited to, reasonable attorney's fees and legal costs connected therewith, liabilities, penalties and fines sustained by Cornerstone, its officers, directors, employees, agents and/or subcontractors as a result of any and all claim with respect to and arising out of any and all Contamination at the Site, provided that such claims are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein.

11.5 Subsurface sampling may result in unavoidable contamination of certain subsurface areas, as when a probe or boring is advanced or drilled through a contaminated area into a clean soil or water-bearing zone. Because of the risks posed by such work, and because subsurface sampling is often a necessary part of Cornerstone's Work, the Client hereby agrees to waive all claims against Cornerstone, its officers, directors, employees, agents and/or subcontractors with respect to and arising out of any and all subsurface sampling, including but not limited to claims relating to cross-contamination occurring because of such subsurface sampling, provided that such claims are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein.

12. Disposal of Samples and Drill Cuttings

12.1 Unless mutually agreed in writing by the Parties as provided in Subsection 1.1 herein, Cornerstone shall hold samples collected during the performance of the Work no longer than thirty (30) calendar days after their date of collection. Drill cuttings and waste materials will be left on-Site. In the event that soil, rock, water, drill cuttings and/or other samples or materials are contaminated or are suspected to contain hazardous materials or other toxic substances hazardous or detrimental to public health, safety or the environment as defined by federal, state or local law, Cornerstone will, after completion of testing, notify the Client of the same in order for the Client to arrange for the disposal of the samples and/or materials. The Client recognizes and agrees that Cornerstone at no time assumes title to said samples and/or materials, and that the Client is responsible for the disposal of such samples and/or materials. The Client agrees to pay all costs associated with any storage, transport and/or disposal of samples and/or materials, and to defend and indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors from any and all claims arising out of or in any way related to the storage, transport and/or disposal of asbestos, hazardous or toxic substances, and/or pollutants, including but not limited to any samples and/or materials.

13. Use and Ownership of Documents

13.1 All reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents and instruments prepared by Cornerstone as instruments of service shall remain the property of Cornerstone. Cornerstone shall retain all common law, statutory and other reserved rights, including copyright thereto. In the event the Client, the Client's contractors or subcontractors, or anyone for whom the Client is legally liable makes or permits to be made any changes to reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents prepared by Cornerstone without obtaining Cornerstone's prior written consent, the Client shall assume full responsibility for the results of such changes. Therefore, the Client agrees to waive any claim against Cornerstone and to release Cornerstone from any liability arising directly or indirectly from such changes. In addition, the Client agrees, to the

fullest extent permitted by law, to indemnify and hold harmless Cornerstone from any damages, liabilities or costs, including reasonable attorney's fees and costs of defense, arising from such changes.

The Client agrees that all reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents and other services furnished to the Client or its agents and/or employees by Cornerstone, which are not paid for, shall be immediately returned upon demand and may not be used by the Client for any purpose. Any reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents, advice or opinions provided by Cornerstone to the Client as part of the Work are provided for the sole and exclusive use of the Client for specific application to the Site detailed in this Agreement. Any third party use of any drafts, reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents, advice or opinion of Cornerstone is the sole responsibility of the Client.

14. Insurance

- 14.1 Cornerstone, its officers, directors, employees and agents have and shall maintain during the term of this Agreement insurance in the following types: (a) Worker's Compensation Insurance; (b) Employer's Liability Insurance; (c) Commercial General Liability Insurance (GLI); and (d) Professional Liability Insurance.
- 14.2 Cornerstone shall, at the Client's request, provide the Client with a certificate of insurance or other satisfactory evidence that such insurance has been obtained and are maintained in force through the term of this Agreement. Any additional insurance policy or increase in the coverage of existing insurance required by the Client shall constitute an additional expense under this Agreement, and the Client shall reimburse Cornerstone for any additional premiums and costs incurred by Cornerstone in connection with obtaining such additional insurance.

15. Prevailing Wage Obligations

- 15.1 The Client shall notify Cornerstone in writing if the Work contemplated by this Agreement constitutes a "public work" under any and all federal, state and/or local prevailing wage laws, and/or living wage laws, including but not limited to the Davis-Bacon Act and the provisions of California Labor Code §§ 1720 *et seq.* In addition, the Client shall notify Cornerstone if Cornerstone is obligated by statute, any public contracting authority and/or a developer to pay prevailing wages and benefits and/or any predetermined wages or benefits (collectively, "prevailing wage obligations"). In the event that Cornerstone must adhere to federal, state and/or local prevailing wage obligations for the Work performed, the Client shall provide Cornerstone with any and all prevailing wage determinations applicable to the Work to be performed under this Agreement. Any prevailing wage obligations might affect the payment terms contemplated by this Agreement and thus constitute a changed condition mandating renegotiation and/or termination of this Agreement. The Client understands and agrees that Cornerstone will rely on the representations made by the Client with regard to prevailing wage obligations and the Client agrees to indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors against any and all claims, liabilities, suits, demands, losses, costs and expenses, including but not limited to reasonable attorney's fees and legal costs, arising from Cornerstone's reliance upon the Client's representations regarding prevailing wage obligations.

16. Limitations—THIS CLAUSE LIMITS CORNERSTONE'S LIABILITY

- 16.1 Cornerstone shall not be responsible for the validity or accuracy of data collected by others or for interpretations made by others.
- 16.2 Cornerstone's relationship with the Client under this Agreement shall be that of an independent contractor. Nothing in this Agreement shall be construed to designate Cornerstone, its officers, directors, employees, agents and/or subcontractors as employees, agents, joint ventures or partners of the Client. Cornerstone shall have no authority to bind, commit or obligate the Client in any manner and shall not hold itself out to third parties as being capable of doing so.
- 16.3 The Client and Cornerstone have discussed the risks and rewards associated with this project, as well as Cornerstone's fee for services. After negotiation, the Client and Cornerstone have expressly agreed to allocate certain of the risks so that, to the fullest extent permitted by law, the total aggregate liability of Cornerstone, its officers, directors, employees, agents and subcontractors to the Client and all third-parties is limited to \$50,000 or the amount of Cornerstone's fee, whichever is greater, for any and all injuries, damages, claims, losses, expenses, or claim expenses (including attorney's fees) arising out of this Agreement from any cause or causes. Such causes include but are not limited to Cornerstone's negligence, errors, omissions, strict liability, breach of contract or breach of warranty. In no event shall Cornerstone, its officers, directors, employees, agents and/or subcontractors be liable in contract, tort, strict liability, warranty or otherwise, for any special, incidental or consequential damages, such as but not limited to delay, disruption, loss of product, loss of anticipated profits or revenue, loss of use of any equipment or system, non-operation or increased expense of operation of any equipment or systems, cost of capital, or cost of purchase or replacement equipment systems or power.
- 16.4 Notwithstanding any other provision of this Agreement, the total aggregate liability of Cornerstone, its officers, directors, employees, agents and subcontractors to the Client and all third parties, including attorney's fees awarded pursuant to this Agreement, for claims, damages or losses arising out of the treatment, transport, storage, discharge, dispersal or release of hazardous materials, shall be limited to \$50,000 or the amount of Cornerstone's fee, whichever is greater and regardless of the legal theory under which liability is imposed.
- 16.5 For an additional 5% of Cornerstone's total fee or \$500, whichever is greater, Cornerstone will raise the limitation of liability up to the amount that actually would be paid by Cornerstone's insurance carriers if Client and Cornerstone initial below:

LIMITATION INCREASE: THE LIMITATION OF LIABILITY IS INCREASED TO THE ACTUAL AMOUNT PAID BY CORNERSTONE'S INSURANCE CARRIERS IN EXCHANGE FOR AN ADDITIONAL FEE OF 5% OF THE TOTAL SERVICE CHARGE OR \$500, WHICHEVER IS GREATER.

Client's Initial	Date	Cornerstone's Initial	Date

- 16.6 The Client shall indemnify, defend and hold harmless Cornerstone and its officers, directors, employees, agents and subcontractors from any and all damages, losses, or expenses, included but not limited to reasonable legal expenses and attorney's fees connected therewith, sustained by Cornerstone, its officers, directors, employees, agents and subcontractors as a result of any and all claims, demands, suits, causes of action, proceedings, judgments and liabilities for property damage, statutory penalty and/or personal injury with respect to and arising out of the Client's negligent acts, omissions or material breach of this Agreement. In the event a claim is the result of joint negligent acts or omissions of the Client and Cornerstone, the Client's duty of indemnification shall be in proportion to its respective allocable share of the joint negligence.
- 16.7 Client acknowledges and agrees that in no event shall any action or proceeding be brought against Cornerstone or proceeding be brought against Cornerstone by Client or its assignees for any claim or cause of action arising from or in any way related to the Work or this Agreement unless such action or proceeding is commenced within three (3) years from the Date of Completion of Work provided by Cornerstone under this Agreement. The Date of Completion shall be the date of the final invoice for the Work performed under this Agreement.
- 16.8 If Client requests that Cornerstone's work product be relied upon by a third party, including, but not limited to a lender, Client agrees to provide the third party with a copy of these terms and conditions, and Client agrees to require said third party to agree to limit Cornerstone's total liability to Client and any third party as described in paragraph 16.4 and Client agrees to indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors against any and all claims, liabilities, suits, demands, losses, costs and expenses, including but not limited to reasonable attorney's fees and legal costs, arising from third party claims, damages, costs and losses arising out of or in any way related to Work.

17. Disputing Cornerstone's Performance

- 17.1 Except as provided in Section 6 and Subsection 17.2 herein, if Cornerstone shall breach any provision herein, the Client shall notify Cornerstone within five (5) business days of the Client's knowledge of such breach. Except as provided in Subsections 17.3 herein, upon receipt of the Client's notice, Cornerstone shall have the option to take such corrective measures, if any, to remedy the breach, and shall notify the Client within five (5) business days after receipt of the

Client's notification of the corrective measures Cornerstone shall take and the estimated time period within which the corrective measures shall be taken. In no event shall Cornerstone be liable to the Client for any damages without being given a reasonable opportunity to remedy its breach as provided herein.

- 17.2 The Client shall make no claim for professional negligence unless the Client has first provided Cornerstone with a written certification executed by an independent Consultant currently practicing in the same discipline and locality as Cornerstone and licensed in the State of California. This certification shall (a) contain the name and license number of the certifier; (b) specify the acts or omissions that the certifier contends are not in conformance with the standard care for a Cornerstone performing professional services under similar circumstances; and (c) state in detail the basis for the certifier's opinion that such acts or omissions do not conform to the standard of care. This certificate shall be provided to Cornerstone no less than thirty (30) calendar days prior to the presentation of any claim or the institution of any mediation, arbitration or judicial proceeding.
- 17.3 Cornerstone agrees that upon receipt of written notice from the Client pursuant to Subsection 17.2 herein it will implement necessary corrections to the Work performed by Cornerstone that fails to conform to the standard of care that Cornerstone has accepted pursuant to Subsection 4.1, as mutually agreed in writing by the Parties as provided in Subsection 1.1. herein, if such written notice is received within one (1) year of the performance of the Work failing to conform to Subsection 4.1. If Cornerstone has been paid by the Client for such Work, Cornerstone shall perform the corrections at its own expense. If Cornerstone has not been paid by the Client for such Work, and the Work is subsequently corrected to conform with the standard of care that Cornerstone has accepted pursuant to Subsection 4.1, the Client shall pay Cornerstone in accordance with Section 3 herein.
- 17.4 In no event shall Cornerstone, its officers, directors, employees, agents and/or subcontractors be liable for any special, incidental or consequential damages, such as but not limited to delay, disruption, loss of product, loss of anticipated profits or revenue, loss of use of any equipment or system, non-operation or increased expense of operation of any equipment or systems, cost of capital, or cost of purchase or replacement equipment systems or power, or any other incidental, special, indirect or consequential damages of any kind or nature whatsoever resulting from Cornerstone's performance or failure to perform the Work in accordance with the standard of care that Cornerstone has accepted pursuant to Subsection 4.1.
- 18. Termination**
- 18.1 Cornerstone shall have the right to terminate this Agreement ten (10) business days after written notice is sent to the Client if (a) the Client fails to pay any of Cornerstone's undisputed invoices within sixty (60) days from the date of the invoice; or (b) Cornerstone's attached proposal and/or the Work was based upon misinformation, whether by the Client or a third party, or upon information not fully disclosed to Cornerstone, whether by the Client or a third party.
- 18.2 Except as provided for in Section 6, and after compliance with Section 17, the Client shall have the right to terminate this Agreement ten (10) business days after written notice is sent to Cornerstone if Cornerstone fails to comply in any material respect with any of the material provisions herein and subsequently fails to notify the Client pursuant to Subsections 17.1 and 17.3 of the corrective measures Cornerstone intends to take.
- 18.3 The termination of this Agreement by Cornerstone under Subsection 18.1 herein, or by the Client under Subsection 18.2 herein, shall not relieve the Client of its obligations to pay Cornerstone for any of the Work performed and expenses incurred as of the date of termination, and shall not constitute a waiver by Cornerstone or the Client of any cause of action for breach of this Agreement or any provision herein.
- 19. Miscellaneous Provisions.**
- 19.1 "Indemnity" Defined. The term "indemnify" shall mean indemnify, defend and hold harmless from and against any and all claims, liabilities, suits, demands, losses, costs and expenses, including but not limited to reasonable attorney's fees and all legal costs incurred on appeal, and all interest thereon, accruing or resulting to any and all persons, firms, or any other legal entities, on account of any damages or losses to property or persons, including death or economic losses, arising out of the item, matter, action or inaction specified in the specific provision.
- 19.2 Choice of Counsel. In any circumstance whereby Cornerstone is entitled to indemnification by the Client, Cornerstone shall have the right to select counsel of its choosing.
- 19.3 Successors and Assigns. This Agreement shall be binding upon and inure to the benefit of the Parties and their successors and assigns as provided herein. The Client shall not assign, sell, transfer or subcontract this Agreement or any interest herein without the prior written consent of Cornerstone. Cornerstone shall not assign, sell, transfer or subcontract this Agreement or any interest herein without the prior written consent of the Client. The Client hereby consents to the subcontracting of those portions of the Work as the attached proposal herein indicates are or will be subcontracted. Notwithstanding the above, Cornerstone shall have the right to assign monies due hereunder for the Work performed and expenses incurred.
- 19.4 Third Party Beneficiaries. The Parties agree that this Agreement is not intended by either Cornerstone or the Client to give any benefits, rights, privileges, actions or remedies to any person or entity, partnership, firm or corporation as a third party beneficiary or otherwise under any theory of law, that is not a signatory to this Agreement.
- 19.5 Survival. In order that the Parties may fully exercise their rights and perform their obligations arising from the performance of this Agreement, any provisions of this Agreement that are necessary to ensure such exercise or performance shall survive the termination of this Agreement.
- 19.6 Severability. If any part, term or provision of this Agreement shall be held illegal, unenforceable or in conflict with any federal, state or local law having jurisdiction over this Agreement, the validity of the remaining parts, terms or provisions of this Agreement shall not be affected thereby.
- 19.7 Choice of Law and Venue. This Agreement shall be governed by California law. The venue for any legal action brought pursuant to this Agreement shall be located within the County of Santa Clara, State of California.
- 19.8 Publicity. Unless otherwise mutually agreed in writing by the parties as provided in Subsection 1.1, Cornerstone may use and publish the Client's name and a general description of Cornerstone's services with respect to the Work in describing Cornerstone's experience and qualifications to other clients or prospective clients.
- 19.9 Signatories. Each undersigned representative of the Parties to this Agreement certifies that he or she is fully authorized to enter into the terms and conditions of this Agreement and to execute and legally bind such Party to this document.
- 19.10 Corporate Protection. It is intended by the parties to this Agreement that Cornerstone's services in connection with the Work shall not subject Cornerstone's individual employees, officers or directors to any personal legal exposure for the risks associated with this Project. Therefore, and notwithstanding anything to the contrary herein, the Client agrees that as the Client's sole and exclusive remedy, any claim, demand or suit shall be directed and/or asserted only against Cornerstone, a California Corporation, and not against any of Cornerstone's individual employees, officers or directors.
- 19.11 Code Compliance. Cornerstone shall exercise usual and customary professional care in its efforts to comply with applicable laws, codes and regulations as of the date of this Agreement.
- 19.12 Quotation. Unless stated in writing, this quotation shall not remain in effect after thirty (30) days of the Proposal date.
- 19.13 Contractors State License. Cornerstone maintains a General Engineering A license (No. 905816) with a Hazardous Substances Removal and Remedial Actions Certification with the State of California, which are regulated by the Contractors State License Board. Any questions concerning a contractor may be referred to the Registrar, Contractors State License Board, P.O. Box 26000, Sacramento, California 95826.

SCHEDULE B-1 REQUIREMENTS

1. Pay the agreed amounts for the interest in the land and/or the mortgage to be insured.
2. Pay us the premiums, fees and charges for the policy.
3. Documents satisfactory to us creating the interest in the land and/or the mortgage to be insured must be signed, delivered and recorded.
4. You must tell us in writing the name of anyone not referred to in this Commitment who will get an interest in the land or who will make a loan on the land. We may then make additional requirements or exceptions.
5. Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.
6. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

7. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

Party(ies): ALL VESTEES SHOWN HEREIN

The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

8. The search did not disclose any open mortgages or deeds of trust of record, therefore the Company reserves the right to require further evidence to confirm that the property is unencumbered, and further reserves the right to make additional requirements or add additional items or exceptions upon receipt of the requested evidence.
9. The Company will require either (a) a complete copy of the trust agreement and any amendments thereto certified by the trustee(s) to be a true and complete copy with respect to the hereinafter named trust, or (b) a Certification, pursuant to California Probate Code Section 18100.5, executed by all of the current trustee(s) of the hereinafter named trust, a form of which is attached.

Name of Trust: CenterPoint Properties Trust- Proposed Insured

END OF SCHEDULE B - SECTION I

NBU No.: 21701651
Local No.: FCLA-TO17001413
Issued: 06/29/17

TITLE /UNDERWRITING CONTACT: Aaron Priest at 312-223-2464 / Aaron.priest@ctt.com
TRANSACTION ACCOUNT REP: Scott Isacson at 312-223-5786 / scott.isacson@ctt.com

SCHEDULE B-2 EXCEPTIONS

Schedule B of the policy or policies to be issued will contain exceptions to the following matters unless the same are disposed of to the satisfaction of the Company:

- a. Defects, liens, encumbrances, adverse claims or other matters, if any, created, first appearing in the public records, or attaching subsequent to the effective date hereof but prior to the date the proposed insured acquires for value of record the estate or interest or mortgage thereon covered by the Commitment
 - b. In addition to the Exceptions shown below, any standard coverage policy of title insurance issued under the terms of this commitment will contain the applicable Exclusions and Exceptions shown on attached list.
1. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2017-2018.
 2. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.
 3. Water rights, claims or title to water, whether or not disclosed by the public records.
 4. Rights of the public to any portion of the Land lying within the area commonly known as Brookside Drive.
 5. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
 6. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
 7. Any encroachment, encumbrance, violation, variation or adverse circumstances affecting the Title that would be disclosed by an accurate and complete land survey of the Land not shown by the Public Records.
 8. A notice that said Land is included within a project area of the Redevelopment Agency shown below, and that proceedings for the redevelopment of said project have been instituted under the Redevelopment Law (such redevelopment to proceed only after the adoption of the redevelopment plan) as disclosed by a document

Recording Date: July 23, 1987
Recording No.: Book 13791, Page 466, Instrument No. 87-157128, of Official Records
Redevelopment Plan: North Richmond Redevelopment Project

NBU No.: 21701651
Local No.: FCLA-TO17001413
Issued: 06/29/17

TITLE /UNDERWRITING CONTACT: Aaron Priest at 312-223-2464 / Aaron.priest@ctt.com
TRANSACTION ACCOUNT REP: Scott Isacson at 312-223-5786 / scott.isacson@ctt.com

Said Redevelopment Redevelopment Plan has been amended by document recorded December 14, 1994, as Instrument No. 94-294407, as further amended by document recorded March 15, 1999, as Instrument No. 99-0070071, as further amended by document recorded June 9, 1999, as Instrument No. 1999-154027 and as June 2, 2008, as Instrument No. 2008-121615, all of Official Records.

9. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;

Reserved by: County of Contra Costa
Purpose: Public utilities
Recording Date: January 7, 1998
Recording No.: Instrument No. 98-0002796, of Official Records
Affects: Portion of premises

Reference is hereby made to said document for full particulars.

10. An unrecorded lease with certain terms, covenants, conditions and provisions set forth therein as disclosed by the document

Entitled: Memorandum of Lease
Lessor: Glenn Sugihara, Eiko Sugihara and Fumiko Sugihara
Lessee: Color Spot Nurseries, Inc., a Delaware corporation
Recording Date: November 6, 2001
Recording No.: Instrument No. 2001-341596, of Official Records

With the term being from July 1, 2000 to June 30, 2009, with an option to extend said lease term for 2 (two) consecutive periods of 5 (five) years each.

The present ownership of the leasehold created by said lease and other matters affecting the interest of the lessee are not shown herein.

11. Any invalidity or defect in the title of the vestees in the event that the trust referred to herein is invalid or fails to grant sufficient powers to the trustee(s) or in the event there is a lack of compliance with the terms and provisions of the trust instrument.

If title is to be insured in the trustee(s) of a trust, (or if their act is to be insured), this Company will require a Trust Certification pursuant to California Probate Code Section 18100.5.

The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

12. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

13. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other matters which a correct survey would disclose and which are not shown by the public records.

NBU No.: 21701651
Local No.: FCLA-TO17001413
Issued: 06/29/17

TITLE /UNDERWRITING CONTACT: Aaron Priest at 312-223-2464 / Aaron.priest@ctt.com
TRANSACTION ACCOUNT REP: Scott Isacson at 312-223-5786 / scott.isacson@ctt.com

14. The transaction contemplated in connection with this Report is subject to the review and approval of the Company's Corporate Underwriting Department.

The Company reserves the right to add additional items or make further requirements after such review.

Code Area: 85084
Bill No.: 300440

Affects: A portion of the Land described herein.

- o. Note: Property taxes for the fiscal year shown below are PAID. For proration purposes the amounts were:

Tax ID No.: 408-210-011
Fiscal Year: 2016-2017
1st Installment: \$57.80
2nd Installment: \$57.80
Land: \$7,631.00
Code Area: 85084
Bill No.: 300441

Affects: A portion of the Land described herein.

- p. Note: The charge for a policy of title insurance, when issued through this title order, will be based on the Basic Title Insurance Rate
- q. Your application for title insurance was placed by reference to only a street address or tax identification number. Based on our records, we believe that the legal description in this report covers the parcel(s) of Land that you requested. If the legal description is incorrect, the seller/borrower must notify the Company and/or the settlement company in order to prevent errors and to be certain that the correct parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.
- r. Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of an agent, an authorized employee of the insured lender, or by using Bancserv or other approved third-party service. If the above requirements cannot be met, please call the company at the number provided in this report.

CONDITIONS

1. The term mortgage, when used herein, shall include deed of trust, trust deed, or other security instrument.
2. If the proposed Insured has or acquired actual knowledge of any defect, lien, encumbrance, adverse claim or other matter affecting the estate or interest or mortgage thereon covered by this Commitment other than those shown in Schedule B hereof, and shall fail to disclose such knowledge to the Company in writing, the Company shall be relieved from liability for any loss or damage resulting from any act of reliance hereon to the extent the Company is prejudiced by failure to so disclose such knowledge. If the proposed Insured shall disclose such knowledge to the Company, or if the Company otherwise acquires actual knowledge of any such defect, lien, encumbrance, adverse claim or other matter, the Company at its option may amend Schedule B of this Commitment accordingly, but such amendment shall not relieve the Company from liability previously incurred pursuant to paragraph 3 of these Conditions.
3. Liability of the Company under this Commitment shall be only to the named proposed Insured and such parties included under the definition of Insured in the form of policy or policies committed for and only for actual loss incurred in reliance hereon in undertaking in good faith (a) to comply with the requirements hereof, or (b) to eliminate exceptions shown in Schedule B, or (c) to acquire or create the estate or interest or mortgage thereon covered by this Commitment. In no event shall such liability exceed the amount stated in Schedule A for the policy or policies committed for and such liability is subject to the insuring provisions and Conditions and the Exclusions from Coverage of the form of policy or policies committed for in favor of the proposed Insured which are hereby incorporated by reference and are made a part of this Commitment except as expressly modified herein.
4. This Commitment is a contract to issue one or more title insurance policies and is not an abstract of title or a report of the condition of title. Any action or actions or rights of action that the proposed Insured may have or may bring against the Company arising out of the status of the title to the estate or interest or the status of the mortgage thereon covered by this Commitment must be based on and are subject to the provisions of this Commitment.
5. The policy to be issued contains an arbitration clause. All arbitrable matters when the Amount of Insurance is \$2,000,000 or less shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. You may review a copy of the arbitration rules at <<http://www.alta.org>>.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a

EXECUTIVE SUMMARY

given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 12/11/2017 has revealed that there are 4 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 09/13/2017 has revealed that there are 5 CORRACTS sites within approximately 1 mile of the target property.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-TSDF list, as provided by EDR, and dated 09/13/2017 has revealed that there are 2 RCRA-TSDF sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 09/13/2017 has revealed that there are 4 RCRA-SQG sites within approximately 0.25 miles of the target property.

CA RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the CA RESPONSE list, as provided by EDR, has revealed that there are 7 CA RESPONSE sites within approximately 1 mile of the target property.

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 10/30/2017 has revealed that there are 48 CA ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal landfill and/or solid waste disposal site lists

CA SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the CA SWF/LF list, as provided by EDR, has revealed that there are 2 CA SWF/LF sites within approximately 0.5 miles of the target property.

State and tribal leaking storage tank lists

CA LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CA LUST list, as provided by EDR, has revealed that there are 22 CA LUST sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

CA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the CA UST list, as provided by EDR, has revealed that there is 1 CA UST site within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 09/13/2017 has revealed that there is 1 RCRA NonGen / NLR site within approximately 0.25 miles of the target property.

 Case Type: Cleanup Program Site
 Case Worker: DT
 Local Agency: Not reported
 RB Case Number: 07S0191
 File Location: Regional Board
 Potential Media Affected: Other Groundwater (uses other than drinking water)
 Potential Contaminants of Concern: Other Petroleum, Aviation
 Site History:

Actual:
28 ft.

The case is a product leak from Shell pipeline running along the Southern Pacific Railroad, between properties located at 850 and 900 Brookside Drive in Richmond. discovered during investigations of former underground storage tank (UST) leaks at the adjacent properties located east and west of the subject pipeline (at 850 Brookside Drive, Board case number 07-0189; and at 900 Brookside Drive; Board case number 07-0660, respectively). Soil and groundwater data collected from these properties suggested that a fuel leak(s) from the subject Shell pipeline contaminated the subsurface with various hydrocarbon constituents including jet fuel hydrocarbons, not stored in any of the sites former USTs. Contamination appears to be significant, as indicated by the presence of free product on

Status Date: 07/18/2000
Case Worker: BGS
RB Case Number: 07-0189
Local Agency: CONTRA COSTA COUNTY
File Location: Regional Board
Local Case Number: 08195
Potential Media Affect: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: Diesel
Site History:

the subject property (Site) is located on the south side of Brookside Drive in Richmond, California. The parcels has a rhomboidal shape and is buttressed to the east and west by two operating rail lines. Surrounding properties are largely commercial and industrial with some open marsh / bay-filled lots to the west of the Site, with San Pablo creek running to the Bay across the northern side of the parcels just to the north of the Site. Shell's petroleum pipeline is located to the east side of the UPRR (Union Pacific Railroad) lines. A second petroleum pipeline is located on the west side of the UPRR lines and east of the former underground storage tank (UST) area. Three (3) USTs were removed in 1986. Soil and groundwater have detectable levels of petroleum hydrocarbons and related contaminants, including BTEX (benzene toluene ethylene and xylenes), total petroleum hydrocarbons as gasoline (TPHg) or diesel (TPHd), and motor oil (TPHmo), and as crude oil (TPHc) due to the historic pipeline use on Site. TPHc concentrations in soil recorded up to 23,000 mg/kg, while groundwater grab samples ranged from 2,900 ug/L to 1,300,000 ug/L. Multiple petroleum sources are in the vicinity of the Site. Investigations continue on and off-Site.

FINDS:

Registry ID: 110002656545

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

WEST CONTRA COSTA SANITARY LAN (Continued)

S101624669

Facility Type: Industrial - Facility that treats and/or disposes of liquid or semisolid wastes from any servicing, producing, manufacturing or processing operation of whatever nature, including mining, gravel washing, geothermal operations, air conditioning, ship building and repairing, oil production, storage and disposal operations, water pumping.

Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.

NPDES Number: CAS000001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board

Subregion: 2

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

 Project Revenue Source Company: Not reported
 Project Revenue Source Addr: Not reported
 Project Revenue Source City,St,Zip: Not reported
 Project Revenue Source Desc: DHS will be issuing a remedial action order or entering into an enforceable agreement with the responsible parties. DHS has budgeted \$50,000 for oversight/monitoring of cleanup efforts. DHS will recover 100 percent of direct costs plus staff costs and overhead related to the project. The responsible parties will pay all costs associated with remedial investigations and cleanup activities.

**Actual:
 27 ft.**

Site Description: The FMC Corporation-Richmond site operated as a pesticide formulating facility from the late 1940's to 1979 when operations at the plant ceased and a decommissioning program began. The plant occupies approximately 20 acres between the Southern Pacific and Santa Fe Railroad tracks, north of Parr Boulevard. The areas to the east and the southeast of the site are residential. Industrial developments occupy areas to the north, west and southeast.

Hazardous Waste Desc: Soil and ground water are contaminated with various organochlorine and organophosphorus pesticides and solvents. Heavy metal contamination exists in some onsite soil locations. Dinitrobutylphenol (DNBP), toxaphene, and dichlorodiphenyltrichloroethane (DDT) are some of the pesticides found at the highest concentrations.

Threat To Public Health & Env: Soils are contaminated both at the surface and subsurface. There are contaminated sediments in the drainage pathways which have the potential to flow offsite. Pesticides have leached to the ground water as a result of

percolating rainwater. Surface runoff may become contaminated during contact with contaminated soils and travel offsite.
 Site Activity Status: The responsible parties under DHS oversight, have removed approximately 20,000 tons of contaminated soil from the site. Lower levels of pesticide contamination remain onsite. FMC is continuing RI/FS activities under oversight by DHS and the RWQCB.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 03/07/2013
Comments: The Site Screening recommends No Further Action. The Rational supporting the recommendation is : 1.The known wastes previously handled at the site, K078 and K079, were delisted in 1980 and exempted under the 40 Code of Federal Regulations, Section 29, Parts 199 to 399. 2.The facility changed to water soluble organic coatings in 1987 and eliminated the K078 and K079 waste streams. 3.EPA recommended no further action because one of the most significant HRS factors related to the John L. Armitage site in May 1991 revealed that the site had no known past chemical spills at the site.

Environmental Interest/Information System
HAZARDOUS AIR POLLUTANT MAJOR

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Background Info: FMC Corporation formulated agricultural chemical and pesticide products at the site from 1946 to 1979. Soil and shallow groundwater were contaminated through releases from the routine handling of materials. The primary contaminants detected in soil and shallow groundwater during the site investigation are organochlorine and organophosphorous pesticides, including DDT, DDD, DDE, dieldrin and chlordane. Dinitrobutylphenol was detected in groundwater most frequently.

Comments Date: 04232003
Comments: Completed Five-Year Review. The report concluded that the
Comments Date: 04232003
Comments: objectives of the remedial action were being met. However, the
Comments Date: 04232003
Comments: cap had to be continuously repaired due to the heavy machinery
Comments Date: 04232003
Comments: used on the site to move around the shipping containers. The
Comments Date: 04232003
Comments: effectiveness and efficiency of the quarterly groundwater
Comments Date: 04232003
Comments: monitoring and cap inspections over the past ten years were also
Comments Date: 04232003
Comments: reviewed. The review concluded that the contamination was not
Comments Date: 04232003
Comments: migrating; the frequency of groundwater monitoring was reduced
Comments Date: 04232003
Comments: to annual inspections to occur in April of each year. The cap
Comments Date: 04232003
Comments: inspections were to continue on the quarterly schedule due to
Comments Date: 04232003
Comments: the potential of damage from the business operation at the site.
Comments Date: 04232003
Comments: The tenant was required to stop use of heavy machinery in 2003.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Reclamation: Not reported
 POTW: Not reported
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

FIVE STAR CLEANERS
2145 RUMRILL BLVD STE A
SAN PABLO, CA 94806

CA SLIC **S103952569**
CA DRYCLEANERS **N/A**

Site 2 of 2 in cluster O

Relative:
Higher

SLIC:
 Region: STATE
Facility Status: Open - Remediation
 Status Date: 11/30/2011
 Global Id: SL0601392884
 Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)
 Lead Agency Case Number: Not reported
 Latitude: 37.9636380015323
 Longitude: -122.355680465698
 Case Type: Cleanup Program Site
 Case Worker: BGS
 Local Agency: Not reported
 RB Case Number: 07S0182
 File Location: Regional Board
 Potential Media Affected: Indoor Air, Other Groundwater (uses other than drinking water), Soil, Soil Vapor

Actual:
28 ft.

Potential Contaminants of Concern: Tetrachloroethylene (PCE), Trichloroethylene (TCE), Vinyl chloride
 Site History: The soil and groundwater beneath the site have been contaminated by PCE from dry cleaning operations. Several environmental investigation have been conducted at the site since 2004. The investigation results indicate that the dissolved PCE plume has migrated off-site (to the west) beneath the adjacent apartment building. The plume has been delineated vertically, and laterally in all directions except to the southwest. PCE concentrations in soil vapor samples collected in several on-site and off-site locations, including locations within the off-site apartment building exceed the ESLs. The site cleanup options are being evaluated.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Correspondence
Completed Date: 02/07/2017

Comments: Environmental Resource Group submitted to DTSC additional grab groundwater analytical results on January 11, 2017. Petroleum hydrocarbons and acetone were detected at relatively low concentrations below the applicable Regional Water Quality Control Board Environmental Screening Levels for groundwater not used as a drinking water resource. DTSC responded that the sampling results further support DTSC's no further action determination in a letter issued on November 8, 2016.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Voluntary Cleanup Agreement
Completed Date: 08/04/2016

Comments: DTSC entered into a Voluntary Cleanup Agreement Sunborne Nursery to oversee a Preliminary Endangerment Assessment.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 11/08/2016

Comments: DTSC determined that no further action is required and that the planned plant nursery is an acceptable land use at the site. This determination was based on review of Phase I and Phase II Environmental Site Assessment Reports. Approximately 4 cubic yards of soil was removed at one sampling location where arsenic was detected at a concentration of 42 milligrams per kilogram, above the naturally-occurring background arsenic concentration.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Info:

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Correspondence
Completed Date: 07/18/2008
Comments: Referral letter sent to SF RWQCB on 7/18/08. Referral also included 81 and 155 Parr Blvd.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 06/05/2008
Comments: Site screening approved 6/5/08. The site screening recommended referring 2701 Goodrick to RWQCB, because it borders 177 Parr where RWQCB provided oversight for investigation and cleanup of contamination issues. The site screening covered four properties, including the subject site, that were acquired to provide land for a proposed redevelopment project (a tribal casino). The formerly separate properties are 81 Parr Blvd (Broadline/Simpson Filtration/American Refining), 155 Parr Blvd (Agra Foundations), 177 Parr Blvd (Color Spot, Yard 3), and 2701 Goodrick Ave. 81 Parr and 155 Parr appear to have mostly petroleum-related contamination, and the site screening therefore recommended referral to RWQCB. RWQCB oversaw investigation and cleanup at 177 Parr (former Color Spot Nursery, Yard 3).

Completed Info:

Completed Area Name: PROJECT WIDE
 Completed Sub Area Name: Not reported
 Completed Document Type: Site Screening
 Completed Date: 06/05/2008
 Comments: Site screening approved 6/5/08. Site referred to RWQCB, since RWQCB oversaw investigation and cleanup this site. The site screening covered four properties, including the subject site, that were acquired to provide land for a proposed redevelopment project (a tribal casino). The formerly separate properties are 81 Parr Blvd (Broadline/Simpson Filtration/American Refining), 155 Parr Blvd (Agra Foundations), 177 Parr Blvd (Color Spot Nursery, Yard 3), and 2701 Goodrick Ave. 81 Parr and 155 Parr appear to have mostly petroleum-related contamination, and the site screening therefore recommended referral to RWQCB. The site screening also recommended referring 2701 Goodrick to RWQCB, because it borders 177 Parr and would likely have similar contamination issues.

the site. Report dated December 2004 was transmitted to EPA January 20, 2005.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 02/27/1990
Comments: Site Tracking Sheet states that recommendation is pending, PEA medium priority. County and city of Richmond are lead agencies; RWQCB is involved. Cleanup oversight by City; RWQCB if there is groundwater contamination. Site had drums containing phosphoric acid, pesticides, sodium hydroxide, and oil waste. Buried pesticide drums were found.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 07/01/1991
Comments: City of Richmond Fire Dept. originally ordered SFPRC to abate the fire hazards caused by delapidated buildings and trash on site. Upon cleaning site, approx. 100 drums were found, including 12 buried drums containing pesticides. Hazcat on drum material indicate the presence of oil sludges, phosphoric acid, NaOH, and pesticides. City of Richmond overseeing initial site stabilization, RWQCB overseeing long term cleanup when groundwater contamination found. City of Richmond and RWQCB also currently overseeing cleanup.

Completed Document Type: Amendment - Order/Agreement
Completed Date: 02/06/2013
Comments: Third Amendment to Voluntary Cleanup Agreement was executed on 2/6/13. Copy of the Amendment was sent to City of San Pablo on 2/8/13. The Amendment changes the Project Proponent from the City's Redevelopment Agency to City of San Pablo. All redevelopment agencies in California were dissolved on February 1, 2012. The City of San Pablo is the successor to the redevelopment agency.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: CEQA - Responsible Agency Review
Completed Date: 05/07/2013
Comments: Responsible Agency Checklist approved 5/6/13. The Checklist reviewed the potential environmental impacts of RAW, based on the Initial Study/Negative Declaration (IS/ND) prepared for the City's Rumrill Park project, which includes the remediation work described in the RAW. DTSC concurs with the IS/ND that implementation of the RAW will not have significant environmental impacts. The RAW includes control measures and procedures for preventing significant impacts. Notice of Determination (NOD) approved 5/7/13 and filed with Office of Planning and Research on 5/8/13.

Study/Negative Declaration (IS/ND) prepared for the City's Rumrill Park project, which includes the remediation work described in the RAW. DTSC concurs with the IS/ND that implementation of the RAW will not have significant environmental impacts. The RAW includes control measures and procedures for preventing significant impacts. Notice of Determination (NOD) approved 5/7/13 and filed with Office of Planning and Research on 5/8/13.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Voluntary Cleanup Agreement
Completed Date: 01/13/2006
Comments: VCA fully executed. Scope consists of Preliminary Endangerment Assessment.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Certification
Completed Date: 06/27/2017
Comments: DTSC certifies the remedial action at the former BNSF property on Rumrill Boulevard near Chesley Avenue in San Pablo. Cleanup goals were commercial/industrial. The remedy consisted of excavation and off-site disposal of contaminated soil, the installation of a surface cap to prevent human exposure, a land use covenant restricting the property to commercial/industrial uses, and operation and maintenance of the surface cap.

Completed Area Name: PROJECT WIDE

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction
Completed Date: 03/16/2017
Comments: The Site is used as a recreational facility by the public. The LUC prohibits its use as residence, hospital for humans, school for persons under 21 years and day care center. It prohibits activities that disturb soil unless with DTSC s permission and a soil management plan.

Completed Area Name: PROJECT WIDE

Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operation & Maintenance Order/Agreement
Completed Date: 02/07/2017
Comments: The Operation and Maintenance Agreement was executed by both parties. A DTSC-Approved Remedy has been installed at the site and consists of a recreational sports complex that functions as a cap. Operation and Maintenance of the cap are required at the site to ensure the ongoing effectiveness of the remedy.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

FINDS:

Registry ID: 110002147347

Environmental Interest/Information System

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Document Type: Correspondence
Completed Date: 07/18/2008
Comments: Referral letter to SF RWQCB sent 7/18/08. Referral includes 155 Parr Blvd and 2701 Goodrick Ave.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 06/05/2008
Comments: Site screening approved 6/5/08. The site screening recommended referral to RWQCB, because contamination appears to be mainly related to petroleum hydrocarbon releases. The site screening covered four properties, including the subject site, that were acquired to provide land for a proposed redevelopment project (a tribal casino). The formerly separate properties are 81 Parr Blvd (Broadline/Simpson Filtration/American Refining), 155 Parr Blvd (Agra Foundations), 177 Parr Blvd (Color Spot, Yard 3), and 2701 Goodrick Ave. 155 Parr appears to have mostly petroleum-related contamination, and the site screening therefore recommended referral to RWQCB. RWQCB oversaw investigation and cleanup at 177 Parr (former Color Spot Nursery, Yard 3). The site screening also recommended referral of 2701 Goodrick to RWQCB, because it borders 177 Parr (former Color Spot,

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Background Info: The Cooper Chemical site is named for a resin catalyst manufacturer that briefly used the site. However, other manufacturers have used onsite buildings since the late 1960s, including National Lead subsidiaries, Weigman and Rose, Inc. (WRI) and currently, Richmond Machine and Fabrication. In the early 1970's, the low area in the back of the property (Site R), was filled in with soil, metal, and other miscellaneous debris. In 1987, thirty drums were discovered in this area. These drums contained resins, other wastes and aromatic hydrocarbons. The surrounding soil were found to be contaminated with the aromatic hydrocarbons. The soil still contains elevated levels of lead and chromium. Although metals are found in the groundwater sediments, they have not been detected in filter groundwater samples. Operation and maintenance entails inspection of the site cap and groundwater monitoring to ensure that no contaminant migration occurs.

CA BOND EXP. PLAN:

Responsible Party: RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
Project Revenue Source Company: Not reported
Project Revenue Source Addr: Not reported
Project Revenue Source City,St,Zip: Not reported
Project Revenue Source Desc: Weigmann and Rose, the current site owner, is the designated responsible party and have taken all actions to date. DHS will be issuing a remedial action order or entering into an enforceable agreement with the responsible parties. DHS has budgeted \$30,000 for oversight/monitoring of cleanup efforts. DHS will recover 100 percent of direct costs plus staff costs and overhead related to the project. The responsible party will pay for all costs associated with remedial investigations and cleanup activities.
Site Description: Cooper Chemical formerly manufactured catalyst for fiberglass resins. A chemical manufacturing facility operated adjacent to the vacant site area.
Hazardous Waste Desc: Heavy metals (lead, zinc and copper) have been detected in the soil.
Threat To Public Health & Env: The primary route of potential exposure is through direct contact.
Site Activity Status: The responsible party is continuing with RI/FS activities. Buried drums, discovered in September, 1988, have been removed from the site.

Completed Document Type: Technical Report
Completed Date: 07/25/2011
Comments: This report presents the results of our geotechnical investigation for the proposed multifamily rental housing project at 1329 Filbert Street in Richmond, California.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Phase 1
Completed Date: 02/07/2011
Comments: The Phase 1 report was to provide a record of site conditions and to evaluate if any recognized environmental conditions exist at or near the site. Additionally, to assess the potential for adverse environmental impact from current and historical practices on the property and surrounding areas.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Report
Completed Date: 06/13/2011
Comments: Summary of Environmental sampling and analytical test data for the proposed multi-family rental housing project.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

Alternate Address: 3002 GIANT ROAD
Alternate City,St,Zip: SAN PABLO, CA 94806
Background Info: American Standard operated a vitrified porcelain manufacturing facility from 1913 to 1967. The American Standard Products Site consists of a 10.5-acre manufacturing facility (FMF); a 2-acre former waste disposal area and the adjacent banks of Rheem Creek (collectively referred to as the FWDA); and a 34.5-acre adjacent property known as the Lazy J Ranch (LJR). The Site was divided into three Operable Units (OU): OU-I = FWDA; OU-II = FMF; and OU-III = LJR. Rheem Creek separates FMF and FWDA; Giant Highway separates FWDA and FMF from LJR.
Comments Date: 05101993
Comments: Completed RIFS. Metals were used in the glazing pigmentation
Comments Date: 05101993
Comments: process. Wastewater containing glaze and other process wastes

Background Info: American Standard operated a vitrified porcelain manufacturing facility from 1913 to 1976. The American Standard Products Site consists of a 10.5-acre former porcelain products manufacturing facility (FMF); a 2-acre former waste disposal area and the adjacent banks of Rheem Creek (collectively referred to as the FWDA); and a 34.5-acre adjacent property known as the Lazy J Ranch (LJR). The site was divided into three Operable Units (OU): OU-I = FWDA; OU-II = FMF; OU-III = LJR. FWDA and FMF are located within San Pablo city limits; LJR is located within Richmond City limits. Rheem Creek separates FMF and FWDA; Giant Road separates FWDA and FMF from LJR. Metals were used in for glaze pigmentation on finished products. Wastewater containing glaze and process waste were disposed in settling ponds at the FWDA adjacent to FMF. Off-spec and broken products were also disposed at the FWDA.

Comments Date: 02181997

CA BOND EXP. PLAN:

Responsible Party: RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
Project Revenue Source Company: American Standard, Inc.
Project Revenue Source Addr: 40 West 40th Street
Project Revenue Source City,St,Zip: New York, NY 10018
Project Revenue Source Desc: DHS will be issuing a remedial action order or entering into an enforceable agreement with the responsible parties. DHS has budgeted \$50,000 for oversight/monitoring of cleanup efforts. DHS will recover 100 percent of direct costs plus staff costs and overhead related to the project. The responsible parties will pay all costs associated with site cleanup.
Site Description: Significant concentrations of heavy metals have been identified at the this decommissioned ceramic manufacturing facility waste water treatment pond. Sedimented waste glazing slip containing lead and zinc is spread over a three acre area across a small creek from the manufacturing site.
Hazardous Waste Desc: Lead has been identified at concentrations as high as 83,000 parts per million (ppm) in the fill material. Zinc has been identified at concentrations as high as 48,000 ppm in the fill material.
Threat To Public Health & Env: The site is located adjacent to a residential area and to a creek which flows into the San Francisco Bay. Ground water and surface water contamination is possible. Direct contact is possible. The site is fenced and posted. People fishing and trespassing along the fenced creek may be exposed by contact or through ingestion.
Site Activity Status: A draft RI report for the settling pond area has been submitted for review. Additional remedial investigation is underway on the manufacturing side of the creek. A preliminary feasibility study of remedial alternatives has been submitted.

Background Info: Hazardous substances are suspected to have been released at the Site based on conditions noted in a 1997 drive-by. The property was used as a junkyard for several years. In 1997, the Site had several junk piles, drums, pressurized and other containers, severe dark soil staining and evidence of fire on more than 50% of the Site. In May 1997, a thick black plume of smoke was observed coming from the site which was covered with tires, batteries and miscellaneous automobile scrap. In 1998, DTSC conducted sampling at the site and found elevated levels of lead, copper, zinc and bis(2-ethylhexyl)phthalate.

Relative:
Lower

CA BOND EXP. PLAN:

Responsible Party: RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
 Project Revenue Source Company: Not reported
 Project Revenue Source Addr: Not reported
 Project Revenue Source City,St,Zip: Not reported
 Project Revenue Source Desc: Currently, the RPs are in compliance with an order issued by the Department in May, 1988. However, approximately \$20,000 in Bond funds were expended by the Department to complete the FS and prepare the RAP. DHS has budgeted an additional \$25,000 for direct costs related to the project. The Department will oversee and monitor the RP's implementation of the remedial action. DHS will recover 100 percent of its direct costs plus staff costs and overhead related to the project.

Actual:
14 ft.

Site Description:

This two acre site was used as a scrap metal and drum storage area. A large asbestos pile onsite has been removed. Leaking 55-gallon drums have been observed onsite. The site also includes a contiguous residential property and drainage ditch.

Hazardous Waste Desc:

Approximately 3,500 cubic yards of soil contaminated with elevated levels of heavy metals (copper, nickel, lead and zinc) are distributed over the surface of the site. Limited amounts have migrated to the residential property and drainage ditch.

Threat To Public Health & Env:

The primary threats to the public health and environment are surface water migration and direct contact. A salt water wetlands area is about 3,000 feet away. The site is poorly secured and accessible to the general public. There is a garden area on the residential property which also contains very high concentrations of lead and zinc. The heavy metals in the garden area are suspected of having migrated from the Drew Sales site.

Site Activity Status:

The final RAP has been approved and the remedial design prepared. A deed restriction limiting uses of the property will be imposed. Implementation of the remedial action is projected to be completed in early 1989.

- . Waste code: F001
- . Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
- . Waste code: F002
- . Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
- . Waste code: F003
- . Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT

MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F004
- . Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F005
- . Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F006
- . Waste name: WASTEWATER TREATMENT SLUDGES FROM ELECTROPLATING OPERATIONS, EXCEPT FROM THE FOLLOWING PROCESSES: (1) SULFURIC ACID ANODIZING OF ALUMINUM; (2) TIN PLATING ON CARBON STEEL; (3) ZINC PLATING (SEGREGATED BASIS) ON CARBON STEEL; (4) ALUMINUM OR ZINC-ALUMINUM PLATING ON CARBON STEEL; (5) CLEANING/STRIPPING ASSOCIATED WITH TIN, ZINC, AND ALUMINUM PLATING ON CARBON STEEL; AND (6) CHEMICAL ETCHING AND MILLING OF ALUMINUM.

- . Waste code: F007
- . Waste name: SPENT CYANIDE PLATING BATH SOLUTIONS FROM ELECTROPLATING OPERATIONS.

- . Waste code: F009
- . Waste name: SPENT STRIPPING AND CLEANING BATH SOLUTIONS FROM ELECTROPLATING OPERATIONS IN WHICH CYANIDES ARE USED IN THE PROCESS.

- . Waste code: F027
- . Waste name: DISCARDED UNUSED FORMULATIONS CONTAINING TRI-, TETRA-, OR PENTACHLOROPHENOL OR DISCARDED UNUSED FORMULATIONS CONTAINING COMPOUNDS DERIVED FROM THESE CHLOROPHENOLS. (THIS LISTING DOES NOT INCLUDE FORMULATIONS CONTAINING HEXACHLOROPHENE SYNTHESIZED FROM PREPURIFIED 2,4,5-TRICHLOROPHENOL AS THE SOLE COMPONENT.)

- . Waste code: K062
- . Waste name: SPENT PICKLE LIQUOR FROM STEEL FINISHING OPERATIONS OF PLANTS THAT PRODUCE IRON OR STEEL.

- . Waste code: P001
- . Waste name: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

PURIFICATION) FROM THE MANUFACTURING USE (AS A REACTANT, CHEMICAL INTERMEDIATE, OR COMPONENT IN A FORMULATING PROCESS) OF TETRA-, PENTA-, OR HEXACHLOROBENZENES UNDER ALKALINE CONDITIONS.

- . Waste code: F023
- . Waste name: WASTES (EXCEPT WASTEWATER AND SPENT CARBON FROM HYDROGEN CHLORIDE PURIFICATION) FROM THE PRODUCTION OF MATERIALS ON EQUIPMENT PREVIOUSLY USED FOR THE PRODUCTION OR MANUFACTURING USE (AS A REACTANT, CHEMICAL INTERMEDIATE, OR COMPONENT IN A FORMULATING PROCESS) OF TRI- AND TETRACHLOROPHENOLS. (THIS LISTING DOES NOT INCLUDE WASTES FROM EQUIPMENT USED ONLY FOR THE PRODUCTION OR USE OF HEXACHLOROPHENE FROM HIGHLY PURIFIED 2,4,5-TRICHLOROPHENOL.)

- . Waste code: F024
- . Waste name: PROCESS WASTES INCLUDING, BUT NOT LIMITED TO, DISTILLATION RESIDUES, HEAVY ENDS, TARS, AND REACTOR CLEAN-OUT WASTES FROM THE PRODUCTION OF CERTAIN CHLORINATED ALIPHATIC HYDROCARBONS BY FREE RADICAL CATALYZED PROCESSES. THESE CHLORINATED ALIPHATIC HYDROCARBONS ARE THOSE HAVING CARBON CHAIN LENGTHS RANGING FROM ONE TO, AND INCLUDING FIVE, WITH VARYING AMOUNTS AND POSITIONS OF CHLORINE SUBSTITUTION. (THIS LISTING DOES NOT INCLUDE WASTEWATERS, WASTEWATER TREATMENT SLUDGE, SPENT CATALYSTS, AND WASTES LISTED IN SECTIONS 261.31. OR 261.32)

- . Waste code: F025
- . Waste name: CONDENSED LIGHT ENDS, SPENT FILTERS AND FILTER AIDS, AND SPENT DESICCANT WASTES FROM THE PRODUCTION OF CERTAIN CHLORINATED ALIPHATIC HYDROCARBONS BY FREE RADICAL CATALYZED PROCESSES. THESE CHLORINATED ALIPHATIC HYDROCARBONS ARE THOSE HAVING CARBON CHAIN LENGTHS RANGING FROM ONE TO, AND INCLUDING FIVE, WITH VARYING AMOUNTS AND POSITIONS OF CHLORINE SUBSTITUTION.

- . Waste code: F026
- . Waste name: WASTES (EXCEPT WASTEWATER AND SPENT CARBON FROM HYDROGEN CHLORIDE PURIFICATION) FROM THE PRODUCTION OF MATERIALS ON EQUIPMENT PREVIOUSLY USED FOR THE MANUFACTURING USE (AS A REACTANT, CHEMICAL INTERMEDIATE, OR COMPONENT IN A FORMULATING PROCESS) OF TETRA-, PENTA-, OR HEXACHLOROBENZENE UNDER ALKALINE CONDITIONS.

- . Waste code: F027
- . Waste name: DISCARDED UNUSED FORMULATIONS CONTAINING TRI-, TETRA-, OR PENTACHLOROPHENOL OR DISCARDED UNUSED FORMULATIONS CONTAINING COMPOUNDS DERIVED FROM THESE CHLOROPHENOLS. (THIS LISTING DOES NOT INCLUDE FORMULATIONS CONTAINING HEXACHLOROPHENE SYNTHESIZED FROM PREPURIFIED 2,4,5-TRICHLOROPHENOL AS THE SOLE COMPONENT.)

- . Waste code: F028
- . Waste name: RESIDUES RESULTING FROM THE INCINERATION OR THERMAL TREATMENT OF SOIL CONTAMINATED WITH EPA HAZARDOUS WASTE NOS. F020, F021, F022, F023, F026, AND F027.

- . Waste code: F032
- . Waste name: WASTEWATERS, PROCESS RESIDUALS, PRESERVATIVE DRIPPAGE, AND SPENT FORMULATIONS FROM WOOD PRESERVING PROCESSES GENERATED AT PLANTS THAT CURRENTLY USE, OR HAVE PREVIOUSLY USED, CHLOROPHENOLIC FORMULATIONS [EXCEPT POTENTIALLY CROSS-CONTAMINATED WASTES THAT HAVE HAD THE F032 WASTE CODE DELETED IN ACCORDANCE WITH SECTION 261.35 (I.E., THE NEWLY PROMULGATED EQUIPMENT CLEANING OR REPLACEMENT STANDARDS), AND WHERE

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

Waste code: D001

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Amount (Lbs): 0

Waste code: D002

Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Amount (Lbs): 0

Waste code: D003

Waste name: A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE OF SUCH WASTE WOULD BY WASTE GUNPOWDER.

and settlements.

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

STATE MASTER

HAZARDOUS WASTE BIENNIAL REPORTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Description: This two-acre site consisted of the Drew Property (a former scrap metal business), the Ellison Property (contiguous residential property), and the Southern Pacific Railroad Right-of-Way (a contiguous drainage ditch). The Drew Property was originally owned by the Richmond Sanitary Service, and was used for storage and maintenance of trucks. In August 1960, the property was purchased by the Drews who operated a scrap metal business on the site until August 1976. Property was sold in December 2002 to Anchor, LLC and is occupied by Ranger Pipelines, a subsidiary of Anchor, LLC. An extensive resurfacing of the cap was done in September 2003. The site is used for equipment storage.

Alternate Address: 7TH AND CASTRO
Alternate City,St,Zip: RICHMOND, CA 94801
Alternate Address: 1156 CASTRO STREET
Alternate City,St,Zip: RICHMOND, CA 94804
Background Info: This two-acre site consisted of the Drew Property (a former scrap metal business), the Ellison Property (contiguous residential property), and the Southern Pacific Railroad Right-of-Way (a contiguous drainage ditch). The Drew Property was originally owned by the Richmond Sanitary Service, and was used for storage and maintenance of trucks. In August 1960, the property was purchased by Bernard and Cathryne Drew who operated a scrap metal business on the site until August 1976. During the period of operation, the site was contaminated with copper, lead, nickel and zinc. The Ellison Property, owned by Richard and Anita Ellison was also contaminated with copper, lead, nickel and zinc at the boundary it shared with the Drew Sales Property. Property was sold in December 2002 to Anchor, LLC and is occupied by Ranger Pipelines, a subsidiary of Anchor, LLC. An extensive resurfacing of the cap was done in September 2003. The site is used for equipment storage.
Comments Date: 01301990
Comments: CERT - Site certified. Ongoing groundwater monitoring and cap
Comments Date: 01301990
Comments: inspections required.
Comments Date: 06301988
Comments: RAP - A Remedial Action Plan (RAP) was approved which required
Comments Date: 06301988
Comments: that all contaminated soil above a residential cleanup level be
Comments Date: 06301988
Comments: removed from the Ellison Property and the Southern Pacific
Comments Date: 06301988
Comments: Right-of-Way. A cap was installed on the Drew Property. Post
Comments Date: 06301988
Comments: remedial activities include operation and maintenance of the cap
Comments Date: 06301988
Comments: and groundwater monitoring.
Comments Date: 08301989
Comments: DEED - A Deed Restriction recorded in August 1989, restricted

Alternate Address: 818 W. GERTRUDE AVENUE
Alternate City,St,Zip: RICHMOND, CA 94801
Background Info: This two-acre site has operated as a metal recycling facility since 1957. The site is a low-lying filled marshland subject to occasional flooding during wet weather conditions. Used transformers with oil coolant containing low levels of polychlorinated biphenyls (PCBs) were bought by Sacramento Municipal Utilities District (SMUD) and were dismantled onsite. The transformers were broken apart and the copper cores were separated from the oil. During this operation, oil containing PCBs was spilled onto the ground.

Comments Date: 01191993
Comments: ORDER - AMEND - An amendment to the Consent Order was made to
Comments Date: 01191993
Comments: implement the approved RAP with modifications. Two Explanation
Comments Date: 01191993
Comments: of Significant Differences (ESD) were done in December 1993 and
Comments Date: 01191993
Comments: April 1995 for modifications and as-builts to the original RAP.
Comments Date: 01191993
Comments: The ESDs covered the slurry wall and extraction trench
Comments Date: 01191993
Comments: modifications to be completely on Fass property; any PCB
Comments Date: 01191993
Comments: contaminated soil on neighboring sites would be collected and
Comments Date: 01191993
Comments: placed on Fass property within the slurry wall area; an interim
Comments Date: 01191993
Comments: groundwater management plan and an interim cap.
Comments Date: 01301987

Site Type: STATE RESPONSE
Status: CERTIFIED / OPERATION & MAINTENANCE
Agency: Not reported
Covenant Uploaded: Not reported
Deed Date(s): 12/26/1996

CA BOND EXP. PLAN:

Responsible Party: RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
Project Revenue Source Company: Not reported
Project Revenue Source Addr: Not reported
Project Revenue Source City,St,Zip: Not reported
Project Revenue Source Desc: To, date, all remediation activities have been conducted by the responsible party. The RP may not be financially capable or willing to complete the site investigation or remediation. DHS will issue a final determination of noncompliance if the RP is unable to complete all necessary activities. DHS has budgeted \$300,000 for investigation and remediation activities and oversight. DHS will recover 100 percent of all direct costs plus staff costs and overhead related to the project.
Site Description: This two-acre site has been operated as a metal recycling facility. Used polychlorinated biphenyl (PCB) transformers from the Sacramento Municipal Utilities District (SMUD) were received here. The PCB transformers were broken apart and the copper cores were separated from the PCB oil coolant. During this operation, the PCB oil coolant was spilled onto the ground.
Hazardous Waste Desc: Substantial amounts of PCB-contaminated soils are present. Preliminary soil sample results indicate that metals and chlorinated solvents may also be present.
Threat To Public Health & Env: The primary threats to public health and the environment are ground water migration, surface water migration and direct contact. Ground water wells are within one-quarter mile. A recreational creek is less than 4,000 feet from the contamination. The site is fenced and posted.
Site Activity Status: Excavation and offsite disposal of 160 cubic yards of PCB contaminated soil occurred in late 1986. All debris and old transformer casings have been removed

and disposed of properly. A runoff diversion, containment and treatment system has been operating since December, 1987. Ground water monitoring wells have been installed and tested. PCBs in ground water were non-detectable. The responsible party has begun work on the risk assessment, feasibility study and remedial action plan. The Department has conducted additional soil sampling and analyses to determine the presence of other contaminants. Chlorobenzene solvents have been found below the ground surface. Additional investigations have been completed.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/07/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/05/2017	Telephone: 703-603-8704

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 09/13/2017	Source: Environmental Protection Agency

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water board's review found that more than one-third of the region's active disposal pits are operating without permission.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Cornerstone Earth Group were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # DDC6-4DA0-8E7E

PO # NA

Project 950-2-2

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: DDC6-4DA0-8E7E

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- Library of Congress
- University Publications of America
- EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

Cornerstone Earth Group (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

APPENDIX F – SELECTED AGENCY DOCUMENTS

UNDERGROUND TANK PROGRAM

Facility Name: Sugihara Nursery

DATE	ACTIVITY	TIME
1-20-88	I Reviewed This folder.	
	This does NOT appear to be a problem with this Dept But please send a leak report so the R.W.G.C.B. will have the opportunity to see for themselves. Rk	
2.4.88	Called Mr. Sugihara to ascertain what happened to the sixth tank that was registered. He said that was a mistake & no other tank was found.	
	He also said he lost the leak report & needs another one - sent. Jan	
2/17/88	Please send The Leak Report to The RWGC Board and let them decide the fate, Rk. Also if we do send a copy of test results.	
9/5/89	BF File review, Brian Em. Assoc, see letter 8/29/89	Bill Wengert
5-10-90	Site Assessment Nancy	

UNDERGROUND TANK PROGRAM

Facility Name: Sugihara Nursery

DATE	ACTIVITY	TIME
7/2/86	Shig Doi (neighbor) called. They want to abandon 12,000 gal.	
BF	Leaking oil tanks, but now full. Could test & use act # 8 (85)	
7/16/86	met with Shig Doi and Mrs. Sugihara (?) owner of facility - he stated that he was having difficulty getting his tanks tested and might need more time -	
1/27/87	BF Talked to Mr. Sugihara. After meeting with Bruce & Richard nurseries yesterday he decided to keep tanks & has them tested. Sent list of testers, application API tanks. Re-invoice via application received	
5-22-87	owner called asked for 2 more appl for I sent + M.P. Helen	
12-15-87	5 TANKS were removed 4 Diesel 1 Gas - The gas TANK Hole showed NO Apparent Leakage. The Diesel TANKS have water and product in the holes. The TANKS were rinsed & red and removed to H+H SF. Fey & Bitner took water & soil samples - They have proper containers. R.D.

if hazardous _____

Name/Address of New Tank Owner (Re-use Only) _____

Destination of Tank _____

Nature of Re-Use _____

All tanks will be considered as hazardous waste unless they are thoroughly cleaned and purged of all product and residue.

CCCHSD staff will inspect all tanks prior to removal from the site.

Copies of manifests for any hazardous waste generated on site during tank removal operations, including tanks disposed of as hazardous waste, must be sent to the CCCHSD.

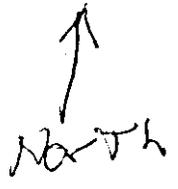

Note: All associated tank piping must be removed; piping that may cause damage to structures if removed may be capped.

Owners of underground storage tanks must contact the local fire district prior to tank removal.

We are requesting extension of time for removal of tanks until we can use up the diesel oil when normal greenhouse heating season starts during October and November on. We should be through using up the existing oil supply by the end of the year. In the meantime, Diablo Petroleum Inc. of 3930 Pacheco Blvd., Martinez, 94553, Ph. 415-228-2222 has been contacted to test these tanks at the earliest possible date. We have been advised that Diablo Petroleum will notify us as soon as the testing date can be scheduled.

 Agricultural

Upon removal of tanks, soil or water (or both) samples must be taken by a qualified sampler. Soil samples are required from directly beneath each end of the tank below fill material. A copy of the lab report, including plot plan and chain of custody must be sent to Contra Costa County Health Services Department (CCCHSD).

Samples will be taken by: Minter & Faly Construction

Samples will be analyzed by: GT Environmental Laboratories Concord

Tank pits that are re-filled prior to CCCHSD's receiving sample results may need to be re-excavated for additional sampling or aeration.

All tanks will be considered as hazardous waste unless they are thoroughly cleaned and purged of all product and residue. Copies of manifests for any hazardous waste generated on site during tank removal operations, including tanks disposed of as hazardous waste, must be sent to CCCHSD.

Tank hauler: H & H Ship Service Destination: H & H Ship Service

Will tank(s) be scrapped: No Yes

PLEASE

NOTE: CCCHSD staff will inspect all tanks prior to removal from the site.

Owners of underground storage tanks must obtain permit from local fire district prior to tank removal. Other agencies may require additional permits. The 1986 Uniform Fire Code and Local Amendment 79.114 require removal of unused underground storage tanks.

All associated tank piping must be removed; piping that may cause damage to structures if removed may be capped.

Anyone contracting to install or remove an underground tank must have the appropriate State contractor's license.

PERMIT: Indicate recipient of the approved permit:

OK

Free Product (Oil and tar) was found in the 6000 gallon tank hole. This product and residue was skimmed and pumped, removed and hauled as hazardous waste, on two separate days prior to backfill per instructions of the County Health Department.

Copies of the Hazardous Materials Manifests are attached.

550 Brookside Drive

Richmond, CA 94801

You are required to complete the enclosed "Leak Report" form per California Administrative Code, Title 23, Subchapter 16, Article 5, Section 2612. Upon completion of the form, send back the four (4) top copies and keep the fifth copy (goldenrod) for your records. Send copies to:

Contra Costa County Health Services
Occupational Health Department
Underground Tank Division
1111 Ward Street
Martinez, CA 94553

(X) Review of soil or water sample analysis indicates that further investigation of soil or ground water contamination at this site may be necessary.

() Contra Costa County Health Services Department have noted these conditions which may warrant further investigation:

This notification is not intended to relieve the facility owner of his obligation to notify the Regional Board (Cal. Water Code Sections 1327 and 3272).

Your failure to take proper action makes you liable for civil penalties ranging from not less than \$500 per day to \$5,000 per day under California Health and Safety Code Section 25299.

If you have any questions, please call (415) 646-2286 and your inquiry will be routed to the appropriate staff.

CLEAN WATER PROGRAM - RECOMMENDED BEST MANAGEMENT PRACTICES (BMP)

1. **Training for Employees:** Provide employees with general information regarding storm water pollution. Include information on the proper disposal of non-storm water, the environmental impacts of storm water pollution, and the benefits of good housekeeping.
2. **Eliminate Improper Discharges into Storm Drains:** Illicit connections are unauthorized permanent connections that allow non-storm water to enter a storm drain. Illicit discharges are routine practices that allow waste water, debris or non-storm water to enter a storm drain, catch basin, or surface water. Illicit connections and discharges are prohibited and must be discontinued. Alternative methods of non-storm water disposal include reuse, recycling, and permitted discharge to sewer.
3. **Spill prevention, Control and Cleanup:** Develop written procedures for spill response containment and cleanup. The business specific plan should address the cleanup of any size spill and include procedures that minimize the polluting of storm water.
4. **Outdoor Equipment Operations and Maintenance:** Inventory outdoor equipment that comes in contact with storm water. Regularly inspect this equipment to locate potential releases of storm water pollutants.
5. **Outdoor Materials Storage and Handling:** Use paved surfaces, storage sheds, and roof coverings to keep storm water from work and storage areas where pollutants may be present. Keep pollutants off surfaces that come into contact with storm water.
6. **Waste Handling & Disposal:** Properly store and handle all wastes. Keep containers closed and protected from storm water. Use good housekeeping procedures. Store oily materials inside or covered. Properly store hazardous wastes.
7. **Equipment Washing and Steam Cleaning:** Do not discharge wash water into a storm drain. Wash areas should be bermed and paved to collect all wastewater. Collected water should be recycled or properly discharged to sewer.
8. **Maintenance of Fleet Vehicles:** Perform vehicle maintenance in areas protected from storm water runoff. Use good housekeeping procedures to keep the work area clean. Regularly inspect vehicles for leaks. Properly maintain storm drains located in service and parking area.
9. **Fueling Fleet Vehicles & Equipment:** Design and operate fueling areas to prevent storm water pollution. Cover fueling areas and perform routine cleanings and other general housekeeping practices. Runoff water should pass through a separator before discharged to sewer.
10. **Building & Grounds Maintenance:** Clean areas by wiping, sweeping, or picking up trash. Maintain rain gutters, catch basins and storm drains to prevent debris from polluting storm water. Avoid washing down areas when cleaning.
11. **Building Repair, Remodeling & Construction:** Store building materials inside or covered. Keep the work area clean and free of debris and spills. Use drop cloths to help minimize the spread of pollutants.

John Sugihara
550 Brookside Drive
Richmond, CA 94801

Subject: **Case Closure - Underground Storage Tanks – Sugihara Nursery, 550 Brookside Drive, Richmond, Contra Costa County**

Dear Mr. Sugihara:

This letter confirms the completion of site investigation and remedial action for the underground storage tanks formerly located at the above described location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tanks are greatly appreciated.

Based upon the available information, including the land use, and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action related to the underground storage tank release is required.

This notice is issued pursuant to a regulation contained in Title 23, California Water Code of Regulations, Division 3, Chapter 16, Section 2721(e). **If change in land use is proposed, the owner must promptly notify this agency.**

Please contact our office, if you have any questions regarding this matter.

Sincerely,

John D. Wolfenbarger
