

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: John F. Kennedy High School Comprehensive Modernization Project

Lead Agency: Los Angeles Unified School District

Contact Name: Mr. Edward Paek

Email: CEQA-comments@lausd.net Phone Number: 213-241-3199

Project Location: 11254 Gothic Avenue, Granada Hills, Los Angeles

Los Angeles
County

Project Description (Proposed actions, location, and/or consequences).

The Project encompasses the Kennedy HS campus, located at 11254 Gothic Avenue in the Granada Hills neighborhood of Los Angeles and consists of the comprehensive modernization of the campus, including demolition, construction, and renovation activities. The Project includes demolition and removal of 22 relocatable buildings (containing 30 classrooms) and the construction of a new 20,500-square-foot building (that will provide ten new classrooms). Additionally, the following buildings would be renovated to improve seismic safety: 1) Classroom Buildings #1, #2, and #3; 2) the Library Building; 3) the Science Building; 4) the Student Store Building; 5) the Cafeteria Building; 6) the Oral Arts Building; 7) the Music Building; 8) the Shop Building; and 9) the Adult School Office. Other improvements include campus-wide infrastructure, including domestic water, fire, irrigation, gas, sewer, low voltage (e.g., fire, telephone, data), electrical and storm drainage, Americans with Disabilities Act (ADA) compliance, landscape, hardscape, interior and exterior paint, and window treatments. The Project scope also includes the placement of interim facilities, as necessary and subject to all relevant codes and regulations, to replace facilities and associated functions lost during construction.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

- MM-TCR-1: In the event that Native American cultural resources are discovered during Project activities, all work in the immediate vicinity of the find (within a 60-foot buffer) shall cease and a qualified archaeologist meeting Secretary of Interior standards shall assess the find. The Fernandeano Tataviam Band of Mission Indians (FTBMI) shall be contacted to consult if any such find occurs. The archaeologist shall complete all relevant California State Department of Parks and Recreation (DPR) 523 Series forms to document the find and submit this documentation to LAUSD, FTBMI, and consulting Tribes. If the Native American cultural resource is determined to be significant, as defined by the FTBMI, a Native American archaeological monitor procured by the FTBMI shall be present for all ground disturbing activities that occur within the proposed Project area. The archaeologist and Tribal monitor(s) will have the authority to request ground disturbing activities cease within the immediate area of a discovery to assess potential finds in real time.
 - o Any finds shall be subject to the Treatment and Disposition Plan, as described within MM-2.
- MM-TCR-2: LAUSD will consult with the Fernandeano Tataviam Band of Mission Indians and consulting Tribes on the disposition and treatment of any artifacts or other cultural materials if encountered during the project grading.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Not applicable.

Provide a list of the responsible or trustee agencies for the project.

Potential reviewing agencies may include:

State Agencies:

California Office of Historic Preservation; California Department of Transportation; California Resources Agency; California Department of Conservation; California Department of Fish and Wildlife; Native American Heritage Commission; State Lands Commission; California Highway Patrol.

Regional Agencies:

Metropolitan Transportation Agency; South Coast Air Quality Management District; and the Southern California Association of Governments.
