 Economic/Jobs Public Services/Facilities Traffic/Circulation Other: Greenhouse Gas Emissions

Present Land Use/Zoning/General Plan Designation:

Timberlands and State and Federal Lands

Project Description: (please use a separate page if necessary)

The California Department of Transportation proposes to conduct a geotechnical investigation in support of the Last Chance Grade Permanent Restoration Project, located east of U.S. Highway 101 between post miles 12.0 and 15.5 in Del Norte County. The purpose of the geotechnical investigation is to characterize the geology within the project area and along potential roadway alignments. The characterization would occur through the analysis of soil and rock samples, groundwater data, and measurements of slope movement. The information is needed to evaluate and identify geotechnically critical sites, including locations of potential bridge abutments and tunnel portals.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
