Project # 0516000073
Bridge Replacement

From: DEPARTMENT OF TRANSPORTATION / District 5
Office of Planning
Environmental Engineering Branch
Isaac Leyva

Subject: **PALEONTOLOGY REVIEW**

Environmental Engineering has reviewed a proposed project to replace the existing bridge along Highway 101 over San Jose Creek near the City of Goleta in Santa Barbara County.

Since all work will take place on or near the bridge site where previous disturbance has taken place, **there is a low probability of encountering paleontological resources associated with the project.**

If there is a change in the nature or scope of the project please submit a supplemental request for a supplemental paleontological assessment to cover the changes in the project. If you have any questions or comments, please contact Isaac Leyva at (805) 549-3487.
